The Enduring Legacy of Muslim Civilization

The United States is one of the most religious places on earth, but it is also a nation of shocking religious illiteracy. Only 10 percent of American teenagers can name all five major world religions and 15 percent cannot name any. Nearly two-thirds of Americans believe that the Bible holds the answers to all or most of life's basic questions, yet only half of American adults can name even one of the four gospels and most Americans cannot name the first book of

the Bible. Despite this lack of basic knowledge, politicians and pundits continue to root public policy arguments in religious rhetoric whose meanings are missed—or misinterpreted—by the vast majority of Americans. "We have a major civic problem on our hands," says religion scholar Stephen Prothero. He makes the provocative case that to remedy this problem, we should return to teaching religion in the public schools. Alongside "reading, writing, and arithmetic," religion ought to become the "Fourth R" of American education. Many believe that America's descent into religious illiteracy was the doing of activist judges and

secularists hell-bent on banishing religion from the public square. Prothero reveals that this is a profound misunderstanding. "In one of the great ironies of American religious history," Prothero writes, "it was the nation's most fervent people of faith who steered us down the road to religious illiteracy. Just how that happened is one of the stories this book has to tell." Prothero avoids the trap of religious relativism by addressing both the core tenets of the world's major religions and the real differences among them. Complete with a dictionary of the key beliefs, characters, and stories of Christianity, Islam, and other religions, *Religious Literacy* reveals what

every American needs to know in order to confront the domestic and foreign challenges facing this country today.

As parents, we must raise our children in the Islamic Faith. This requires us to introduce our children to our beloved Prophet Muhammad PBUH, the role model that Allah sent down for us to emulate and follow, so that we will succeed in this world and the next. He has the best

manners and character, and we should learn from him and love him. But simply loving our Prophet is not enough. We must actually live the lifestyle that our beloved Prophet teaches us. ? My First Book on Hadith for Kids ? introduces Prophet Muhammad PBUH and his teachings in an easy, fun, and educational way so our kids develop and are instilled with love for our Prophet and learn to live the way he teaches us to live. This book shares various Hadiths of our Prophet, ranging from a Hadith on good manners and remembering Allah to a Hadith on the etiquette of eating, sleeping, and hygiene. Every concept this book teaches contains colorful images to help your

child understand and appreciate what they need to learn!

The Alchemy of Happiness was an attempt to show ways in which the lives of a Sufi could be based on what is demanded by Islamic law. This book allowed Al Ghazzali to considerably reduce the tensions between the scholars and mystics. The influence of Al-Ghazzali upon both the Christian and Islamic thinkers of the Middle Ages and beyond is being more and more widely documented.

 Timeless Islamic Principles for Navigating the Digital Age
 Social media and digital technologies have changed our lives and there is no indication that things will slow down. As Muslims, we believe that Islam contains the most perfect guidance for all of mankind to follow. How do we implement that timeless advice in our unprecedented times? That is the focus of the Fiqh of Social Media. "I am grateful and appreciative of my friend, Omar Usman, for exhausting available resources; Islamic, psychological, secular, and business, to develop the work you see before you. We have had long discussions pertaining to many of the topics

covered in this book. I am confident that you will find this book to be beneficial, and I pray that it inspires more contributions on this topic." -Shaykh AbdulNasir Jangda, Qalam Institute "With the time we spend on social media, being mindful of how we use it is crucial. This is a wonderful resource based in prophetic guidance on how to practically use social media in wise and beneficial ways." -Dr. Omar Suleiman, Yaqeen Institute "Reading Fiqh of Social Media is like sitting with your best friend from Sunday school and having an intellectual & spiritual conversation about the impact of social media on your life. Omar distills years of research, experience,

and thought leadership in an easily digestible book that you can enjoy with a good cup of coffee (and your phone off!)" - Mohammed Faris, The Productive Muslim Company "Having followed Omar Usman's extensive work on the #FiqhOfSocialMedia and attended the seminar by him in person, I'm thrilled to hear about this being released in book form. Behavioral experts often demarcate an addiction by its rendering of a person dysfunctional; it sabotages his/her career, relationships, health, or any other fundamental facet of one's life. Therefore, considering what the digital age is undeniably crippling in our lives, I cannot

overstate the importance of availing oneself this sobering critique of social media's true costs, its pragmatic course for rehabilitation, and its showcasing of the renewed relevance of Islam's timeless principles for self-care in the most comprehensive sense of the word." -Shaykh Mohammad Elshinawy, Mishkah University

"The Prophet (s) said, "Whoever believes in Allah and the Last Day should say something good or keep silent." The ability to control our tongues, how we communicate with others, is an expression of our faith. Communication has evolved and changed so much that one of the primary ways many of us communicate with others is through

social media; hashtags and 280 characters. This is a long-awaited work from my good friend and Hajj companion Omar Usman who has been writing, tweeting, speaking, and teaching about the Fiqh of Social Media for years. This is a valuable work providing guidance on how to use and benefit from social media in a way that conforms to our principles and values." -Shaykh Furhan Zubairi, Institute of Knowledge

"Ulama of the past have written on the adaab of speech and social interaction. Connecting those guidelines with the modern world of social media has been the need of our time. May Allah reward Omar for taking this task on!" - Mufti Hussain Kamani,

Qalam Institute "This is a must-read for Muslims around the globe. I can't thank Omar enough for this work which forces Muslims to look in the mirror and answer tough questions about how social media has impacted our lives. It questions why we desire to share the most intimate aspects of our lives with strangers from around the world and provides action items to implement. These discussions need to be had within the Muslim community. We have to question how our quality of life has been impacted by the age of hyper-connectivity. Due to the fact that Social Media is the tool for creating social capital, we need to realize that speaking about the harms of

constant connectivity takes a lot of courage. Thank you, Omar, for this work." -Shaykh Mikaeel Smith, Qalam Institute

This volume rejects the notion that Islam's sacred text is error free and cannot be critically evaluated. The study of the Koran must develop and mature. Scholars of Islam are of course familiar with the book's many errors and contradictions, but these inherent flaws have rarely been revealed to a wider public. The Origins of the Koran is an attempt to remedy this deficiency by bringing together classic critical

essays which raise key issues surrounding Islam's holy book. Divided into four parts, this important anthology begins with Theodor Nöldeke's first truly scientific study of the Koran. Part Two focuses on the difficulty of establishing a reliable Koranic text, while Part Three examines the Jewish, Christian, and Zoroastrian sources of Muhammad's revelation. Part Four is a consideration of the controversial interpretations of contemporary scholar John Wansbrough, who questions the historical reliability of the earliest Islamic sources. This superb collection, which includes additional selections from Leone Caetani, Arthur Jeffery, David Margoliouth,

Andrew Rippin, C.C. Torrey, and more, will prove indispensable to scholars and all those interested in the textual underpinning of one of the fastest growing religions in the world. Ibn Warraq is the highly acclaimed author of *Why I Am Not a Muslim* and *Defending the West*. He is also the editor of *The Origins of the Koran, What the Koran Really Says, Leaving Islam, The Quest for the Historical Muhammad, and Which Koran*'.

At the end of a five-year journey to find out what religious Americans think about science, Ecklund and Scheitle emerge with the real story of the relationship between science and religion in American culture. Based on the most comprehensive survey ever done-representing

a range of religious traditions and faith positions-Religion vs. Science is a story that is more nuanced and complex than the media and pundits would lead us to believe. The way religious Americans approach science is shaped by two fundamental questions: What does science mean for the existence and activity of God? What does science mean for the sacredness of humanity? How these questions play out as individual believers think about science both challenges stereotypes and highlights the real tensions between religion and science. Ecklund and Scheitle interrogate the widespread myths that religious people dislike

science and scientists and deny scientific theories. Religion vs. Science is a definitive statement on a timely, popular subject. Rather than a highly conceptual approach to historical debates, philosophies, or personal opinions, Ecklund and Scheitle give readers a facts-on-the-ground, empirical look at what religious Americans really understand and think about science. *Islamic and Muslim Studies in Australia* Edinburgh University Press

The Islamic community boasts of being one united community. Its cornerstone belief is Tawheed (Oneness of G-d). Its fundamental principle is the Unity of G-d, and this speaks to the unity of humanity. Yet when you look at the Islamic community over its almost fifteen century history; racism, prejudice, bias, and discrimination have continued to prevail. I argue that the Islamic community has suffered fragmentation, as a result of this artificial divide. Therefore, the one united community

has been more of an ideal than reality. I contend that really understanding the concept of Tawheed is the true answer--the bridge--as it were--to overcoming this artificial divide, the divide that separates the immigrant Muslim from the African American Muslim.

A religion is a system of stories, and there is no better way to engage with the world's religions than through the stories that animate their beliefs and practices. Through the exploration of these ancient stories and contemporary practices, Stephen Prothero, a New York Times bestselling author and gifted storyteller, helps

students better grasp the role of religion in our fractured world and to develop greater religious literacy. Videos and an award-winning adaptive

learning tool, InQuizitive, further engage students and help them master core objectives and develop their own religious literacy.
