 Systems For Personalised Health Management: State Of The Art
 and Future Challenges (Studies in Health Technology and
 Informatics) 1st Edition by Andreas Lymberis (Author, Editor),
 Danilo E. De Rossi (Editor) ISBN-13: 978-1586034498. ISBN-10:
 ...Wearable eHealth Systems For Personalised Health ...The new
 generation of wearable personal eHealth systems has to be
 affordable, user-friendly, "invisible", autonomous in terms of
 power consumption and able to assist individuals in their own
 health management. Major challenges are ahead such as further
 research and development, user acceptance and trust, cost-
 effectiveness and business models.Wearable Ehealth Systems for
 Personalised | BiggerBooksPreface. The first International
 Workshop on New Generation of Wearable Systems for eHealth
 took place in Lucca, Italy, 11-14 December 2003. It is a
 significant milestone in the dissemination and promotion of this
 newmultidisciplinary area which is expected to play an important
 role in the evolving health care and health delivery sector, in
 Europe and world-wide.Ebook: Wearable eHealth Systems for
 Personalised Health ...Smart wearable systems for personalised
 health management: current R&D and future challenges Abstract:
 Remote health monitoring has the potential to improve the
 quality of health services and to reduce the total cost in
 healthcare by avoiding unnecessary hospitalisations and ensuring
 that those who need urgent care get it sooner.Smart wearable
 systems for personalised health management ...Wearable
