Evolutionary Dynamics ? Exploring The Equations Of Life ...

Any observation of a living system must ultimately be interpreted in the context of its evolution. Evolutionary change is the

consequence of mutation and natural selection, which are two concepts that can be described by mathematical equations. Evolutionary Dynamics is concerned with these equations of life.

Evolutionary Dynamics Exploring The Equations Of Life

Evolutionary change is the consequence of mutation and natural selection, which are two concepts that can be described by mathematical equations. Evolutionary Dynamics is concerned with these equations of life. In this

book, Martin A. Nowak draws on the languages of biology and mathematics to outline the mathematical principles according to which life evolves.
