Volume 4 of The Oxford History of Historical

Writing offers essays by leading scholars on the writing of history globally from 1800 to 1945.

Divided into four parts, it first covers the rise, consolidation, and crisis of European historical thought, and the professionalization and institutionalization of history. The chapters in Part Two analyze how historical scholarship connected to various European national traditions. Part Three considers the historical writing of Europe's 'Offspring': the United States, Canada, South Africa, Australia, New Zealand, Mexico, Brazil, and Spanish South America. The concluding part is devoted to histories of non-European cultural traditions: China, Japan, India, South East Asia, Turkey, the Arab world, and Sub-Saharan Africa. This is the fourth of five volumes in a series that explores representations of the past from the beginning of writing to the present day, and from all over the world. This volume aims at once to provide an authoritative survey of the field, and especially to provoke cross-cultural comparisons.

Historiography Oxford University Press

In this impressive volume, leading scholars offer compelling glimpses into the biblical world, the world in which prophets, poets, sages, and historians created one of our most important texts--the Bible. For more than a century, archaeologists have been unearthing the tombs, temples, texts, and artifacts of the ancient Near East and the Mediterranean world. Using new approaches, contemporary scholars have begun to synthesize this material with the biblical traditions. The Oxford History of the Biblical World incorporates the best of this scholarship, and in chronologically ordered chapters presents the reader with a readable and integrated study of the history, art, architecture, languages, literatures, and religion of biblical Israel and early Judaism and Christianity in their larger cultural contexts. The authors also examine such issues as the roles of women, the tensions between urban and rural settings, royal and kinship social structures, and official and popular religions of the region. Understanding the biblical world is a vital part of understanding the Bible. Broad,

authoritative, and engaging, The Oxford History of the Biblical World will illuminate for any reader the ancient world from which the Bible emerged.

The Oxford Illustrated History of Italy Oxford

University Press, USA Provides an overview of classical Greek and Roman history, literature, art, philosophy, architecture, religion, government, and daily life *The Irish Book in English, 1891-2000* Oxford University Press, USA A comprehensive, illustrated history of World War I, its causes, impact on global politics and economy, military and political strategies, and the legacy it left behind.

The Oxford Illustrated History of Medieval Europe Oxford University

Press, USA A comprehensive history of the origins and development of Christian worship, from ancient times to the present day, provides a definitive study of the evolution of Christian liturgy, theology, church history, artistic influence, and social and cultural contexts, covering such topics as Russian Orthodoxy, Women in Worship, Liturgical Music, and the Apostolic Tradition.

The Oxford History of the American People Oxford University Press

In 14 original essays, The Oxford Illustrated History of the Book reveals the history of books in all their various forms, from the ancient world to the digital present. Leading international scholars offer an original and richly illustrated narrative that is global in scope. The history of the book is the history of millions of written, printed, and illustrated texts, their manufacture, distribution, and reception. Here are different types of production, from clay tablets to scrolls, from inscribed codices to printed books, pamphlets, magazines, and newspapers, from written parchment to digital texts. The history of the book is a history of different methods of circulation and dissemination, all dependent on innovations in transport, from coastal and transoceanic shipping to roads, trains, planes and the internet. It is a history of different modes of reading and reception, from learned debate and individual study to public instruction and entertainment. It is a history of manufacture, craftsmanship, dissemination, reading

and debate. Yet the history of books is not simply a question of material form, nor indeed of the history of reading and reception. The larger question is of the effect of textual production, distribution and reception - of how books themselves made history. To this end, each chapter of this volume, succinctly bounded by period and geography, offers incisive and stimulating insights into the relationship between books and the story of their times.

The Oxford History of the United States, 1783-1917

Oxford Illustrated History
This book provides an informal and somewhat technical history of the Oxford Press for the 500th anniversary. The majority of the text covers the last 200 years of the press' history, from about 1800 onwards. The material comes from Oxford Press files, letter-books, miscellaneous papers and notes, and the minutes from the Delegates.

The Oxford History of the French Revolution
The Oxford Illustrated History of the Book

The Oxford History of the British Empire is a major new assessment of the Empire in the light of recent scholarship and the progressive opening

of historical records. Volume I explores the origins of empire. It shows how and why England, and later Britain, became involved with transoceanic navigation, trade, and settlement during the sixteenth and seventeenth centuries. Leading historians illustrate the interconnections between developments in Europe and overseas and offer specialist studies on every part of the world that was substantially affected by British colonial activity.

An Informal History

Oxford Illustrated History
This text traces the language from its obscure Indo-European roots to its 21st-century position as the world's first language. It describes the history of English within the British Isles, its changing roles in different places, and its rise to global pre-eminence.

The Oxford History of the British Empire: Volume I: The Origins of Empire

Oxford University Press
Libraries preserve the knowledge and ideas on which rights depend; no wonder they are so often attacked. Richard Ovenden tells the history of this deliberate destruction of knowledge--from library burnings to digital attacks and

contemporary underfunding--and makes a passionate plea for the importance of these threatened institutions.
The Oxford History of the Prison Oxford : Oxford University Press
The Oxford History of Historical Writing is a five-volume series that explores representations of the past from the beginnings of writing to the present day and from all over the world. Volume I offers essays by leading scholars on the development and history of the major traditions of historical writing, including the ancient Near East, Classical Greece and Rome, and East and South Asia from their origins until c. AD 600. It provides both an authoritative survey of the field and an unrivalled opportunity to make cross-cultural comparisons.

The Oxford History of Greece and the Hellenistic World
Oxford Illustrated History

'excellent' LSE Review of Books
China is the world's most populous country and newest superpower, whose place on the international stage can only be understood through the lens of its modern history. The Oxford History of Modern China is essential reading

for anyone who wants to understand this rising power in what promises to be the 'Chinese century'. Covering the period of dramatic shifts and surprising transformations which comprise China's modern history, the book spans from the founding of the Qing Dynasty (1644-1912) to the present day. It introduces readers to important but often overlooked events in China's past, such as

the bloody Taiping Civil War (1850-1864), and also sheds new light on more familiar landmarks in Chinese history, such as the Opium War (1839-1842), the Boxer Uprising of 1900, the rise to power of the Chinese Communist Party in 1949, the Tiananmen protests and Beijing Massacre of 1989, and China's rise to economic superpower status in the 21st century. A new chapter for this edition brings the story

into the era of Xi Jinping. *The Oxford Illustrated History of the World* Oxford University Press Continuing Oxford's five-volume comprehensive history of the British Empire, Volume II examines the history of British expansion from the Glorious Revolution of 1689 to the end of the Napoleonic Wars, a crucial phase in the creation of the modern British Empire. 13 maps.
