The Prophetic Vision

Liturgical Press
For more than a decade,

popular homiletics
professor Linda Clader
has been helping her
students become
attentive to how the Holy
Spirit is speaking to them,
and eventually through
them to the congregation.
In "Voicing the Vision" she
shares her ideas about
what preachers can do to
be open and receptive to
the Spirit once the
exegesis is done. Clader's
approach to inspired and

prophetic preaching is a
holistic one, filled with
suggestions about how
the preacher's spiritual
life and practice affect
openness to the Spirit, as
well as how various
creative exercises can
create spaces in which
the Spirit can flourish. Her
careful analysis of the
biblical texts that
illuminate how the Spirit
works in those texts is
supplemented by practical

suggestions for noticing how the Spirit also works in the everyday life of preacher and congregation. This book will be a welcome companion for the seminarian who is just learning to preach, as well as the seasoned preacher who is looking for new inspiration.

My Call Olive Press (SC) Stewart brings together in one volume his books on "The Prophecies of Merlin" and "The Life of Merlin," 12th-century texts by Geoffrey of Monmouth. A detailed interpretation of

"The Prophecies" is revealed, and a guide to the initiatory methods within "The Life of Merlin." George Washington's Prophetic Vision WestBow Press

A profound exploration of the Bible's most controversial book—from the author of *Beyond Belief* and *The Gnostic Gospels* The strangest book of the New Testament, filled with visions of the Rapture, the whore of Babylon, and apocalyptic writing of the end of times, the Book of Revelation has fascinated

readers for more than two thousand years, but where did it come from? And what are the meanings of its surreal images of dragons, monsters, angels, and cosmic war? Elaine Pagels, New York Times bestselling author and "the preeminent voice of biblical scholarship to the American public" (*The Philadelphia Inquirer*), elucidates the true history of this controversial book, uncovering its origins and the roots of dissent, violence, and division in the world's religions.

Brilliantly weaving scholarship with a deep understanding of the human needs to which religion speaks, Pagels has written what may be the masterwork of her unique career.

The author is a poet a writer and a social activist who has written various essays, articles and books. Some of his well-known books on social issues include, A Tribute to the Prostitute (On sex workers) Because I am a

girl child (on the girl child), Homes Aflame (on domestic violence), A Mute Refute (violence against women), Adults amused but Child Abused (On Child Abuse). The author has a number of poems dealing with nature, romance, and spirituality, some of which have been published in various leading magazines, while the rest are being compiled for publication. Have you ever imagined how the world would be when you and I would not exist on this planet apart from the

future generation? As Christ put it, no one knows the day or the hour of the second coming. In whose time the prophetic visions would actualize is difficult to predict, but as the Spirit who has revealed these Prophetic Visions, to the author, he suggests that it will not be before 5050! The day, probably the fifth of May, 5050 would be when the whole globe has the same season because of the irresponsible way in which the caretakers, bring about an imbalance in the way nature controls the

seasons. By then, it is estimated that different regions that enjoyed different climates would have the same, static very hot climate. The Sun would shine at its peak, melting the remaining snow on mountain tops, evaporating the sea waters, stopping the rains; in a nut shell the fiery heat would convert the planet into a furnace-drying all the water bodies, scorching trees and causing wild fires and thus the fertility of the soil would be lost leaving no scope for humanity and

any creature to survive!

The Great Red Dragon ... (A Prophetic Vision of the Future.) Second Edition CSS Publishing
 The final book of the Bible, Revelation prophesies the ultimate judgement of mankind in a series of allegorical visions, grisly images and numerological predictions. According to these,

empires will fall, the "Beast" will be destroyed and Christ will rule a new Jerusalem. With an introduction by Will Self.

Crause has finally put together the most comprehensive teaching on this vital subject to date. Subjects Covered: - Prophetic Dreams and Visions - Visions - How to Interpret and Apply Them - How and Why We Dream - Kinds of Natural Dreaming - Spiritual Dreams - Basic Principles

of Dream Interpretation - Interpreting Dream Symbols - Supernatural Dreams - Demonic Supernatural Dreams At the end of this book is a full summary of the principles in the book for you to reference anytime in the future. **Eyes That See** Xulon Press Using the method of intertextuality, Adrian Leske has traced the growth of the prophetic vision from Amos to the Exile, demonstrating how, after the Exile, the dominant influence on

that vision down to the time of Jesus is the positive and new message of Deutero-Isaiah. With opposition from the Zadokite priesthood, and exploitation from foreign rulers, the prophetic and Levite communities find refuge in Upper Galilee and surrounding areas. Using the Gospel of Matthew, the most Jewish of the Gospels, Leske demonstrates how that vision impacted the teaching of Jesus to these communities and how he perceived his mission as the Servant/Son of man.

Understanding this prophetic vision and the Jewish nature of Matthew's Gospel brings new insights to Matthean Christology, as well as the authorship and date of that Gospel in relation to the other Gospels.

R. David Kaylor believes that Jesus' vision of a just society and his prophetic engagement with social, political, and economic conditions led to his execution by the Romans. Here, he presents Jesus' message of a just society

based on Israel's covenant tradition. He shows the prophetic background and social content of Jesus' ethical teaching and demonstrates that the parables (especially those with economic and agricultural associations) critiqued the social conditions and called for a restructuring of community life. He provides evidence that Jesus' vision remains, offering criticism of the present and promise of a future.

The sacramental and prophetic traditions of Christian spirituality, suggests Matthew Eggemeier, possess critical resources for responding to the contemporary social crises of widespread ecological degradation and the innocent suffering of the crucified poor. In *A Sacramental-Prophetic Vision*, Eggemeier maintains that the vital key for cultivating these traditions in the present is to situate these spiritualities in the

context of spiritual exercises or ascetical practices that enable Christians to live more deeply in the presence of God (coram Deo) and in turn to make this presence visible in a suffering world.

Is your child a dreamer? Does your child see visions? If so, do not ignore them. Although every dream or vision does not have any spiritual benefit we still need to listen to our children. This is so important because dreams and visions are the language of God. Every human being on the planet has the innate ability to receive divine communication from God especially in the form of a dream. The concept of dreams is fascinating and has researchers across

the globe trying to find answers. Dreams are a language all their own and interpretation comes solely from our Heavenly Father. So, if your child is a dreamer you need to explain to them that God can speak to them through dreams. And take the time to show them scriptures about dreams. This will cause them to be more mindful and pay attention when they have dreams. Remember in 1 Samuel the 3rd chapter God was speaking to Samuel but he was young and did not yet know the

voice of the Lord. Very often God is speaking to our children and it is up to us to teach them to recognize and respond to the voice of the Lord. Understand that not only will God communicate with children in dreams and visions the enemy will try and come with demonic communication. Many prophetic children that are dreamers battle with nightmares and being harassed at night by demonic spirits. Some children dream vividly almost every night and taking the time to listen to

their dreams can give some insight to the source of their dreams or even reveal a message that God has been speaking through dreams. The first half of this book is geared towards you, the parents and other adults that are responsible for prophetic children. The second half of this book is some activities for you to do along with your prophetic child.

His Vision of the Kingdom on Earth Cross

House Books Limited Drawing on speeches, essays, sermons, reminiscences, and works of theological speculation from 1800 to 1950, Christopher Z. Hobson offers an in-depth study of prophetic traditions in African American religion. He shows how African American prophets shared a belief in a "God of the oppressed:" a God who tested the nation's ability to move toward justice and who showed favor toward struggles for equality. Hobson also provides insight into the

conflict between the African American prophets who believed that the nation could one day be redeemed through struggle, and those who felt that its hypocrisy and malevolence lay too deep for redemption. Contrary to the prevalent view that black nationalism is the strongest African American justice tradition, Hobson argues that the reformatory tradition in prophecy has been most important and constant in the struggle for equality, and has sparked a politics of prophetic

integrationism spanning most of two centuries. Hobson shows too the special role of millennial teaching in sustaining hope for oppressed people and cross-fertilizing other prophecy traditions. *The Mount of Vision* concludes with an examination of the meaning of African American prophecy today, in the time of the first African American presidency, the semicentenary of the civil rights movement, and the sesquicentennial of the American Civil War:

paradoxical moments in which our "post-racial" society is still pervaded by injustice, and prophecy is not fulfilled but endures as a challenge.

Rick Joyner says, "We have tended to over-focus on the end of the age-the end times. But this is not just the end, it's the beginning of a new age when Christ will rule over the earth! For the church to reclaim the high ground of hope for the future, we must begin to

proclaim the beginning, the coming of the kingdom." In *A Prophetic Vision for the 21st Century*, Joyner discusses why revival tarries for America, what it means to be delivered from the Mark of the Beast, the rise and fall of America, the greatest awakening, a famine in the land, and practical ways to serve in the latter days. It includes encouragement for weary church leaders as well as the second part of *The Hordes of Hell are Marching*, illustrating the unified church rising as an

army in the most pivotal battle of all time between the light and darkness. *How to Turn Your Dreams into Destiny* Prophetic Visions How to Receive, Understand, and Apply Your Visionary Encounters A collection of 52 weekly reflections on Isaiah 35, the hallowed passage about finding new life, new faith, and new prophetic vision in challenging places and spaces, *Wellsprings of Hope* will walk you and your congregation alongside other Disciples congregations toward a

Prophetic Visions helps to
make spiritual and
practical sense of your
Godly visions and reveals
how messages from God
cover a wide spectrum of
supernatural occurrences
ranging from a mere
sighting to a grand
cinematographic
happening --from purely

auditory to purely
aromatic. For many
people, the ability to
recall dreams diminishes
with age--but with visions,
the capacity to receive by
visions not only increases
with age but actually gets
better. The scope of
visions therefore becomes
limitless. Visions can
involve the totality of the
human being--body, soul,
and spirit--such that a
vision can sometimes be
perceived through the
natural senses if the
vision has penetrated the
natural realm. This means
that depending on the

nature by the visionary occurrence, the vision can be seen, heard, touched, or smelled!
