### **How Can You Represent Those People?** Springer Nature

This book examines how the modern criminal trial is the result of competing discourses of justice, from human rights to state law and order, that allows for the consideration of key stakeholder interests, specifically those of victims, defendants, police, communities and the state.  
[Great Debates](#) Springer  
While much international attention has

been focused on China's developing economy, dramatic changes are also taking place in its legal system. This book is a groundbreaking, comprehensive introduction to China's legal system, covering the major areas of both civil and criminal law. The authors present fascinating cases and balanced accounts of controversial issues, from copyright law to punishment. By letting Chinese lawyers and judges speak for themselves, the authors also allow readers a surprisingly candid insider's view of real life legal practice.

[Victim Participation Rights](#) Springer

In a break from the contemporary focus on the law's response to inter-racial crime, the authors examine the law's approach to the victimization of one Indigenous person by another. Drawing on a wealth of archival material relating to homicides in Australia, they conclude that settlers and Indigenous peoples still live in the shadow of empire.

This book explores the burgeoning interest in alternative and innovative justice responses to sexual violence both within and outside the legal system. It explores the limits of criminal law for achieving 'rape justice' and highlights possibilities for expanding how we think about justice in the aftermath of sexual violence.

*Core Statutes on Criminal Law 2015-16* Springer

The Palgrave Macmillan Core Statutes series is designed to meet the needs of today's law students. Compiled by experienced lecturers, each title contains the essential materials needed at LLB level (and, where applicable, on GDL/CPE courses) and is easy to use under exam conditions and in the lecture hall. This new edition of core statutes on criminal law contains essential material up to June 2014.

*Governance Beyond the Law* Springer

This book offers a historical presentation of how international criminal law has evolved from a national setting to embodying a truly international outlook. As a growing part of international law this is an area that has attracted growing attention as a result of the mass atrocities and heinous crimes committed in different parts of the world. Çakmak pays particular attention to how the first permanent international criminal court was created and goes on to show how solutions developed to address international crimes have remained inadequate and failed to restore justice. Calling for a truly global

approach as the only real solution to dealing with the most severe international crimes, this text will be of great interest to scholars of criminal justice, political science, and international relations.

The Paradox of Punishment Springer Nature

A recent study estimates that thousands of innocent people are wrongfully imprisoned each year in the United States. Some are exonerated through DNA evidence, but many more languish in prison because their convictions were based on faulty eyewitness accounts and no DNA is available. Prominent criminal lawyer and law professor Abbe Smith weaves together real life cases to show what it is like to champion the rights of the accused. Smith describes the moral and ethical dilemmas of representing the guilty and the weighty burden of fighting for the innocent, including the victorious story of how she helped free a woman wrongly imprisoned for nearly three decades. For fans of Law and Order and investigative news programs like 20/20, *Case of a Lifetime* is a chilling look at what really determines a person's innocence.

**Criminal Justice, Risk and the Revolt**

**against Uncertainty** Springer

Exploring the dynamics of law-making in a world where the pace of technological change is outstripping our capacity to capture new forms of transnational crime, this book uses the innovative concept of unlawfulness to examine the crimes of the global overworld, forming a unique analysis of global order in the twenty-first century.

"While much international attention has been focused on China's developing economy, dramatic changes are also taking place in its legal system. This book gives a thorough introduction to different aspects of Chinese law and presents a real life picture of legal practice in China, in which Chinese lawyers and judges speak openly about their frustrations and hopes".

*A Brief History of International Criminal Law and International Criminal Court*  
Springer

This book examines the impact and implications of the relationship between risk and criminal justice in advanced liberal democracies, in the context of the 'revolt against uncertainty' which has underpinned the rise of populist politics across these societies in recent years. It asks what impact the demands for more certainty and security, and the insistence that national identity be reasserted, will have on criminal law and penal policy. Drawing upon contributions made at a symposium held at Victoria University of Wellington, New Zealand in November

2018, this edited collection also discusses the way in which risk has come to inform sentencing practices, broader criminal justice processes and the critical issues associated with this. It also examines the growth and making of new 'risky populations' and the harnessing of risk-prevention logics, techniques and mechanisms which have inflated the influence of risk on criminal justice.

*Rape Justice* Palgrave MacMillan

This is an account of the modern law of contract by a leading authority in the field. Through this fresh approach to the subject students should obtain a firm understanding of the central doctrines and the controversies associated with them.

As research continues to accumulate on the connections between media and crime, #Crime explores the impact of social media on the criminal legal system. It examines how media influences our perceptions of crime, the perpetration of crime, and the implementation of punishment, whilst emphasizing the significance of race, ethnicity, class, gender, and sexuality. It offers an

accessible and in-depth examination of media and in each chapter there are case studies and examples from both legacy and new media, including discussions from Twitter that are being used to raise awareness of criminal legal issues. It also includes interviews with international scholars and practitioners from Australia, Belgium, and the United States to voice a range of global perspectives. This book speaks broadly to those interested in criminology, criminal justice, media and culture, sociology, and gender studies.

**Criminal Law** Springer Nature

It has long been known that the pathway through the criminal justice system for those with mental health needs is fraught with difficulty. This interdisciplinary collection explores key issues in mental health, crime and criminal justice, including: offenders' rights; intervention designs; desistance; health-informed approaches to offending and the medical needs of offenders; psychological jurisprudence, and; collaborative and multi-agency practice. This volume draws on the knowledge of professionals and academics working in this field internationally, as well as the experience

of service users. It offers a solution-focused response to these issues, and promotes both equality and quality of experience for service users. It will be essential reading for practitioners, scholars and students with an interest in forensic mental health and criminal justice.

*Case of a Lifetime* Springer

There are millions of children experiencing parental imprisonment all over the world. This book is about their problems, human rights and how they are treated throughout the justice process from the arrest of a parent to imprisonment and release.

*The Criminal Trial in Law and Discourse* Springer Nature

The Palgrave Handbook of Criminal and Terrorism Financing Law focuses on how criminal and terrorist assets pose significant and unrelenting threats to the integrity, security, and stability of contemporary societies. In response to the funds generated by or for organised crime and transnational terrorism, strategies have been elaborated at national, regional, and international levels for laws, organisations and procedures, and

economic systems. Reflecting on these strands, this handbook brings together leading experts from different jurisdictions across Europe, America, Asia, and Africa and from different disciplines, including law, criminology, political science, international studies, and business. The authors examine the institutional and legal responses, set within the context of both policy and practice, with a view to critiquing these actions on the grounds of effective delivery and compliance with legality and rights. In addition, the book draws upon the experiences of the many senior practitioners and policy-makers who participated in the research project which was funded by a major Arts and Humanities Research Council grant. This comprehensive collection is a must-read for academics and practitioners alike with an interest in money laundering, terrorism financing, security, and international relations.

*Identity, Crime and Legal Responsibility in Eighteenth-Century England* Palgrave MacMillan

This book traces victims' active participatory rights through different procedural stages in adversarial and non-

adversarial justice systems, in an attempt to identify what role victims play during criminal proceedings in the domestic setting. Braun analyses countries with different legal traditions, including: the United States, England, Wales and Australia (as examples of mostly adversarial countries); Germany and France (as examples of inquisitorial systems); as well as Denmark and Sweden with their mixed inquisitorial-adversarial

background. Victim Participation Rights is distinctive in that it assesses the implementation of formal processes and procedures concerning victim participation at three different procedural stages: first, investigation and pre-trial; second, trial and sentencing; and third, post-trial with a focus on appeal and parole. In addition, Braun provides an in-depth case study on the general position of victims in criminal trials, especially in light of national criminal justice policy, in Germany, a

mostly inquisitorial system and Australia, a largely adversarial system. In light of its findings, the book ponders whether, at this stage in time, a greater focus on victim protection rather than on active procedural rights could be more beneficial to enhancing the overall experience of victims. In this context, it takes a close look at the merits of introducing or expanding legal representation schemes for victims.
