**Symptoms and Diagnosis** CBS Publishers & Distributors Pvt Limited, India

This very readable book helps you learn medicine through true stories of patients' medical symptoms, and will help you understand what your body is trying to tell you when you are sick. Calling your doctor won't help you when you don't understand your symptoms correctly since doctors make diagnoses based on how patients describe their symptoms. Knowing common heart attack symptoms won't help you when you can't recognize the subtle feeling in your chest. The twenty true medical stories cover most organ systems and represent the majority of diseases and conditions that are seen in most acute-care hospitals in the U.S. Each story describes how a patient felt at the onset of symptoms and connects it to what actually happened inside the organs. This book offers the insight you need to help get a diagnosis quickly at a critical time when every second counts.
