How Innovators Successfully Implement New Business Models CRC Press

The new edition of Marketing Communications delivers a rich blend of theory with examples of contemporary marketing practice. Providing a critical insight into how brands engage audiences, Fill and Turnbull continues to be the definitive marketing communications text for undergraduate and postgraduate students in marketing and related fields. The eighth edition, which contains two new chapters, reflects the changing and disruptive world of marketing communications. Throughout the text the impact of digital media and its ability to influence audience, client, and agency experiences, is considered. Each chapter has been extensively revised, with new examples, the latest theoretical insights, and suggested reading materials. Each of the 22 chapters also has a new case study, drawn from brands and agencies from around the world. Marketing Communications is recognised as the authoritative text for professional courses such as The Chartered Institute of Marketing, and is supported by the Institute of Practitioners in Advertising.

Dr. Melissa Vogt considers the influence of Rainforest Alliance and Fairtrade in coffee farming communities of Costa Rica from 2009-2019. Sustainability certifications schemes are working amongst a range of sustainability efforts, unique by their intra market location. The intentions of each certification scheme must be clarified prior to evaluation and their influence considered amongst contextually specific historic and contemporary considerations, and alongside the range of sustainability efforts. The advantages and disadvantages, opportunities for improvement and how alternative mechanisms might improve upon or complement sustainability certification schemes are explained. An epilogue considers how prioritisation of coffee as a cash crop may align with sustainability. The influence on biodiversity, community health and income, and the possible implication of reduced coffee crop density for consumers, the market and farming landscapes is considered. How sustainability standards might better encourage more ambitious sustainability in farming landscapes is for future consideration.

This book tackles political, social, and behavioural aspects of public finance and fiscal exchange. The book combines conventional approaches toward public finance with new developments in economics such as political governance, social and individual aspects of economic behaviour. It colligates public finance and behavioural economics and gathers original contributions within the emerging field of behavioural public finance. The book addresses public finance topics by incorporating political, social, and behavioural aspects of economic decision-making, assuming the tax relationship is shaped by three dimensions of decision-making. Thus, it aims not only to reflect the interdisciplinary

nature of public finance by bringing together scholars from various disciplines but also to examine public finance through the lens of political, social, and behavioural aspects. The book scrutinizes the relationship between political institutions, governance types, and public finance; it investigates the impact of social context, social capital, and societal cooperation on public finance; it explores behavioural biases of individual fiscal preferences. This book is of interest to scholars, policymakers, tax professionals, business professionals, financiers, university students, and researchers in the fields of public policy and economics.

'I wish this book had been around when I tried to teach about entrepreneurship in its social context; life would have been much easier with these informed sources.' - Alistair R. Anderson, Aberdeen Business School, UK This rich and detailed book makes a very timely contribution to extending our understanding of entrepreneurship in its social context. Using selected examples, the respected contributors show how the values developed in religious beliefs and practices shape entrepreneurship. For too long the entrepreneur has been characterized as an isolated, economically driven individual, thus ignoring how enterprise and entrepreneurs are products of their society, their culture and their religion. This innovative book discusses both entrepreneurship and religion, as well as indicating how the synthesis of beliefs and practices combine in entrepreneurial endeavours. It provides a conceptually useful way of framing the individualistic entrepreneur in his or her social and cultural context, demonstrating how entrepreneurial agency operates within and through a variety of religious contexts. Illustrated with original photographs, this captivating book will be warmly welcomed by students and researchers with interests in entrepreneurship, sociology, religion and cultural studies. Government policy-makers in immigration will also find this book an invaluable read.

This book, originally published in Dutch, provides a uniquely practical approach to strategic marketing planning. Combining a comprehensive overview of theory with practice, each chapter takes the reader step by step through the strategic marketing process. Beginning with identifying the value proposition, it moves on to the situational analysis that underpins the corporate strategy, and finally details the overall implementation and creation of a customer and brand values. Applied Strategic Marketing equips the reader with the necessary tools and techniques to develop and deliver a thorough and effective marketing strategy. With a broad range of international case studies that bring the theory to life, this well-renowned and updated translation is vital reading for undergraduate and postgraduate students of marketing management and strategic marketing. It should also be of interest to marketing practitioners who want a clear overview to aid them in the planning process.
