HANCOCK EWING

Presumed Innocent Mantle

Haunted by the traumatic events of his abduction two years ago, sixteen-year-old Daniel Robinson has tried everything to make his escalating nightmares vanish. Failing to cope with it on his own, Daniel knows it's only a matter of time before his family, best friend, and his girlfriend notice the lingering effects of his insomnia. Will Daniel reach out for help, or allow the nightmares to consume his sanity? Meanwhile, Daniel's best friend, Kyle Hanson, has been invited by Enterprise's Varsity basketball captain to take part in the Varsity team's rituals at the mysterious Midnight House. Skeptical of their motives, Daniel takes matters into his own hands to find out what's going on at the secretive hideaway. Is this Kyle's chance to prove himself to the Varsity team, or is something more sinister at play? As the boys navigate through the complications of new friendships, jealousy, romance, and high school, their unbreakable bond and the strength of their friendship will be tested. Full of suspicion and half truths, *The Burden of Proof* is Scott Turow's second Kindle County legal thriller. One afternoon in late March, Sandy Stern, the brilliant, quixotic defence lawyer in *Presumed Innocent*, returns home to find his wife Clara dead in the garage. They have been married for thirty-

Life Less Lonely, A: What We Can All Do to Lead More Connected, Kinder Lives Pan Macmillan

Loneliness has reached the levels of an epidemic. From the bullied child to the new parent, from the pensioner who has outlived friends and family members to teenagers who manage their social lives through the glow of a mobile phone, it can - and does - affect anyone and everyone, irrespective of age, race or class. Many suffer in silence, convinced it's a confession too far, a sign of too much vulnerability, a shameful failing. But the human condition is not a failing. What's it like when loneliness descends? How does it announce itself, and how do you recognise it? Do you discuss it, or conceal it? From where can you seek help? *A Life Less Lonely* shares stories of loneliness and social isolation, and looks for ways in which we can help one another to future-proof ourselves against this most insidious affliction. By talking to those who suffer from it, and by highlighting the work of those who fight to combat it, the book offers guidance on how to spot the symptoms in yourself and in others, how to connect with those around you, and how, by understanding it all better, we might just set ourselves free from it. In this way, what is an epidemic today might not be one tomorrow.

Innocent Farrar, Straus and Giroux

The New York Times bestselling author of *My Sunshine Away* returns with another instant Southern classic: a gripping and heartfelt novel about a mysterious machine that upends a small Louisiana town, asking us all to wonder if who we truly are is who we truly could be. What would you do if you knew your life's potential? That's the question facing the residents of Deerfield, Louisiana, when the DNAMIX machine appears in their local grocery store. It's nothing to look at, really--it resembles a plain photo booth. But its promise is amazing: With just a quick swab of your cheek and two

dollars, the device claims to use the science of DNA to tell you your life's potential. With enough credibility to make the townspeople curious, soon the former teachers, nurses, and shopkeepers of Deerfield are abruptly changing course to pursue their destinies as magicians, cowboys, and athletes--including the novel's main characters, Douglas Hubbard and his wife, Cherilyn, who both believed they were perfectly happy until they realized they could dream for more... Written with linguistic grace and a sense of wonder, *The Big Door Prize* sparkles with keen observations about what it might mean to stay true to oneself while honoring the bonds of marriage, friendship, and community, and how the glimmer of possibility can pull these bonds apart, bring them back together, and make second chances possible, even under the strangest of circumstances.
