positive relationships. "Please" and "thank you" do go a long way,
and whether it's a handshake, a hug, or a friend request, it's the
underlying sincerity and good intentions behind any action that

Researched and written in Japan with the full co-operation of the factory, here in definitive detail is the story of the two-stroke Suzuki bikes - a series of models that put the company on the map, helping it to survive a difficult era that saw hundreds of Japanese motorcycle makers reduced to just four. Successful immediately, the two-stroke models defended Suzuki's honour on the tracks as well as in the showrooms, handing the company numerous world championship titles. The series has now been all but killed off, but Suzuki Motorcycles - The Classic Two-stroke Era helps celebrate an era when the two-stroke was king, concentrating on the 1950s through to the late-1970s.

The first GSX-R was created in 1985 as a groundbreaking departure from the ponderous sportbikes of the day. That revolutionary motorcycle took a time-honored racing credo to heart: light is right. (And another one: It can never be too fast.) Never before had the performance and design of a race bike been so faithfully carried over to the street. In the seven generations since, Suzuki has remained true to the concept of the original GSX-R: to build the most serious, track-worthy sportbike. What's more, the company's engineers have been relentless in their pursuit to refine and improve the bike.

Rugged Gentlemen will not answer all the questions that surface in our parenting. I do trust it to open the awareness of simple things, which when done daily, and with a hefty dose of love, will become a starting point to recreate a society determined to develop a healthy mentality of empathy as we learn to fight a growing society rife with self-centered, potentially narcissistic adults. I intend to build an awareness of what lies before us if we continue to turn our heads and to participate in developing a new attitude: proudly show we focus more on the kind of children we are leaving the world, than the world we seek to leave them.
