The Morganville Vampires, Book I

Rascal Treehouse Publishing
You blunder into the grand opening of a new hospital, sign up to volunteer and, with considerable reluctance, let yourself be assigned to the ER. What starts as a Monday evening lark

eventually becomes a life-changing experience. Your new course leads from the ER to becoming a volunteer EMT and, later, a paramedic and a perennial night school student. Eventually, at an age when others might be thinking of retiring to play golf, you quit your job, move away from home, and go back to college as a physician assistant student with strangers less than half your age. This book details the often humorous experience that follows from a perspective that hopefully will help others follow their own paths, whatever they may be. Along the way, new experiences evoke old memories, while new friends, teachers, and patients teach important new lessons.

The book comes full circle with a view of what it is like to be a PA, one of U.S. News & World Report's "50 hottest careers."

America's Favorite Bachelor on Faith, Love, Marriage, and Why Nice Guys Finish First Simon and Schuster

The "virgin Bachelor" Sean Lowe reveals the challenges of finding love while championing his Christian convictions in the morally complex world of reality TV. After *The Bachelorette* broke his heart, Sean Lowe suspected his "nice guy" image hurt him. The show never emphasized it, but Sean committed to living according to biblical standards of sexuality, even as producers emphasized the risqué and

promiscuous. A Texas boy from a Baptist home, Sean tells the story of how he went from a Division I college football player to a fan favorite on reality television, taking readers behind the scenes of *The Bachelor* and *The Bachelorette* to see the challenges of living out his values and faith—and ultimately winning his true love's heart. For *The Right Reasons* is about the journeys we all have to take in the real world, where being "good" is the right thing to do but sometimes doesn't seem to be enough; where betrayal is commonplace; and where that thing called perfection is actually just a cruel myth. Sean learned a few things from his two seasons on the hottest romance

shows on television, and he wants others to benefit from those lessons: good does eventually win, lies will be discovered, and “nice guys” do ultimately finish first. A Novel University of Illinois Press
 At Dupont University, an innocent college freshman named Charlotte Simmons learns that her intellect alone will not help her survive.

Unforgettable

Etruscan Press
 For this first case study of college football by a social historian, Lester has brought life to the story of a university football program that had an unusual beginning, a glorious middle, and a unique and inglorious conclusion. The nation's first tenured coach and the most

creative and entrepreneurial of all college coaches from the 1890s to the 1920s, Amos Alonzo Stagg headed a program marked by creation of the lettermans club and by the dominant use of the forward pass, of jersey numbers, and of the collegiate modern T formation. Stagg, who had been an all-American football player at Yale University, joined the company of nine former college or seminary presidents and academic notables including John Dewey, Thorstein Veblen, and Albert Michelson when he was named associate professor of physical culture and coach of the football team at the University of Chicago in 1892. Within fifteen years the

charismatic Stagg had developed a program so powerful that more Americans knew of it than of the physics experiments of Michelson, who in 1907 became the first U.S. citizen to win the Nobel Prize. The logical commercial trail established by Stagg and University President William Rainey Harper helped change football into a mass entertainment industry on American campuses. This fascinating look at the birth of bigtime college sport shows how today's gridiron glory and scandal were prefigured in Chicago's football industry of the early twentieth century, presided over by the brilliant, combative, saintly, but very human Amos Alonzo Stagg.

All it took to destroy

Andy Nocera's

seemingly perfect life

was an anonymous

tryst at an Interstate

rest area. Sentenced to

probation and thrown

out by his wife, he

spends his week as a

traveling salesman,

and his weekends at

his mother's house

where no questions are

asked--and no

explanations are

offered. To clear his

record, the State of North Carolina requires Andy to complete one year of therapy without another arrest. He attends his sessions reluctantly at first, struggling to comprehend why he would risk everything. Answers don't come easily, especially in the face of his mother's sudden illness and his repeated failure to live as an openly gay man. But as Andy searches his past, he gets an opportunity to rescue another lost soul--and a chance at a future that is different in every way from the one he had envisioned. With profound honesty, sharp wit, and genuine heart, this debut novel portrays one man's search--for love and passion, acceptance and redemption--and for the courage to

really live. "If you're looking for a smart, engaging, witty, sad and unusual book about the complicated nature of family and love, try Tom Mendicino's *Probation*. You'll be glad you did." --Bart Yates "Probation is the rare novel that dares to take the reader on a journey through the dark night of the soul. An unflinching look at the dark side of self-discovery, it is ultimately a story of transformation and the worlds of possibilities hidden within each of us." --Michael Thomas Ford Tom Mendicino spent six raucous years roaming the country and eking out a living in the Sales Department of several New York publishing houses before attending the law

school of the University of North Carolina. His stories, some of them excerpts from *Probation*, have appeared in several recent anthologies. Moo eBookIt.com Traces a young man's effort to escape the dangers of the streets and his own nature after graduating from Yale, describing his youth in violent 1980s Newark, efforts to navigate two fiercely insular worlds and life-ending drug deals. 75,000 first printing. Crown Filled to the brim with humor and relatable musings, Roger Loring offers his Baby Boomer perspective on a variety of issues: *Passing Laws in Congress*: There are over 200 committees in Congress. There are conference

committees, interim committees, joint committees, sub-committees, and of course, each chamber has a float and a prom committee. Growing up in Iowa: Parents in other parts of the country get excited when their child first says “mama” or “dada.” In Iowa, parental hearts best faster if a child’s first word is “corn.” And they feel greatly blessed if the child’s first word is “ethanol.” Social Media: Mark Zuckerberg came up with the idea for Facebook when he was a student at Harvard, proving once and for all that not every student at the prestigious Ivy League college is a dumb jock. Connecting with friends: Instead of texting, older people

feel sending a note written in cursive is just fine. While younger people may have a bit of an understanding about sending notes, they have absolutely no understanding of cursive. Viewing a Picasso Painting: Part of the painting shows various female body parts arranged in such a way that the purpose seems to be to just fill up space. It is not an erotic painting in that—unlike a Playmate of the Month centerfold—it is difficult to recognize the various body parts. I could be completely wrong about all of this and it is a painting of Legos. Running a Marathon: When I sit on my porch and walkers come by, I wave and think to myself, better you than

me, but when runners come by, I immediately go inside and organize all of my ties by color, width, and type of stains on each.

Based on hours of unprecedented interviews with members of the Bush family, The Bushes tells the inside story of the unique dynasty at the heart of American power. As well as laying out the secretive family's inner workings, this intimate and fascinating group portrait probes into such sensitive matters as their dealings in the oil business, George W.'s turbulent youth, and Jeb's likely run for the presidency in 2008. In this first full-scale

biography, Peter and Rochelle Schweizer insightfully explore the secrets of the Bushes' rise from obscurity to unprecedented influence. The family's free-flowing, pragmatic, and opportunistic style consciously distinguishes them from previous political dynasties; they consider themselves the "un-Kennedys." But with their abiding emphasis on loyalty and networking, the Bushes' continuing success seems assured—making this book essential reading for anyone who cares about America's future. *For the Right Reasons* Penguin

How to Win at College
PublishAmerica

An eye-opening and at times controversial insider's look at the current state of higher education in America, from one of the nation's most distinguished and down-to-earth university presidents.

At a time when daily news headlines scream of competitive college enrollments, skyrocketing tuition, campus violence, alcohol and drug abuse, and other campus scandals, the former president of The George Washington University tells it like it really is. Educated at Columbia, Yale, and Harvard universities, with a membership in Phi Beta Kappa, more than

fifteen honorary doctorates, four books, and numerous published articles, Stephen Joel Trachtenberg is one of the leading voices in American higher education. Here he brings his thirty years of experience, wisdom, and wit to reveal what goes on behind the scenes in the difficult and rewarding challenge of running a university. Using wonderful anecdotes from his own life, Trachtenberg explains with compassion and his trademark humor the insight he has gained from the halls of learning. For parents who will write big checks to send their sons and daughters to college, for businesspeople of all kinds looking for leadership lessons, and

for anyone invested in America's system of higher education, this book is a major work about the importance of sustaining our nation's natural brain trust.
