The Psychology of American Fascism Penguin

This is my fourth and final book on the history of the Long Island Indians of the North Shore. This is the history of the Native American Indians of Gabler's Creek in Little Neck/Douglaston NY and of Lakveville Manhasset's Valley Road. My Ancestors of the North Shore

[Why American History Is Not What They Say](#) GIG PowHer Press

Military Recruiting in the United States provides a fearless and penetrating description of the deceptive practices of the U.S. military as it recruits American youth into the armed forces. Long-time antiwar activist Pat Elder exposes the underworld of American military recruiting in this explosive and consequential book. The book describes how recruiters manage to convince youth to enlist. It details a sophisticated psy-ops campaign directed at children. Elder describes how the military encourages first-person shooter games and places firearms into the hands of thousands using the schools, its JROTC programs, and the Civilian Marksmanship Program to inculcate youth with a reverence for guns. Previously unpublished investigative work reveals how indoor shooting ranges in schools are threatening the health of children and school staff through exposure to lead particulate matter. The book provides a kind of "what's coming next manual" for European peacemakers as they also confront a rising tide of militarism. The book examines the disturbing, nurturing role of the Catholic Church in recruiting youth. It surveys the wholesale military censorship of

Hollywood films, pervasive military testing in the high schools, and an explosion of military programs directed toward youth. For more information, visit: www.counter-recruit.org

Road traffic crashes in low- and middle-income countries have claimed over a million lives, and caused upwards of 20 million injuries, every year for over a decade. The UN and the WHO have been unsuccessful in reducing this tragedy. This book provides practical and prioritized recommendations of what to do now in low- and middle-income countries.

"Remember the Maine, to Hell with Spain!" The USS Maine is one of the most famous ships in American history, but for all the wrong reasons. A symbol of naval strength in the late 19th century, the Maine's tragic fate is taught to students across the nation, not just because it was a disaster but because it is associated with the most notorious examples of yellow journalism in the country's history and ultimately brought about a war, despite the fact it's still unclear what caused the ship's explosion. In 1898, one of Spain's last possessions in the New World, Cuba, was waging a war for

independence against Spain. Though Cuba was technically exempted from the United States' Monroe Doctrine since Cuba was already a possession of Spain when the Monroe Doctrine was issued, many Americans believed that the United States should side with Cuba against Spain. At the same time, however, President William McKinley wanted to avoid getting tangled in a war between outsiders, while Spain also wanted to avoid any conflict with United States and its powerful navy. Despite leaders hoping to stay above the fray, American economic interests were being harmed by the ongoing conflict between Cuban nationalists and Spain, as merchants' trading with Cuba was suffering now that the island was undergoing conflict.

Furthermore, the American press capitalized on the ongoing Cuban struggle for independence, which had been flaring up time and again since 1868.

In an effort to sell papers, the press frequently sensationalized stories, which came to be known as yellow journalism, and during the run-up to war, yellow journalism spread false stories about the Cuban conflict in order to sell newspapers in the competitive New York City market. Despite President McKinley's wishes to avoid a war, he was forced to support a war with Spain after the USS Maine suffered an explosion in Havana's harbor in February 1898. McKinley had sent the ship to help protect American citizens in Cuba from the violence that was taking place there, but the explosion devastated the USS Maine, which had to be towed to harbor and eventually scuttled, but only after 266 American sailors aboard the ship were killed. Although the cause of the explosion was never determined, yellow journalists in the American press blamed Spain, claiming the USS Maine was sabotaged. President McKinley was unable to resist popular pressure after a U.S. Navy report also claimed that the ship had been subjected to an explosion outside of its hull, which subsequently ignited its powder magazines inside the ship. Later investigations proved inconclusive, but President McKinley was now forced to accept war with Spain, bringing about the Spanish-American War. The Explosion of the USS Maine chronicles the controversial explosion, tracing the history of the ship from its glorious beginning to its ignominious end, as well as the critical aftermath. Along with pictures of important people, places, and events, you will learn about the USS Maine like never before, in no time at all.

Stone Song Harlequin Books

The Routledge History of American Foodways provides an important overview of the main themes surrounding the history of food in the Americas from the pre-colonial era to the present day. By broadly incorporating the latest food studies research, the book explores the major advances that have taken place in the past few decades in this crucial field. The volume is composed of four parts. The first part explores the significant developments in US food history in one of five time periods to situate the topical and thematic chapters to follow. The second part examines the key ingredients in the American diet throughout time, allowing authors to analyze many of these foods as items that originated in or dramatically impacted the Americas as a whole, and not just the United States. The third part focuses on how these ingredients have been transformed into foods identified with the American diet, and on how Americans have produced and presented these foods over the last four centuries. The final section explores how food practices are a means of embodying ideas about identity, showing how food choices, preferences, and stereotypes have been used to create and maintain ideas of difference. Including essays on all the key topics and issues, The Routledge History of American Foodways comprises work from a leading group of scholars and presents a comprehensive survey of the current state of the field. It will be essential reading for all those interested in the history of food in American culture.

Four Fish Routledge

Corinne is running from the pain of her past but she can't seem to run fast enough. Jabari thought he had it all but even with everything, something is still missing. Follow Corinne and Jabari through the streets of Atlanta as she offers him a loyalty he's never had and he showers her in a love she never knew existed!

Reducing Global Road Traffic Tragedies American Catch

By the bestselling author of Four Fish and American Catch, an eye-opening investigation of the history, science, and business behind omega-3 fatty acids, the "miracle compound" whose story is intertwined with human health and the future of our planet Omega-3 fatty acids have long been celebrated by doctors and dieticians as key to a healthy heart and a sharper brain. In the last few decades, that promise has been encapsulated in one of America's most popular dietary supplements. Omega-3s are today a multi-billion dollar business, and sales are still growing apace—even as recent medical studies caution that the promise of omega-3s may not be what it first appeared. But a closer look at the omega-3 sensation reveals something much deeper and more troubling. The miracle pill is only the latest product of the reduction industry, a vast, global endeavor that over the last century has boiled down trillions of pounds of marine life into animal feed, fertilizer, margarine, and dietary supplements. The creatures that are the victims of that industry seem insignificant to the untrained eye, but turn out to be essential to the survival of whales, penguins, and fish of all kinds, including many that we love to eat. Behind these tiny molecules is a big story: of the push-and-pull of science and business; of the fate of our oceans in a human-dominated age; of the explosion of land food at the expense of healthier and more sustainable seafood; of the human quest for health and long life at all costs. James Beard Award-winning author Paul Greenberg probes the rich and surprising history of omega-3s—from the dawn of complex life, when these compounds were first formed; to human prehistory, when the discovery of seafood may have produced major cognitive leaps for our species; and on to the modern era, when omega-3s may point the way to a bold new direction for our food system. With wit and boundless curiosity, Greenberg brings us along on his travels—from Peru to Antarctica, from the Canary Islands to the Amalfi Coast—to reveal firsthand the practice and repercussions of our unbalanced way of eating. Rigorously reported and winningly told, The Omega Principle is a powerful argument for a more deliberate and forward-thinking relationship to the food we eat and the oceans that sustain us.

Strength in Numbers Penguin

"A necessary book for anyone truly interested in what we take from the sea to eat, and how, and why." —Sam Sifton, The New York Times Book Review Acclaimed author of American Catch and The Omega Principle and life-long fisherman, Paul Greenberg takes us on a journey, examining the four fish that dominate our menus: salmon, sea bass, cod, and tuna. Investigating the forces that get fish to our dinner tables, Greenberg reveals our damaged relationship with the ocean and its inhabitants. Just three decades ago, nearly everything we ate from the sea was wild. Today, rampant overfishing and an unprecedented biotech revolution have brought us to a point where wild and farmed fish occupy equal parts of a complex marketplace. Four Fish offers a way for us to move toward a future in which healthy and sustainable seafood is the rule rather than the exception. *Live As a Man. Die As a Man. Become a Man.* Rose Garden Press

Billy Johnson doesn't give it a second thought when he joins in with his friends making fun of a little girl in a wheelchair. Then Pauly comes into his life, and Billy not only learns a valuable lesson about compassion and acceptance but he gets a new best friend! Grades 3-4

Her Perfect Life Xlibris Corporation

Madeline Rose is a sweet, sheltered and eternally youthful young woman of 25—the youngest child of a prominent Philadelphia neurosurgeon. Despite the unending support of a loving, close family, she battles formidable insecurities, thanks to a recent, bitter break-up with her first real boyfriend and a turbulent adolescence characterized by a few extra pounds. Unsure of her future, she struggles to live up to her potential as well as her highly educated pedigree, given her fortunate placement in an impressive ancestral heritage. Still adjusting to civilian life after four years in the United States Navy, handsome, affable and ambitious Ken Lockheart has two goals: to rise above his blue-collar, Shore town roots and to marry his true love. Though the epitome of the classic, all-American male with his boyish good looks, six-foot frame and broad, muscular body, he retains a basic humility borne of a relentless work ethic and an inner drive to succeed. When a chance encounter in a Somers Point nightclub initiates an unexpected relationship, neither one of them is prepared for the ensuing odyssey of heartbreak, personal growth and spiritual development that fuels their individual life lessons and leads them full-circle to a divinely guided conclusion.

Exiled University of Chicago Press

Ever hear of a log-sawing ritual at a wedding ceremony? Or renting an apartment with kitchen space, but no kitchen? How about having to bring birthday cake to work on your own birthday? In The Frankfurt Files: Tales of an American in Germany, David Conte moves overseas to Frankfurt, Germany, so he can save his relationship with his girlfriend (now-wife). But when he later finds himself having to relearn life in a very different way, his storybook romance becomes one big lesson in surviving culture shock: hauling a couch up a flight of stairs alone after being abandoned by callous furniture movers; participating in civilized nudity at a local wellness center; addressing the all-important issue of cream cheese abuse in German sandwiches. As a discerning idealist turned maladroitness among foreigners, he relates the good, the bad, and the in-between of his offbeat encounters as an expatriate.

Heart of the Streets Penguin

A new epic fantasy series begins. Song of Dragons tells a story of blood, steel, and dragonfire. BOOK ONE: BLOOD OF REQUIEM Long ago stood the kingdom of Requiem, a land of men who could grow wings and scales, breathe fire, and take flight as dragons. Requiem ruled the sky. But Dies Irae, a tyrant leading an army of griffins, hunted Requiem's people, burned their forests, and shattered their temples. Requiem fell. This ancient land now lies in ruin, its halls crumbled, its cries silenced, its skeletons littering the burned earth. In the wilderness, a scattering of survivors lives in hiding. The griffins still hunt them, and every day promises death. Will Requiem's last children perish in exile... or once more become dragons and fly to war? **The Routledge History of American Foodways** Ludwig von Mises Institute

Samuel Butler was son and grandson of the priests. He graduated from Cambridge University in 1858. He got carried away by music and drawing. Torn with his father, in 1859-1864 he lived in New Zealand, bred sheep. He became an ardent devotee of Darwinism, his views spelled out in a study of Life and Habit (1877). Returning to England, engaged in literature and painting, lived a hermit. Traveled to Italy and Sicily. He exhibited paintings in the Royal Academy, wrote about Italian art. His prose was highly appreciated by Forster and Shaw, and later by Joyce, Lawrence, Aldous Huxley, Maugham, George Orwell. Extremely frank autobiographical novel "The Way of All Flesh" (The Way of All Flesh) was completed by the author in the 1880s, but at the author's will was not published during his lifetime and was published only in 1903. Six volumes of his notebooks were also published, correspondence. FS Fitzgerald on the back of the title page of this book Butler wrote with his hand: "The most interesting human document of all available".

The Dashboard Book DigiCat

Have you ever wondered: What it's like to daily bet hundreds of thousands of dollars working for some of the largest professional gamblers in Las Vegas? ... How to spend a summer house sitting one of the biggest stars in the world's 11,000 square-foot mansion - without an invitation from it's celebrity owner ... Whether the life of crime - specifically, running a shoplifting ring in a middle American mall - pays? ... What causes a son to finally say enough is enough ... and decide "Today is the day I am going to kill my dad." Comedian Brandt Tobler has the answers in this funny, touching and sometimes downright unbelievable memoir of a small town Wyoming-kid turned "mall-fia" don, turned nationally touring comic. Brand tells his life story with candor, detailing the many pit stops, wrong turns, crazy connections and lucky breaks he experienced along the way to his comedy career, all while trying to balance a toxic relationship with his unreliable jailbird dad. In these pages Brandt will make you laugh (he better - it's his job!) and believe as he does that, when it comes to defining family, blood isn't always thicker than water. -- back cover.

Holding Back The Tears Writestream Publishing LLC

Fake Warriors lays bare a national scandal: the shocking story of countless men of the Vietnam War era who falsify their military service. Their motives vary from seeking unearned glory at the expense of authentic heroes, to more tangible benefits like defrauding the V.A. and stealing money from impressionable women. This book will enable every patriotic American who appreciates the contributions of those who serve their country honorably to identify and expose fake warriors in their midst as well as to help bring about their long overdue punishment.

Poverty, Politics, and Race Mark Jarmuth

A Spur Award-winning retelling of the Battle of the Big Horn finds Lakota Sioux leader Crazy Horse endeavoring to reconcile his own beliefs with the wisdom of his tribe and leading his people into a conflict against General Custer and the U.S. Army. Reprint. 15,000 first printing.

The Epic Journeys of Morgan & Clarke Createspace Independent Publishing Platform

"Always remember that there will be times when you will have to stand up. Just be available when you are called. Be available!" Meet Morgan & Clarke—Two inquisitive, fun-loving sisters who, with the help of a magical gift from their grandmother, travel back in time and learn tough life lessons along the way! Their first journey takes them on an unsuspected and dangerous expedition on the Underground Railroad. There, they meet Harriet Tubman, who—with a rifle to ward off pursuers and their ferocious dogs in one hand, and a torch to light the darkness in the other—guides slaves from the South to freedom up North. Morgan and Clarke encounter unforeseen perils on their voyage, but their grandma's quilt shields them from all

harm...And gives them the courage to stand up for what's right!

[The Omega Principle](#) Macmillan

This is true story about real people is set in Edinburgh City and Dundee, where a petite Scottish Lassie called Rosie Gilmour, mother to Finlay Sinclair, receives news of the death of her son - who tragically has taken his own life by hanging. Rosie pretends her son is still alive by talking to him, for that takes away the unbearable pain of her loss. But once she begins to face up to the fact that Finlay is not coming back, her conversations become more of a challenge than she can handle. When memories of her past are triggered by everyday life events, they take her mind back and forth in time - back to her own childhood days in 1960, when she flirted with the fairground boys, and to the day she gave birth to Finlay - "ME LADDIE". Rosie's Scottish accent becomes more apparent whenever her emotions are heightened and she begins to recite poetry. She goes on to reveal doubts about her own self-worth and how she re-unites her role as mother - a role she had denied herself for seven years prior to Finlay's death. Rosie learns how to forgive herself and how to accept her loss with using practical coping strategies that sometimes but not always work for her. Many voices of different natures and walks of life appear in Rosie's, story with each one offering a part of their own belief to try and console her in her misery - except that she turns her back on any advice or support offered. Rosie is convinced that she can cope with her loss on her own and "needs no

help from anyone, thank you" - until a sweet, gentle, soft-spoken voice begins to travel with her throughout her ordeal, leaving her no other choice but to listen. Eventually moving to the countryside in Angus, Rosie finds the isolation gives her life a new meaning offering her the opportunity to re-value her belief's about her own self values and decides the time has come to give her son a memorial service and invite a chosen few dance companions whom she met on a regular basis in Edinburgh to honour this day. Rosie begins to accept she will never be the same person she once had been and shall never be again, believing now her journey through grief taught her many lessons making her a stronger and better person than she imagined she could ever be.

Lilly Noble & Actual Magic Brandt Tobler

390 pages; non-fiction. Author looks at how what people think dictates how they are governed. Our Christian ancestors thought like self-governing citizens and governed themselves. Since the 1960s, however, Americans have thought less like their ancestors than like Europeans and been governed as such; governed, in other words, as if bureaucrats viewed them as objects of political domination. The relevant historical period is late eighteenth century European and American history to the present. Readers will discover how America was Europeanized post-1960 after one of the most war-torn regions of the world and how Darwin, Freud and Marx caused World War II.
