 Lesson 13: Finding Equivalent Ratios Given

the Total Quantity Student Outcomes
 Students use tables to find an equivalent
 ratio of two partial quantities given a part-
 to-part ratio and the total of those
 quantities, in the third column, including
 problems with ratios of fractions.
 Classwork Lesson 13: Finding Equivalent
 Ratios Given the Total Quantity The second
 and third questions are much more
 straightforward and students should fully
 understand these after a brief discussion.
 See the Exit Ticket 6 answers. I use the
 closing of the lesson to make sure that
 students have good answers to each
 question.
