ANGELO PONCE

Criminal Evidence Prentice Hall

Environmental criminology is a generic label that covers a range of overlapping perspectives. At the core, the various strands of environmental criminology are bound by a common focus on the role that the immediate environment plays in the performance of crime, and a conviction that careful analyses of these environmental influences are the key to the effective investigation, control and prevention of crime. Environmental Crime and Crime Analysis brings together for the first time the key contributions to environmental criminology to comprehensively define the field and synthesize the concepts and ideas surrounding environmental criminology. The chapters are written by leading theorists and practitioners in the field. Each chapter will analyze one of the twelve major elements of environmental criminology and crime analysis. This book will be essential reading for both practitioners and undergraduate and postgraduate students taking courses in this subject.

Criminological Theory Pearson Prentice Hall

For courses in criminology. A thorough, student-friendly introduction to criminology With a hallmark theme of social problems versus individual responsibility, Revel(TM) Criminology Today: An Integrative Introduction prompts students to think critically about the causes of crime and the link between crime theories and policies. Real-life stories and up-to-date issues and examples bring to life both historical and modern criminological

approaches. The 9th edition provides more coverage of terrorism and cyberterrorism, including an overview of the many types of terrorist groups and the findings and recommendations of special committees and government bodies. Revel is Pearson's newest way of delivering our respected content. Fully digital and highly engaging, Revel replaces the textbook and gives students everything they need for the course. Informed by extensive research on how people read, think, and learn, Revel is an interactive learning environment that enables students to read, practice, and study in one continuous experience -- for less than the cost of a traditional textbook. NOTE: Revel is a fully digital delivery of Pearson content. This ISBN is for the standalone Revel access card. In addition to this access card, you will need a course invite link, provided by your instructor, to register for and use Revel.

Criminology Today SAGE Publications

A concise and comprehensive introduction to the law of evidence, Criminal Evidence takes an active learning approach to help readers apply evidence law to real-life cases. Bestselling author Matthew Lippman, a professor of criminal law and criminal procedure for over 25 years, creates an engaging and accessible experience for students from a public policy perspective through a multitude of contemporary examples and factual case scenarios that illustrate the application of the law of evidence. Highlighting the theme of a balancing of interests in the law of evidence, readers are asked to apply a more critical examination of the use of evidence in the judicial system. The structure of the criminal justice system and coverage of the criminal investigative process is also introduced to readers.

Criminology (Justice Series) Springer

For courses in criminology. A clear, contemporary, and comprehensive introduction to criminology With a hallmark theme of social problems versus individual responsibility, Revel (TM) Criminology Today: An Integrative Introduction prompts students to think critically about the causes of crime and the link between crime theories and policies. Real-life stories and up-to-date issues and examples bring to life both historical and modern criminological approaches. The 10th Edition addresses the poignant question of how security and freedom interface in an age of increasing globalism and provides substantially enlarged coverage of terrorism and cyberterrorism. Revel is Pearson's newest way of delivering our respected content. Fully digital and highly engaging, Revel replaces the textbook and gives students everything they need for the course. Informed by extensive research on how people read, think, and learn, Revel is an interactive learning environment that enables students to read, practice, and study in one continuous experience -- for less than the cost of a traditional textbook. NOTE: This Revel Combo Access pack includes a Revel access code plus a loose-leaf print reference (delivered by mail) to complement your Revel experience. In addition to this access code, you will need a course invite link, provided by your instructor, to register for and use Revel.

The French Connection in Criminology State University of New York Press

Surveys the major theoretical approaches to understanding delinquent behavior, both biological and psychological. It features careful explanations of the major theories and analyzes each theory's underlying assumptions, the important concepts behind it, and finally the critical evaluations of the research associated with each theory presented.

Prentice Hall

A student-friendly, up-to-date, comprehensive introduction to the study of criminology. "Criminology Today: An Integrative Introduction, 8/e, "continues to offer students a clear, contemporary, and comprehensive introduction to criminology that encourages critical thinking about the causes of crime and crime-prevention strategies. The text's hallmark thematic approach of social problems versus social responsibility (Is crime a matter of individual responsibility or a symptom of a dysfunctional society?) prompts students to think critically about the causes of crime and helps them see the link between crime theories and crime policies. Updated with new information, theories, and statistics throughout, the Eighth Edition also includes new stories about Silk Road founder Ross Ulbricht, and the 2015 mass shooting at the Emanuel African Methodist Episcopal Church in Charleston, SC. A new Annotated Instructor's Edition is available, allowing instructors to quickly and easily find helpful lecture notes, discussion ideas, and class assignments."

Restorative Responses to Sexual Violence Willan

For courses in Criminology This text is part of the Justice Series Brief. Affordable. Visual. Criminology, Third Edition provides an affordable, thought-provoking look at criminology that uses clear writing and eye-catching visuals to get your students straight to the important concepts. By focusing on these core concepts, students will gain true understanding of the material, without becoming overwhelmed with unnecessary information. With an approach that focuses on social problems versus social responsibility, students will learn to think critically about the causes of crime and see the link between crime theories and crime policies. The book's conversation-starting pedagogy encourages active participation in learning, moving students beyond memorization by engaging them in the latest research findings and current events shaping the field.

Theories of Delinquency Pearson

Brings the insights of postmodernism to the concerns of criminology and includes examples of how social theory can function in the real-world realm of criminal law. Winner of the 2005 Outstanding Book Award presented by the Crime and Juvenile Delinquency Division of the Society for the Study of Social Problems

Revel for Criminology Today Oxford University Press

Visual techniques for applying criminological theory to social science research Introducing Criminological Thinking: Maps, Theories, and Understanding is an accessible and user-friendly criminological theory text for students, instructors and researchers. In addition to the unique use of concept maps, mind maps, and other visual techniques to consider theory-based inquiry, this text combines an exploration of the core elements of theory with relevant examples drawn from biology, psychology, sociology, critical traditions, and integrative efforts. Unlike in other theory texts, the chapters are arranged by level of explanation to help students understand how theories from different disciplines interact with each other as a foundation for many contemporary criminological theories. Authors Jon Heidt and Johannes Wheeldon have developed a seven-step model to identify key aspects of different theories including their historical and social context, base assumptions, scope, problem foci, terms/concepts, related research, and practical ramifications. This text offers both a student-friendly theoretical discussion and accessible visual examples to explain criminological theory and its applicability to social science research.

Criminology Explains School Bullying Prentice Hall

A student-friendly, up-to-date, comprehensive introduction to the study of criminology. Criminology Today: An Integrative Introduction, 8/e, continues to offer students a clear, contemporary, and comprehensive introduction to criminology that encourages critical thinking about the causes of crime and crime-prevention strategies. The text's hallmark thematic approach of social problems versus social responsibility (Is crime a matter of individual responsibility or a symptom of a dysfunctional society?) prompts students to think critically about the causes of crime and helps them see the link between crime theories and crime policies. Criminology Today Prentice Hall

Advances in Mixed Methods Research provides an essential introduction to the fast-growing field of mixed methods research. Bergman's book examines the current state of mixed-methods research, exploring exciting new ways of conceptualizing and conducting empirical research in the social and health sciences. Contributions from the world's leading experts in qualitative, quantitative, and mixed methods approaches are brought

together, clearing the way for a more constructive approach to social research. These contributions cover the main practical and methodological issues and include a number of different visions of what mixed methods research is. The discussion also covers the use of mixed methods in a diverse range of fields, including sociology, education, politics, psychology, computational science and methodology. This book represents an important contribution to the ongoing debate surrounding the use of mixed methods in the social sciences and health research, and presents a convincing argument that the conventional, paradigmatic view of qualitative and quantitative research is outdated and in need of replacement. It will be essential reading for anyone actively engaged in qualitative, quantitative and mixed methods research and for students of social research methods. Manfred Max Bergman is Chair of Methodology and Political Sociology at the University of Basel.

Psychological Criminology Univ of California Press

Violence and the Civilising Process in Cambodia Prentice Hall

Criminology is a booming discipline, yet one which can appear divided and fractious. In this rich and diverse collection of 34 essays, some of the worlds leading criminologists respond to a series of questions designed to investigate the state, impact and future challenges of the discipline: What is criminology for? What is the impact of criminology? How should criminology be done? What are the key issues and debates in criminology today? What challenges does the discipline of criminology face? How has criminology as a discipline changed over the last few decades? The resulting essays identify a series of intellectual, methodological and ideological borders. Borders, in criminology as elsewhere, are policed, yet they are also frequently transgressed; criminologists can and do move across them to plunder, admire, or learn from other regions. While some boundaries may be more difficult or dangerous to cross than others it is rare to find an entirely secluded locale or community. In traversing ideological, political, geographical and disciplinary borders, criminologists bring training, tools and concepts, as well as key texts to share with foreigners. From such exchanges, over time, borders may break down, shift, or spring up, enriching those who take the journey and those who are visited. It is, in other words, in criminologys capacity for and commitment to reflexivity, on which the strength of the field depends.

Cybercrime and Digital Forensics Criminology TodayFor courses in criminology. A thorough, student-friendly introduction to criminology With a hallmark theme of social problems versus individual responsibility, Criminology Today: An Integrative Introduction prompts students to think critically about the causes of crime and the link between crime theories and policies. Real-life stories and up-to-date issues and examples bring to life both historical and modern criminological approaches. The 9th edition provides more coverage of terrorism and cyberterrorism, including an overview of the many types of terrorist groups and the findings and recommendations of special committees and government bodies. Criminology Today: An Integrative Introduction , 9 th Edition, is also available via Revel(tm), an interactive learning environment that enables students to read, practice, and

study in one continuous experience. **Criminology Today**

The emergence of the World Wide Web, smartphones, and Computer-Mediated Communications (CMCs) profoundly affect the way in which people interact online and offline. Individuals who engage in socially unacceptable or outright criminal acts increasingly utilize technology to connect with one another in ways that are not otherwise possible in the real world due to shame, social stigma, or risk of detection. As a consequence, there are now myriad opportunities for wrongdoing and abuse through technology. This book offers a comprehensive and integrative introduction to cybercrime. It is the first to connect the disparate literature on the various types of cybercrime, the investigation and detection of cybercrime and the role of digital information, and the wider role of technology as a facilitator for social relationships between deviants and criminals. It includes coverage of: key theoretical and methodological perspectives, computer hacking and digital piracy, economic crime and online fraud, pornography and online sex crime, cyber-bullying and cyber-stalking, cyber-terrorism and extremism, digital forensic investigation and its legal context, cybercrime policy. This book includes lively and engaging features, such as discussion questions, boxed examples of unique events and key figures in offending, quotes from interviews with active offenders and a full glossary of terms. It is supplemented by a companion website that includes further students exercises and instructor resources. This text is essential reading for courses on cybercrime, cyber-deviancy, digital forensics, cybercrime investigation and the sociology of technology.

Criminology Today Prentice Hall

This book provides the best of both worlds-- authored text sections with carefully selected accompanying readings covering criminological theory from past to present and beyond. The articles, from leading journals in criminology and criminal justice, reflect both classic studies and state-of-the-art research. Key Features " Begins with an introductory chapter that presents a succinct overview of criminological theory, and briefly describes the organization and content of the book " Features 'How to Read a Research Article'--a perfect introduction to understanding how real-world research is organized and delivered in the journal literature " Includes a 'mini-chapter' for each Section, with figures and tables that present basic concepts and provide a background for the Readings that follow " Provides key terms, web resources, and thought-provoking discussion questions for each Section, along with questions for each Reading to help students develop their critical thinking skills " Instructor Resources on CD include a test bank, PowerPoint slides for each section, classroom activities, and more. " A Student study site provides additional articles, self-study quizzes, e-flashcards, and more.

Criminal Justice Taylor & Francis

Psychological Criminology addresses the question: what is it about individuals and their experiences that cause them to commit crime and/or to become criminal? This book provides a comprehensive coverage of psychological theories of crime and criminality, exploring theories focusing on factors present at birth (human nature, heredity); theories that focus on factors that influence the offender over the lifespan (learning, development); and theories focusing on factors present at the crime scene. It emphasizes the connections among the different approaches, and demonstrates how,

taken together rather than as rival explanations, they provide a more complete picture of crime and criminality than each provides individually.

Theories are arranged throughout the book in a temporal sequence, from distal to proximal causes of crime. The analysis spans 100,000 years, from the evolutionary roots of criminal behaviour in the ancestral environments of early humans on the African savana, to the decision to engage in a specific criminal act. Key features of the book include: a focus on theory - 'explaining' crime and criminality, an integrative approach, accessible to readers who do not have a background in psychology. Psychological Criminology highlights the contributions that psychological theory can make to the broader field of criminology; it will be of interest to students, academics, researchers and practitioners in both criminology and forensic psychology.

Canadian Criminology Today has been specially tailored to meet the needs of the students preparing for careers in the Canadian Criminal Justice system, including those enrolled in police foundations programs in Ontario. Instructors and students in other university and college programs will also find it an invaluable overview of the discipline. The Canadian edition of Frank Schmalleger's pacesetter text presents a realistic view of crime in Canada, focusing on explanations of crime and deviance and the application of this theory to "real life" examples of criminal behaviour. It stresses the consequences of criminology theory for social policy, describes the practical issues associated with crime control, and discusses Canadian social policies focussing on prevention, treatment, rehabilitation, and victim restoration.
