Talking Donald Trump examines the language of Donald Trump's presidential campaign from the perspective of sociocultural linguistics. This book offers an insight into the many stages of Trump's political career, from his initial campaign for the Republican nomination, up to his presidency. Drawing from speeches, debates, and interviews, as well as parodies and public reactions to his language, Sclafani explores how Trump's language has produced such polarized reactions among the electorate. In analysing the linguistic construction of Donald Trump's political identity, Sclafani's incisive study sheds light on the discursive construction of political identity and the conflicting language ideologies associated with the discourse of leadership in modern US society. Talking Donald Trump provides a crucial contemporary example of the interaction between sociolinguistics and political science, and is key reading for advanced students and researchers in the fields of sociolinguistics, language and politics, communication studies and rhetoric.

"Travel is no longer a past-time but a colossal industry, arguably one of the biggest in the world and second only to oil in importance for many poor countries. One out of 12 people in the world are employed by the tourism industry which contributes \$6.5 trillion to the world's economy. To investigate the size and effect of this new industry, Elizabeth Becker traveled the globe. She speaks to the Minister of Tourism of Zambia who thinks licensing foreigners to kill wild animals is a good way to make money and then to a Zambian travel guide who takes her to see

the rare endangered sable antelope. She travels to Venice where community groups are fighting to stop the tourism industry from pushing them out of their homes, to France where officials have made tourism their number one industry to save their cultural heritage; and on cruises speaking to waiters who earn \$60 a month--then on to Miami to interview their CEO. Becker's sharp depiction reveals travel as a product; nations as stewards. Seeing the tourism industry from the inside out, the world offers a dizzying range of travel options but very few quiet getaways"--

Developing data-centric web applications can be a real challenge as it is a multi-disciplinary process. There are many technologies involved in the client side (HTML, CSS, JavaScript, and so on); the interaction with the database, on the server side; the typeless nature of the web environment; and above all, the need to put it all together. This needs to be done in a manner that will allow the end users to do their job in the simplest and most efficient way, while enriching their user experience. How often have you wished that developing such applications could be uncomplicated and straightforward? This book will show you that it's possible, and teaches you how to do it, using Oracle Application Express (APEX). With this practical guide to APEX, you'll learn how to easily develop data-centric web applications for the Oracle environment. The book covers the development cycle of an APEX

application, reviewing the major APEX principles and building blocks chapter by chapter. It starts with the basic skills you need to get going when developing with APEX. Later, you will learn advanced issues, such as how to build tailor-made forms and reports, using APEX APIs, AJAX, and so on. It not only deals with the "How" but also with the "Why", and before long you will be able to understand APEX concepts, and use them to expand and enhance the built-in features, wizards, and tools. The book starts with the design phase, including building the necessary database objects infrastructure; continues with ways to implement the application logic (on the server side) and the User Interface (on the client side), whilst showing you how to enhance your applications' features and functionality according to your specific needs; and it ends with application deployment. The book emphasizes and clearly documents areas such as Globalization, Localization, and developing multi-lingual applications, and includes a special discussion about Right-To-Left (RTL) support for APEX applications, documented here for the first time. Throughout the book, there are many screenshots and snippets of code, taken from working APEX applications. The book is accompanied by demo APEX applications that you can download and install in your APEX environment, thoroughly analyze, and learn from as you read the book.

This volume is intended as a belated but heartfelt thank-you and Gedenkschrift to the late Larry Syndergaard (1936-2015), long-time professor of English at Western Michigan University and Fellow of the Kommission für Volksdichtung (International Ballad Commission). Larry's contributions down the decades to ballad studies--particularly Scandinavian and Anglophone--included dozens of papers and articles, as well as his supremely useful book, *English Translations of the Scandinavian Medieval Ballads*. As David Atkinson and Thomas A. McKean of the Kommission have written (May 2015): "Larry... was a sound scholar with a penetrating mind which he used to support, encourage and befriend others, rather than show off his own knowledge. He will be remembered for his contributions to international balladry, especially for providing a bridge between the English- and Scandinavian-language ballads." Larry's particular fascination with the vernacular ballads of the northern medieval world are reflected in this collection; topics here range from plot elements such as demonic whales, otherworldly antagonists, and mer-people to thematic issues of genre, religion and sexual mores. As a tribute to the global influence of Larry's scholarship and the broad academic interest in medieval ballads, the essays in this volume were contributed by twelve international scholars of narrative song based in Europe, North America and Australia.

A spunky young widow hires a farmhand with a bad reputation to help her get her cotton to Jefferson to meet the wagon train, and sparks fly—but can she love a man who doesn't love the Lord? Susannah Abbot Baylor reluctantly hires Henry Buckmeyer to

help her along the Jefferson Trace, the hard stretch of land between her Texas farm and the cotton market, where she is determined to get a fair price for her crop. It's been a rough year, and she's in danger of losing the land her husband left to her and the children, but she'll need help getting both of her wagons to Jefferson safely. She knows Henry's reputation as a layabout and is prepared for his insolence, but she is not expecting his irresistible good looks or his gentle manner. Soon they are entwined in a romantic relationship that only gets more complicated when Susannah learns that Henry doesn't know God the way she does. Dangers arise on the road—but none as difficult as the trial her heart is going through. Will Susannah and Henry's love overcome their differences? And will she get her crop safely to the cotton market with enough money to save the farm? In this heartening and adventurous tale, a young woman's fortitude, faith, and heart are put to the ultimate test.

A hilarious political satire by the creator of the bestselling Narwhal and Jelly series. Hey, you! Yes, you with the dazzling smile! The donkey wants your vote. So does the elephant. And each will do just about anything to win your support. Brag? Sure! Flatter? Absolutely! Exaggerate, name-call, make silly promises and generally act childish? Yes, yes, yes and yes. Soon, the tension mounts, and these two quarrelsome candidates resort to slinging mud (literally) and flinging insults. And what happens when the election results are in? Well, let's just say the donkey and the elephant are in for a little surprise--and a certain bewhiskered, third-party candidate is in for a first term!

"The Undertaker's Daughter is a wonderfully quirky, gem of a book beautifully written by Kate Mayfield....Her compelling, complicated family and cast of characters stay with you long after you close the book" (Monica Holloway, author of Cowboy & Wills and Driving With Dead People). How does one live in a house of the dead? Kate Mayfield explores what it meant to be the daughter of a small-town undertaker in this fascinating memoir evocative of Six Feet Under and The Help, with a hint of Mary Roach's Stiff. After Kate Mayfield was born, she was taken directly to a funeral home. Her father was an undertaker, and for thirteen years the family resided in a place nearly synonymous with death, where the living and the dead entered their house

like a vapor. In a memoir that reads like a Harper Lee novel, Mayfield draws the reader into a world of haunting Southern mystique. In the turbulent 1960s, Kate's father set up shop in sleepy Jubilee, Kentucky, a segregated, god-fearing community where no one kept secrets—except the ones they were buried with. By opening a funeral home, Frank Mayfield also opened the door to family feuds, fetishes, murder, suicide, and all manner of accidents. Kate saw it all—she also witnessed the quiet ruin of her father, who hid alcoholism and infidelity behind a cool and charismatic façade. As Kate grows from trusting child to rebellious teen, the enforced sobriety of the funeral home begins to chafe, and she longs for the day she can escape the confines of Jubilee and her place as the undertaker's daughter. "Mayfield fashions a poignant send-off to Jubilee in this thoughtfully rendered work" (Publishers Weekly).
