SPECIFICATION FOR ELECTRICAL
INSTALLATION IN ...** Year of Manufacture :
This is important in any repair, for obvious
reasons. Prior to 1979, Johnson used the
last 2 digits of the year in the model
number. As a model 10R78M, would
indicate a 10 hp, Rope starter, 1978 year
of manufacture and M model revision.
Since this does not have in the code L
between the hp designation and the year,
that would mean it is a short shaft
version. **Maintaining Johnson/Evinrude 9.9
