 This book will tell all you need to know about British English spelling. It's a reference work intended for anyone interested in the English language, especially those who teach it, whatever the age or mother tongue of their students. It will be particularly useful to those wishing to produce well-designed materials for teaching initial literacy via phonics, for teaching English as a foreign or second language, and for teacher training. English spelling is notoriously complicated and difficult to learn; it is correctly described as much less regular and predictable than any other alphabetic orthography. However, there is more regularity in the English spelling system than is generally appreciated. This book provides, for the first time, a thorough account of the whole complex system. It does so by describing how phonemes relate to graphemes and vice versa. It enables searches for particular words, so that one can easily find, not the meanings or pronunciations of words, but the other words with which those with unusual phoneme-

grapheme/grapheme-phoneme correspondences keep company. Other unique features of this book include teacher-friendly lists of correspondences and various regularities not described by previous authorities, for example the strong tendency for the letter-name vowel phonemes (the names of the letters) to be spelt with those single letters in non-final syllables.

 This collection offers insights into the transnational and translingual implications of Simone de Beauvoir's *Le Deuxième Sexe* (The Second Sex), a text that has served as foundational for feminisms worldwide since its publication in 1949. Little scholarly attention has been devoted to how the original French-language source text made its way into languages other than English. This is a shocking omission, given that many (but by no means all) other translations were based on the 1953 English translation by Howard M. Parshley, which has been widely criticized by Beauvoir scholars for its omissions and careless attention to its

philosophical implications. This volume seeks to fill this gap in scholarship with an innovative collection of essays that interrogate the ways that Beauvoir's essay has shifted in meaning and significance as it has travelled across the globe. This volume brings together for the first time scholars from Translation Studies, Literary Studies and Philosophical Studies, and over half of it is dedicated to non-Western European engagements with *Le Deuxième Sexe* (including chapters on the Chinese, Japanese, Arabic, Hungarian and Polish translations). As such, this collection will be essential to any scholar of Beauvoir's philosophy and its contributions to feminist discourses.

Power is an issue that is attracting increased interest among philosophers, theologians and social scientists. The gospel of Mark, especially in 10:32-45, contains teachings attributed to Jesus about the use and abuse of power. This book applies a combination of different methods and approaches: mainly orality, criticism, literary criticism and a sensitivity for the social and cultural environment of the text, showing the centrality of Jesus's message on the issue of power both for the plot and for the theology of Mark. This message is a call to practice leadership in a way that is subversive

toward the networks of power of the empire.

'A barnstorming epic of the '80s British Left' Hari Kunzru, author of Red Pill Paul, ex-tube driver and drinking partner of legendary Union leader Bob Crowe turns up at Essex University in the early 1980s haunted by the death of his colleague on the tracks. Thrown into the radical mix of Student Union life and the academic intoxication of post-modern theory taught by the likes of Ernesto Laclau, Jacques Derrida and a very young

Slavoj Zizek, Paul befriends the novel's unnamed narrator. What follows is a riotous attempt to put the 20th Century to bed, as seen through the eyes of the foot soldiers of British history. From Miners strikes to IRA collection buckets, ANC demonstrations and some very dodgy handling of Soviet money, Our Struggle climaxes with a devastating denouement in modern day Kurdistan. Holloway's epic tale asks the big questions, does what we think, what we say and what we do ever match up? Or are we destined to fall short of the ideals we think we cherish?

How Latina/o/x gang literature and film represent women and gay gang members' challenges to gendered, sexual, racial, and class oppression. Clicas examines Latina/o/x literature and film by and/or about gay and women gang members. Through close readings of literature and film, Frank García reimagines the typical narratives describing gang membership and culture, amplifying and

complicating critical gang studies in the social sciences and humanities and looking at gangs across racial, ethnic, and national identities. Analyzing how the autobiographical poetry of Ana Castillo presents gang fashion, culture, and violence to the outside world, the effects of women performing female masculinity in the novel *Locas*, and gay gang members' experiences of community in the documentary *Homeboy*, García complicates the dialogue regarding hypermasculine gang cultures. He shows how they are accessible not only to straight men but also to women and gay men who can appropriate them in complicated ways, which can be harming and also, at times, emancipating. Reading gang members as (de)colonial agents who contest the power relations, inequalities, oppressions, and hierarchies of the United States, Clicas considers how women and gay gang members resist materially and psychologically within a milieu shaped by the intersection of race, gender, sexuality, and class.

In *Glory, Grace, and Truth*, Alexander Tsutserov argues that three concepts of the revelation of God as Jesus are unfolded throughout the Gospel of John in terms of a ratification of the covenant of the presence of God. The covenantal aspects of "glory," confirming the presence of God, are evident in Jesus: the visible appearance of God; the intrinsic character of God; the miraculous splendor of God (in Jesus's incomparable signs, deeds, wonders, and marvelous acts); and the divine honor of God (in the Son glorified by the Father). "Grace upon grace" alludes to the requests to confirm the presence of God. All believers gained the grace of the presence of God in Jesus, rather than Moses alone encountering the grace of the presence at Sinai. The Gospel of John depicts ratification of the covenant of the presence of God in Jesus according with the covenantal articles. "Grace and truth" alludes to Exodus 34:6. Each allusion in John depicts the full graciousness and integrity of God's character. The Son possesses and bestows the Father's character

onto believers by means of the Holy Spirit, who is full of "grace and truth." The divine character and the divine Law complement each other in believers, thus fulfilling the Scripture. In essence, the revelations of God at Sinai and in Jesus are the same. In quality, the latter surpasses the former in all three aspects: glory, grace, and truth.
