Cengage Advantage

Books: Introduction to Business Law Taylor & Francis

Concise Australian Commercial Law, now in its fifth edition, has two basic objectives: to provide students with a general understanding of the legal environment of business and to expose them to the language and perspectives of legal professionals, regulators and other commercial actors; and to provide a reference

point for non-law students studying key commercial law topics - the law of contract, torts, consumer protection, agency, business organisations and business ethics - in a way that is clear, accessible and challenging for a non-law student. The authors have selected cases that should be of interest to non-law students and every effort has been made to ensure that the case extracts contain sufficient information to enable students to discuss and debate the decisions that a court has reached and appreciate how the principles could be applied in a commercial environment. Similarly the relevant legislation is discussed in a way that is designed to

promote understanding of the law and the policy considerations behind the legislation. The fifth edition has been updated to incorporate the many legislative changes and case law developments since the last edition. These updates include: a revised introduction (including a guide on how to approach the study of commercial law); a number of new contract law cases and an expanded section on online contracting; amendments to the Australian Consumer Law as well as a number of interesting new cases concerning consumer protection; case law developments in relation to the standard of care and causation in negligence; the recent 'safe harbour' amendments to the

Corporations Act and a number of new cases dealing with directors' duties; and revisions to the chapter on Business Ethics to include references to the Royal Commission into Misconduct in the Banking, Superannuation and Financial Services Industry (the Banking Royal Commission). To ensure the text is a more complete teaching and learning package, there is a revised set of activities at the end of each chapter that have been written with the non-law student in mind and can readily be used in a student-centred group work environment. Dynamic Business Law Pearson
Among the main topics addressed by this text are contracts, sales,

commercial paper, debtor-creditor relations, property, business organizations, and government regulation of business. Each chapter contains a list of major topics, a summary list of key terms, and questions and problems.

The fifth edition of this widely used textbook combines narrative explanatory sections that set forth the basic law together with cases, treaties, international documents, questions and problems. Epps focuses on the central problems of international law and how it operates and encourages students to

work through a number of questions and problems that are presented in a variety of international contexts. The book's coverage is comprehensive, including recent materials and cases on sources, treaties, jurisdiction, immunities, extradition, the law of the sea, environmental law, international courts and tribunals, the status of international entities, human rights, international criminal law, terrorism, and the laws of war. There is also a set of power point slides to accompany the text distributed free to any faculty member who adopts the book for a course. Faculty will find that the questions posed after every case,

or other materials, provide a very useful template for getting students to focus on the essential meaning and implications of the cases and materials. The problems are designed to test students' abilities to combine what they have learned throughout a chapter to come up with a comprehensive answer.

English is the dominant language of international business relations, and a good working knowledge of the language is essential for today's legal or business professional. Legal English provides a highly practical approach to the use of English in commercial legal contexts, and covers crucial law terminology and legal concepts. Written with the needs of both students and practitioners in mind, this book is particularly suitable for readers whose first language is not English but need to use English on a regular basis in legal contexts. The book covers both written and oral legal communication in typical legal situations in a straightforward

manner. As well as including chapters on grammar and punctuation for legal writing, the book features sections on contract-drafting, language for negotiation, meetings and telephone conversations. This edition contains additional troubleshooting tips for legal writing, guidance on good style, and new sections on writing law essays and applying for legal positions.

3 things to know about the focus of Dynamic Business Law, 2e: Emphasis on ETHICAL DECISION-MAKING. In chapter 2, the authors introduce a framework for making ethical business decisions that students can use on a regular basis. Following each case there are questions designed to train students to apply

this approach. Then repeatedly throughout the chapters, questions about business ethics are raised in the text. This framework is designed to help improve the learning process of students and to give a sense of relevancy to the ethical decision making process. Emphasis on CRITICAL THINKING. Neil Browne, one of the co-authors of this text, has written a successful text on critical thinking. His framework is included in Dynamic Business Law as well - to help students learn how to frame and reframe a question/issue. Critical thinking questions are also included at the end of each case, to further tie in this component. Emphasis on the BUSINESS in business law. Dynamic

Business Law emphasises the tie of legal issues back to the core business curriculum. This will help both students and faculty. Students need to understand how the concepts they learn in this course tie into their business careers. Instructors can easily show that the study of business law is best seen as a foundational component of the larger study of business administration. Dynamic Business Law now includes Connect Business Law as a packaging option. Connect includes Interactive Applications for each chapter of the textbook and helps students apply legal concepts to business, stimulates critical thinking, and reinforces key topics.

Overview: Dynamic Business Law, 2e is appropriate for the two-term business law course. Emphasis on the BUSINESS in business law. Dynamic Business Law emphasizes the tie of legal issues back to the core business curriculum. This will help both students and faculty. Faculty need to know how this is integrated as they are constantly “defending” the inclusion of this course in the business curriculum. And students need to understand how the concepts tie to their future business careers. Emphasis on TEACHING. Many professors teaching this course are attorneys first and academics second. They do not have a lot of time to prepare or

think about how to apply this information effectively for their business students. Dynamic Business Law contains a helpful instructor's manual, particularly for the many adjuncts teaching this course. Emphasis on CRITICAL THINKING. Neil Browne, one of the co-authors of this text, has written a successful text on critical thinking. His framework is included in Dynamic Business Law as well - to help students learn how to frame and reframe a question/issue. Critical thinking questions are also included at the end of each case, to further tie in this component. Instructor's Supplements: The Online Learning Center contains the complete IM, Test Bank,

PowerPoint, image library, and video clips. Instructor's Manual: The Instructor's Manual provides a clear outline of how to begin using this text and is especially helpful to adjuncts who teach Business Law. Sample syllabi are included, as well as detailed lecture outlines incorporating PowerPoints and other materials professors can bring into their lectures. Exciting and new examples from outside the text are also included, and can be discussed in class to help generate excitement and involvement in the course from students. Test Bank: The Test Bank, developed by Vonda Laughlin of Carson-Newman College, contains a variety of true/false, multiple choice, and

essay questions - as well as “scenario-based” questions, which are application-based, and use a situation described in a narrative, with 3 - 5 multiple-choice test questions based on the situation described in the narrative. We've aligned our Test Bank with the new AACSB guidelines, tagging each question according to its knowledge and skills areas. Categories include Global, Ethics and Social Responsibility, legal and other External Environment, communication, Diversity, Group Dynamics, Individual Dynamics, Production and IT. Designations aligning questions with Learning Objectives, features, and case, exist as well.

 Presentation slides:
 Developed by Jeff Penley at Catawba Valley Community College, we offer two different sets of slides for professors. The “Basic” set consists of an outline of each chapter. The “Premium” set expands on this outline to include hypotheticals and ethical dilemmas, allowing the instructor to incorporate application into the lecture. Instructor Video DVD (ISBN: 0077339118, 13-digit: 9780077339111): The Instructor Video DVD contains video clips from CBS that highlight current legal issues. Instructor Notes, located on the OLC, give insight into how to incorporate segments into the classroom and

offer questions to stimulate discussion. Most of these videos are also part of Premium content - a big plus for instructors teaching online/hybrid courses.

Conflict of Laws Wiley Global Education

This is the fifth, fully updated edition of Roy Goode's seminal work *Commercial Law*, covering the area's theoretical framework as well as its application. From its first publication, this book was acclaimed as the standard text on this field of the law.

Now for its fifth edition, it has been completely revised and expanded to take into account the new developments of the last five years. The book lays out both the framework of commercial law and the application of

fundamental principles to typical business transactions. This unique combination of theory and practice is supplemented by specimen documents, tables of statutes, cases and conventions.

Concise Australian Commercial Law CRC Press

In today's globalised world, an understanding of international trade is essential for those studying and practising law, business, banking and finance.

International Trade Law offers a comprehensive and informed analysis of the complexities of an international sale transaction through case law, policy documents, legislation, international conventions and rules adopted by

international organisations such as the ICC. Focusing on international sales of goods and the various relations that arise as a result of sale contract, this book considers and discusses: Standard trade terms, the Convention on International Sales of Goods 1980 and the UNIDROIT Principles for International Commercial Contracts 2004; Issues relating to E-Commerce including electronic transport documents, especially electronic bills of lading; International transportation of cargo, both unimodal (sea, air, land and rail) and multimodal, the various conventions affecting such transportation and the proposed new convention drafted by UNCITRAL and CMI;

Insurance and payment mechanisms, in particular letters of credit and the recently adopted UCP 600; Dispute resolution including issues of jurisdiction, applicable law, arbitration and mediation; Corruption as a major challenge to conducting business and the various anti-corruption conventions, in particular the OECD Anti-Bribery Convention 1997 and the UN Convention Against corruption 2003. Accessible to students encountering this often challenging area of the law for the first time, International Trade Law clarifies a range of topics through Tables and diagrams, and directs the reader to relevant further reading, online resources, and journal articles throughout
