Nursing: Solved Question Papers for General Nursing and Midwifery Elsevier Health Sciences
This book is a comprehensive guide to critical care medicine for postgraduate medical students. Presented in a case-based, question and answer format, the text begins with guidance on patient examination in the intensive care unit (ICU). Each of the following chapters covers a different disorder, from acute severe asthma, pulmonary embolism and septic shock, to traumatic brain injury, acute liver failure and much more. The book concludes with cases examining out-of-hospital cardiac arrest, brain death

and organ donation, as well as end-of-life care in the ICU. A large selection of Objective Structured Clinical Examination (OSCE) practice questions are included to assist students in their preparation for examinations. Nearly 300 clinical photographs, illustrations and tables further enhance learning. Key points Comprehensive guide to critical care medicine for postgraduates Presented in a case-based, question and answer format Includes numerous OSCE practice questions to help students prepare for examinations Highly illustrated with clinical photographs, diagrams and tables
Key To Success: Staff Nurses Recruitment Exam (2007-2021) CBS Publishers & Distributors Pvt Limited, India
Do your students find psychology difficult to engage with or want a textbook that is easy to read? Would they benefit from a textbook that demonstrates how psychology applies to nursing? Right from the start of their programme it is crucial for nursing students to understand the significance of psychology in nursing. This book helps students recognise why they need to know about psychology, how it can affect and influence their individual nursing practice as well as the role it plays in health and illness. Written in clear, easy to follow language and with each chapter linking to relevant NMC Standards and Essentials Skills Clusters it simplifies the key theory and puts the discipline of psychology into context for nursing students, with clear examples and case studies used throughout. Transforming Nursing Practice is a series tailor made for pre-registration student nurses. Each book in the series is: · Affordable · Mapped to the NMC Standards and Essential Skills Clusters · Focused on applying theory to practice · Full of active learning features 'The set of books is an excellent resource for students. The series is small, easily portable and valuable. I use the whole set on a regular basis.' - Fiona Davies, Senior Nurse Lecturer, University of Derby
Community Health Nursing Practice Jaypee Brothers, Medical Publishers Pvt. Limited
The book has been developed to provide students with the knowledge and skills in the area of community health nursing. Care has been taken to cover all the contents in this revised edition as required by the respective Councils and Boards of

Nursing and Universities. The text also presents the contents that represent the most accurate, current and clinically relevant information that are written in clearly and easily read manner.
Management of Nursing Services and Education Jaypee Brothers Medical Publishers
