The word gelato, in Italian, simply means "ice cream," but its meaning has shifted to define a type of high-end frozen dessert, made with milk, not cream. Gelato also has 35% less air whipped into it than ice cream, heightening its rich mouthfeel without tipping the scales. Gelato, in all its luxury, is simple to make at home with a standard ice-cream maker. Making Artisan Gelato, following on the heels of Making Artisan Chocolates, will offer 45+ recipes and flavor variations for exquisite frozen desserts, made from all-natural ingredients available at any grocery store

or farmer's market. From pureeing and straining fruit to tempering egg yolks for a creamy base, the gelato-making techniques included in Making Artisan Gelato ensure quality concoctions. Recipe flavors run the gamut—nuts, spices, chocolate, fruit, herbs, and more—with novel flavor pairings that go beyond your standard-issue fare.

*Buying Guide* Consumers Union U.S. The worldwide bestseller - 1/4 million copies sold 'Written by a World Barista Champion and co-founder of the great Square Mile roasters in London, this had a lot to live up to and it certainly does. Highly recommended for anyone into their coffee and interested in finding out more about how it's grown, processed and roasted.' (Amazon customer) 'Whether you are an industry professional, a home enthusiast or anything in between, I truly believe this is a MUST read.' (Amazon customer) 'Informative, well-written and well presented. Coffee table and reference book - a winner' (Amazon customer) 'Very impressive. It's amazing how much

territory is covered without overwhelming the reader. The abundant photos and images are absolutely coffee-table-worthy, but this book is so much more. I think it would be enjoyable for an obsessed coffee geek or someone who just enjoys their java.' (Amazon customer) For everyone who wants to understand more about coffee and its wonderful nuances and possibilities, this is the book to have. Coffee has never been better, or more interesting, than it is today. Coffee producers have access to more varieties and techniques than ever before and we, as consumers, can share in that expertise to make sure the coffee we drink is the best we can find. Where coffee comes from, how it was harvested, the roasting process and the water used to make the brew are just a few of the factors that influence the taste of what we drink. Champion barista and coffee expert James Hoffmann examines these key factors, looking at varieties of coffee, the influence of terroir, how it is harvested and processed, the roasting methods used, through to the way in which the beans are brewed. Country by country - from Bolivia to Zambia - he then identifies key

characteristics and the methods that determine the quality of that country's output. Along the way we learn about everything from the development of the espresso machine, to why strength guides on supermarket coffee are really not good news. This is the first book to chart the coffee production of over 35 countries, encompassing knowledge never previously published outside the coffee industry.

**The Buying Guide 2004** Mitchell Beazley  
In my opinion, unless you're a total introvert, agoraphobic, disabled or too lazy to leave the house, your best bet to buy most things you need is locally. Go to the Yellow Pages, read your local newspapers, drive around the shopping areas, go to local free ad websites and talk to people you know about what you need. I generally buy most of my stuff from the big department stores but if I need something like furniture, I'll check out the furniture stores on the poor side of the town because the prices for the same goods are often much cheaper than a store in the higher class part of town plus you can often haggle with the owner on a cash deal. By shopping on the poor side of town at supermarkets for food, you can often save several dollars on a load of groceries. Beyond that, I generally go to the thrift stores a few times a year to buy t-shirts, clothes and anything else that strikes my fancy as I look around.
