Jury Instructions on Products Liability, Fourth Edition covers the issues likely to arise in a trial. Judges have given them, juries have followed them, and appeals courts have tested them. Each instruction cites supporting case law, including relevant law review articles and annotations to American Law Reports, to save time and effort in finding support for your request. Jury Instructions on Products Liability explains the issues for the layman, translating complex legal issues into everyday language. Tailor each instruction to fit the unique details of your case and fine-tune the issues to assert more control over jury deliberations. Jury Instructions on Products Liability includes hundreds of instructions on these and other topics: • Duty to warn • Strict products liability • Unavoidably unsafe products • Warranty liability and misrepresentation • Design defect liability • Risk-utility doctrines • Testing and inspection • Industry standards and customs • Comparative negligence • Assumption of risk • Causation The Fourth Edition also addresses the New

Restatement of Torts: Products Liability.

In the aftermath of a terrorist attack political stakes are high: legislators fear being seen as lenient or indifferent and often grant the executive broader authorities without thorough debate. The judiciary's role, too, is restricted: constitutional structure and cultural norms narrow the courts' ability to check the executive at all but the margins. The dominant 'Security or Freedom' framework for evaluating counterterrorist law thus fails to capture an important characteristic: increased executive power that shifts the balance between branches of government. This book re-calculates the cost of counterterrorist law to the United Kingdom and the United States, arguing that the damage caused is significantly greater than first appears. Donohue warns that the proliferation of biological and nuclear materials, together with willingness on the part of extremists to sacrifice themselves, may drive each country to take increasingly drastic measures with a resultant shift in the basic structure of both states.
