The activist and TED speaker Megan Phelps-Roper reveals her life growing up in the most hated family in America. At the age of five, Megan Phelps-Roper began protesting homosexuality and other alleged vices alongside fellow members of the Westboro Baptist Church in Topeka, Kansas. Founded by her grandfather and consisting almost entirely of her extended family, the tiny group would gain worldwide notoriety for its pickets at military funerals and celebrations of death and tragedy. As Phelps-Roper grew up, she saw that church members were close companions and accomplished debaters, applying the logic of predestination and the language of the King James Bible to everyday life with

aplomb—which, as the church’s Twitter spokeswoman, she learned to do with great skill. Soon, however, dialogue on Twitter caused her to begin doubting the church’s leaders and message: If humans were sinful and fallible, how could the church itself be so confident about its beliefs? As she digitally jostled with critics, she started to wonder if sometimes they had a point—and then she began exchanging messages with a man who would help change her life. A gripping memoir of escaping extremism and falling in love, *Unfollow* relates Phelps-Roper’s moral awakening, her departure from the church, and how she exchanged the absolutes she grew up with for new forms of warmth and community. Rich with suspense and thoughtful reflection, Phelps-Roper’s life story exposes the dangers of black-and-white thinking and the need for true humility in a time of angry polarization.

Evangelical Christians in the United States today are known for their hard-line, restrictive approach to immigration and refugees. This book shows that this has not always been the case and is, in fact, a relatively new position. The history of evangelical involvement with refugees and immigrants has been overlooked in the current debate. Since the early 1960s, evangelical Christians have been integral players in US immigration and refugee policy. Motivated by biblical teachings to "welcome the stranger," they have helped tens of thousands of newcomers by acting as refugee sponsors or providing legalization assistance to undocumented immigrants. Until the 1990s, many evangelicals did not distinguish between documented and undocumented newcomers all were to be loved and welcomed. In the last decade

of the twentieth century, however, a growing anti-immigrant consensus in American society grew alongside evangelicals' political alignment with the Republican Party, leading to a rethinking of their theology. Following the GOP's lead, evangelicals increasingly emphasized the need to obey American law, which many argued undocumented immigrants failed to do. Today, the evangelical movement is more divided than ever about immigration policy. While conservative evangelicals are often immigration hard-liners, many progressive and Latinx evangelicals hope to convince their fellow evangelicals to take a more welcoming approach. *The Strangers in Our Midst* argues that the key to understanding evangelicals' divided approaches to immigration is to look at both their theology and their politics. Both of which have shaped how and especially to whom they extend their biblical values of hospitality.

**The Baptist Encyclopædia** The Baptist Standard Bearer, Inc. The Southern Democrat was established by Forney G. Stephens at Blountsville in 1894. After fellow newspaperman Lawrence H. Mathews of the Blount County News-Dispatch died in 1896, Stephens moved the Democrat to Oneonta. When the News-Dispatch folded in 1903, the Democrat was the preeminent Blount County newspaper. Stephens died in 1939, but the Democrat continued to publish in Oneonta for almost 100 years. In 1989 the old Southern Democrat was renamed the Blount Countain. Microfilm for the old Southern Democrat was acquired from the State Archives in Montgomery and studied page by page. Every mention of births, marriages, deaths, obituaries and news important to the history and development of Blount County was reproduced here. This book is vital for any serious student of

Blount County, Alabama genealogy and history.

The Blount Count Journal published in Oneonta from 1909 to 1918. Compared to other Blount County papers, the Journal was only a small blip on the journalistic radar in Blount County. However, it is an often overlooked and untapped source of great genealogical and historical knowledge. While some of the articles mirror those published in its contemporary publications, often the Journal captured other obituaries and news missed by the Democrat. Most of the original copies of the Journal were found in the court house in Oneonta. These were reviewed for notices of births, marriages, obituaries and interesting news items. Missing issues from the court house were reviewed at the State Archives in Montgomery. This book will add to the body of knowledge of Blount County, Alabama and will serve as a useful tool for area genealogists and historians.

Creating Meaning in Funerals is a book about the ways in which bereaved families and communities create meaningful ceremonies against a backdrop of what is culturally appropriate, even when their choices might make little economic sense to those outside the culture. The culmination of these customs and practices, this book maintains, is how bereaved individuals, families, and communities are drawn into significant meaning making in early bereavement. Readers will be repeatedly challenged to suspend their own biases, observe the customs and beliefs of others thoughtfully, and provide counseling support and encouragement to bereaved individuals for whom funerals were or were not effective means of coping with their loss. Discussion questions at the end of each chapter make the book useful for educational settings such as funeral service classroom instruction, thanatology classes, and grief counseling courses. Each chapter is also accompanied by its own reference list to make chapters more useful individually.

In The Chronological History of the Roanoke Missionary Baptist Association and Its Founders from 1866-1966, Dr. L. Morings Boone has created a historical memorial to the founding fathers of the Roanoke Missionary Baptist Association. These men played a great part in shaping the destiny of the members of the Roanoke Missionary Baptist Association. Distinguished in their religious and public life, these men left their stamp on the history of the Negro Church of Northeastern North Carolina and Virginia.

Dr. L. Morings Boone has done another tremendous job of restoring a history and legacy of African-American clergy who established a ministerial alliance against the backdrop of racial oppression and dismal circumstances. These faithful and courageous founding fathers led their congregations in such a way as to establish the Roanoke Institute to educate the children of northeastern North Carolina. Dr. Boone has searched tirelessly into the history of the association to discover the passionate work that drove these men against the tyranny of southern discrimination to elevate their communities through their Missionary Baptist efforts and through public education. We live in a profoundly spiritual age, but not in any good way. Huge swaths of American culture are driven by manic spiritual anxiety and relentless supernatural worry. Radicals and traditionalists, liberals and conservatives, together with politicians, artists, environmentalists, followers of food fads, and the chattering classes of television commentators: America is filled with people frantically seeking confirmation of their own essential goodness. We are a nation desperate to stand on the side of morality--to know that we are righteous and dwell in the light. In *An Anxious Age*, Joseph Bottum offers an account of modern America, presented as a morality tale formed by a collision of spiritual disturbances. And the cause, he claims, is the most significant and least noticed historical fact of the last fifty years: the collapse of the mainline Protestant churches that were the source of social consensus and cultural unity. Our dangerous spiritual anxieties, broken loose from the churches that once

contained them, now madden everything in American life. Updating *The Protestant Ethic and the Spirit of Capitalism*, Max Weber's sociological classic, *An Anxious Age* undertakes two case studies of contemporary social classes adrift in a nation without the religious understandings that gave them meaning. Looking at the college-educated elite he calls "the Poster Children," Bottum sees the post-Protestant heirs of the old mainline Protestant domination of culture: dutiful descendants who claim the high social position of their Christian ancestors even while they reject their ancestors' Christianity. Turning to the Swallows of Capistrano, the Catholics formed by the pontificate of John Paul II, Bottum evaluates the early victories--and later defeats--of the attempt to substitute Catholicism for the dying mainline voice in public life. Sweeping across American intellectual and cultural history, *An Anxious Age* traces the course of national religion and warns about the strange angels and even stranger demons with which we now wrestle. Insightful and contrarian, wise and unexpected, *An Anxious Age* ranks among the great modern accounts of American culture.
