The fourth edition of *The Practice of  
Generalist Social Work* continues to teach  
students to apply micro, macro, and  
mezzo social work skills. This new edition  
strengthens the connection between the

three levels of practice and is fully  
updated to the 2015 EPAS. This edition  
also contains more illustrations of theory  
and more context for deciding which type  
of intervention is a good fit. Most chapters  
now open with a case study and  
continually refer back to the case to  
provide additional connections between  
theory and real-life practice. Each chapter  
also incorporates a link to a Grand  
Challenge of Social Work from the  
American Academy of Social Work and

Social Welfare, which shows the connection between social work and the most significant societal challenges of today. The Quick Guides within the text offer students guidance for their field experience and practice after graduation. The text also comes with a rich companion website that includes support materials and six unique cases that encourage students to learn by doing.
