ALLEN BALDWIN

Oswaal ISC Sample Question Papers Semester 2, Class 12 (Set of 5 Books) English 1 & 2, Physics, Chemistry, Mathematics (For 2022 Exam) Diamond Pocket Books Pvt Ltd

This book uses an in-depth, phenomenological interview approach to explain the generational characteristics of today's Chinese university youths and the critical dispositions they believe indispensable in acquiring English as an academic language in and outside school settings. By presenting the authentic voices of the recruited participants, the book clarifies how English for academic purposes (EAP), as an emerging global phenomenon and a research-informed practice, enables and empowers them for conscious self-transformation and critical awareness development through language study. The book also explores issues arising in the fields of general English language teaching as well as traditional and critical EAP, and discusses

university English language learners' learning needs and rights.

The book further promotes a dynamic and transformative University EAP pedagogy of particularity, practicality, and possibility moving from the oppression of language education to its liberation, and the increasing critical consciousness among the present and future university youths in a time of great social changes.

Classroom tests are an everyday feature of second and foreign language classrooms worldwide. Teachers spend a lot of time and energy making and using tests, and learners spend a lot of time and energy taking them. Nonetheless, such assessments are under-studied, as they are considered routine. This volume illuminates this little-researched area. Featuring fifteen classroom language tests made and used by Chinese, English, French, German, Italian, Japanese, Russian, and Spanish teachers, the book includes parallel teacher commentary and testing content chapters that transparently probe the teachers' processes of making and using their tests. Rather than view teachers' tests as poor shadows of what professional test writers do, this work

identifies the reasoning behind teachers' tests. In addition, focused testing content chapters take examples directly from the actual tests and the accompanying teacher commentary. This book is an accessible, applied resource for second and foreign language teachers, language program administrators working with teachers, students in teacher preparation and enrichment programs, and scholars in language teaching, learning, and testing.
