*Lars Tunbjörk* Little, Brown  
Emphasizing the understanding of images and their influences on how they affect our attitudes, beliefs, and actions, this fully updated sixth edition offers consequential ways of looking at images from the perspectives of photographers, critics, theoreticians, historians, curators, and editors. It invites informed conversations about meanings and implications of

images, providing multiple and sometimes conflicting answers to questions such as: What are photographs? Should they be called art? Are they ethical? What are their implications for self, society, and the world? From showing how critics verbalize what they see in images and how they persuade us to see similarly, to dealing with what different photographs might mean, the book posits that some interpretations are better than others and explains how to deliberate among competing interpretations. It looks at how the worth of photographs is judged

aesthetically and socially, offering samples and practical considerations for both studio critiques for artists and professional criticism for public audiences. This book is a clear and accessible guide for students of art history, photography and criticism, as well as anyone interested in carefully looking at and talking about photographs and their effects on the world in which we live.

Hearts of Darkness Hassell Street Press

The ideal of childhood innocence is perhaps the most cherished concept of modern Western culture, all the more so

because it seems to be under siege. Pictures have always been crucial to that ideal, and now they promise to transform it. *Pictures of Innocence* begins by tracing the visual history of ideal childhood: the pictorial invention of childhood innocence in eighteenth-century portraits, its diffusion in nineteenth-century popular paintings and illustration, and its culmination in today's best-selling and most widely practiced forms of photography. It deals with pictures of many sorts, ranging from eighteenth-century portraits by Sir Joshua Reynolds to greeting cards by Anne Geddes, from the controversial photographs of Lewis Carroll to those of Sally Mann. The book then turns to the crisis in the ideal of childhood innocence. Ever since its invention, photography has unsettled the certainties of ideal childhood, not only by revealing its inherent tensions, but also by showing how the uses and interpretations of photography can eroticize children. These increasingly acute difficulties have recently provoked a dramatic reaction in the form of sweeping child pornography laws. At an intersection between the history of ideas, art, popular culture,

and law, *Pictures of Innocence* shows how we are in the midst of a radical redefinition of childhood itself, a turbulent change in fundamental cultural values inaugurated by images.

Selected as one of Motley Fool's "5 Great Books You Should Read" Advice on managing your wealth from bestselling author Bill Bonner From trusted New York Times bestselling author Bill Bonner comes a radical new way to look at family money and a practical, actionable guide to getting and maintaining multigenerational wealth. *Family Fortunes: How to Build Family Wealth and Hold on to It for 100 Years* is packed with useful information, interwoven with Bonner's stories about his own family's wealth philosophy and practices. A comprehensive guide that shows how families can successfully preserve their estates by ignoring most of what people think they know about "the rich" and, instead, training and motivating all family members to work together toward a very uncommon goal. This book is a must-read for all individual investors—even those who do not plan to

leave money to their children—because it challenges many of the most ubiquitous principles and rules of investing. You might expect a book on family wealth to be extremely conservative in its outlook. Instead, the Bonners announce what is practically a revolutionary manifesto. They explain: Why family money should NOT be invested in "safe, conservative" investments Why charitable giving is usually a waste of money, or worse Why it is NOT a good idea to let children go their own way Why you can't trust wealth "professionals" and why you should never entrust your money to money managers Why giving your children as much education as possible is NOT a good idea Why Warren Buffett and the rest of the rich people asking for higher tax rates are wrong to take "the pledge" Why Wall Street is a graveyard for capital, why most celebrity CEOs are a threat to the businesses they run, why modern capitalism is a failure, and more You will come away with a very different idea as to what family wealth is all about. It is not stodgy. Not boring. Not moss-backed and reactionary. On the contrary, it is the most dynamic, forward-looking capital in the

world. The essential guide to passing wealth from one generation to the next, *Family Fortunes* is filled with concrete, practical advice you can put to use right away.

Great photographs change the way we see the world; *The Ongoing Moment* changes the way we look at both. With characteristic perversity – and trademark originality – *The Ongoing Moment* is Dyer's unique and idiosyncratic history of photography. Seeking to identify their signature styles Dyer looks at the ways that canonical figures such as Alfred Stieglitz, Paul Strand, Walker Evans, Kertesz, Dorothea Lange, Diane Arbus and William Eggleston have photographed the same scenes and objects (benches, hats, hands, roads). In doing so Dyer constructs a narrative in which those photographers – many of whom never met in their lives – constantly come into contact with each other. It is the most ambitious example to date of a form of writing that Dyer has made his own: the non-fiction work of art. *Family Fortunes* Simon and Schuster  
A writerly study of Lady Hawarden's photographs and other visual

"Daylight Noir: Raymond Chandler's Imagined City comprises photographs of all the ominous, forbidding locations in Los Angeles Chandler wrote about in his novels. These places – from Malibu Pier to the Hollywood Sign, from Union Station to the Beverly Hills Hotel, from MGM Studios to Musso & Frank's Grill – form the literary geography of his imagination." "Chandler was drawn to the Edward Hopper-like loneliness of the city: the separate existences that never, finally, merge. In these photographs, Catherine Corman has given us, as Jonathan Lethem writes in his preface, a "supremely evocative catalogue of haunted places ... these streets and buildings we have erected in order to give order to our solitudes." --BOOK JACKET. *The Ongoing Moment* Harry N. Abrams  
From the bestselling author of "How to Make an American Quilt" comes a powerful tale inspired by the lives of famous 20th-century female photographers tracing the progression of feminism and photography in various world regions.

A New York Times Book Review Editors' Choice. A 2019 NPR Staff Pick. "Malcolm is always worth reading; it can be instructive to see how much satisfying craft she brings to even the most trivial article." -- Phillip Lopate, TLS Janet Malcolm's previous collection, *Forty-One False Starts: Essays on Artists and Writers*, was "unmistakably the work of a master" (The New York Times Book Review). Like *Forty-One False Starts*, *Nobody's Looking at You* brings together previously uncompiled pieces, mainly from *The New Yorker* and *The New York Review of Books*. The title piece of this wonderfully eclectic collection is a profile of the fashion designer Eileen Fisher, whose mother often said to her, "Nobody's looking at you." But in every piece in this volume, Malcolm looks closely and with impunity at a broad range of subjects, from Donald Trump's TV nemesis Rachel Maddow, to the stiletto-heel-wearing pianist Yuju Wang, to "the big-league game" of Supreme Court confirmation hearings. In an essay called "Socks," the Pevears are seen as the "sort of asteroid [that] has hit the safe world of Russian Literature in English translation,"

and in "Dreams and Anna Karenina," the focus is Tolstoy, "one of literature's greatest masters of manipulative techniques." Nobody's Looking at You concludes with "Pandora's Click," a brief, cautionary piece about e-mail etiquette that was written in the early two thousands, and that reverberates—albeit painfully—to this day.

Sally Mann Thames & Hudson

Sally Mann Romano, an attorney in her native Texas, is the proprietor of an animal sanctuary and deep-pocket money pit known as Rokit Ranch Rescue. She came to the law after her marriage to Spencer Dryden, drummer for Jefferson Airplane, having also spent a number of years working for, traveling with, and tending to Frank Zappa, the Grateful Dead, Grace Slick, Ten Years After, Stephen Stills, The Band, and other characters of similarly dubious repute. Sally has been featured in a number of photo essays of so-called "groupies" and women in rock by Baron Wolman, Henry Diltz, Jim Marshall, and other renowned rock-and-roll photographers. She is the subject of paintings by artists as diverse as Jim Bama and Alice McMahon, both of whom based their works on the iconic photo by Baron Wolman that originally appeared in *Rolling Stone*, and countless interviews and magazine articles. Her memoir, *The Band's With Me*, with a foreword by Grace Slick and photographs by Baron Wolman, Henry Diltz, Herb Greene, Rosie McGee, and others, chronicles her escapades in the kaleidoscopic world of music and entertainment in the late 1960s and

1970s, comes clean on affairs of the heart and otherwise, and offers a wry, unsparing take on some of the more unforgettable musicians who marked an equally unforgettable era. There are over 100 photos, many previously unpublished.

Picturing the South Aperture

The largest and most extensive retrospective of Lars Tunbjörk's work ever published. Lars Tunbjörk was inspired by the Swedish masters such as Christer Stromholm, but soon discovered his own style by taking a cue from the American photographers of the 1970s like Stephen Shore and William Eggleston. Tunbjörk's images amplified the most mundane and absurd aspects of modern life in a surreal way, using the hard light of flash photography, which became his signature style and influenced a generation of photographers after him. Whatever subject he was documenting, suburbia or offices spaces, he did it in such a revealing way with a stark, clear-eyed honesty layered with a sense of humour. Tunbjörk's work is best experienced in the photo book format. He used the medium to build loose narratives and to showcase his extraordinary projects. He released more

than 10 photobooks, which include *Home and Vinter*. He came to pre-eminence with the now rare book *Office*, with Martin Parr and Gerry Badger describing him as 'an acute observer of modern life.'

At Twelve Harry N. Abrams

Ten years ago, amateur photographer and school bus driver Cynthia Stewart dropped off eleven rolls of film at a drugstore near her home in Ohio. The rolls contained photographs of her eight-year-old daughter Nora, including two of the child in the shower - photos that would cause the county prosecutor to arrest Cynthia, take her away in handcuffs, threaten to remove her daughter from her home, and charge her with crimes that carried the possibility of sixteen years in prison. The disturbing case would ultimately attract national attention - including stories in *USA Today* and on NPR - and supporters including the famed photographer Sally Mann, Katha Pollitt, and the ACLU. *Framing Innocence* brilliantly probes the many questions raised; when does a photograph of a naked child "cross the line" from innocent snapshot to child porn? What makes a photograph dangerous - the situation in which it is shot or the uses to

which it might be put? When does the parent, and when does the state, know best? Written by poet Lynn Powell, a neighbor of Cynthia Stewart's, this riveting and beautifully told story plumbs the perfect storm of events and people that threatened an ordinary family in a small American town. *Framing Innocence* features a determined prosecutor; a fundamentalist Christian anti-porn crusader who is appointed as Cynthia's daughter's guardian; the local attorneys for whom the case would become a crucible; and the many neighbors - friends and strangers, Republican and Democrat - who come together to fight for sanity and for justice for Cynthia and her family.

In January of 1974, David Godlis, then a 22-year-old photo student, took a ten-day trip to Miami Beach, Florida. Excited to visit an area he had frequented a decade

earlier as a kid, GODLIS set his sights on an area of slightly outdated efficiency art deco hotels that was then a busy Jewish retiree enclave on the expansive beaches facing the Atlantic Ocean. These retirees, all dressed up in their best beach outfits, would spend their days on lounges and lawn chairs, playing cards amidst the sunshine and palm trees. GODLIS walked his way through this somewhat surrealistic scene, shooting what he now considers his

first good photographs. In so doing he discovered his own Street Photography style - an eclectic mix of influences, from Robert Frank to Diane Arbus, from Garry Winogrand to Lee Friedlander.

To mark the book's thirtieth anniversary, Aperture is reoriginating the groundbreaking classic *At Twelve: Portraits of Young Women* in a masterful facsimile edition. *At Twelve* is Sally Mann's

revealing, collective portrait of twelve-year-old girls on the verge of adulthood. As Ann Beattie writes in her perceptive introduction, "These girls still exist in an innocent world in which a pose is only a pose--what adults make of that pose may be the issue." The young women in Mann's unflinching, large-format photographs, however, are not victims. They return the viewer's gaze with a disturbing equanimity.
