understanding
why women's
relationships
with other
women at

work are often fraught and when they are, have the potential to completely derail women's careers. It's a pervasive and complicated issue which, until now, has been falsely represented by books that paint women as inherently bitchy backstabbers who cannot help but have challenging relationships with other women. As the authors prove, this is patently untrue! Immensely practical, the

book features real-world advice and tactics to overcome and avoid workplace conflict, and most importantly, build on the positive aspects of women to women relationships, developing stronger networks that foster women's career success and creating a more supportive and satisfying work environment. Only Toby Peters stands in the way of a plot to murder Albert Einstein
A dentist dangles from the window of a swanky Park Avenue hotel. Toby Peters, a Los Angeles detective who's very far from home, clutches the man by his jacket, which tears slowly, stich by stich. A dead man lies on the bed, while his killer batters the room door, which is going to pieces as quickly as the dentist's

jacket. Somehow, this entire mess is Albert Einstein's fault. Two nefarious groups have been threatening the great physicist. One, a ring of blackmailers who claim to have evidence that he has been passing nuclear secrets to Russia. The other, a gang of Nazi assassins intent on doing away with one of the most famous opponents of Hitler's rule. Einstein hires Toby Peters to

nip both problems in the bud. But if Einstein can't figure it out, what chance does Toby have? **People of the Lightning** Little, Brown The "spine-tingling adventures" (Chicago Tribune) of Kurt Austin and Joe Zavala continue as the NUMA® crew teams up with a beautiful Russian agent in this #1 New York Times- bestselling series. NUMA Special Assignment Team leader

Kurt Austin, and his right-hand man, Joe Zavala, are looking forward to a submersible race to test out their prototype Barracuda, in an effort to enjoy their own special brand of rest and relaxation. But then a Japanese cargo ship cruising the eastern Atlantic near the Azores bursts into flames. When a gang of pirates try to take advantage of the disaster, their own boat

explodes. And Austin and Zavala find they've got no choice but to investigate. The discovery of ships and planes littered across the sea floor in an underwater graveyard lead the NUMA team to the research of a top scientist, who recently disappeared off the streets of Geneva. Somehow connected to the decades-old defection of a mysterious citizen of the USSR, the scientist's studies on magnetics

may offer answers. But Austin and Zavala will have to seek help from another Russian operative if they are going to find out the truth. Filled with the high-stakes suspense and boundless invention that are unique to Cussler, *Devil's Gate* is one of the most thrilling novels yet from the grand master of adventure. *Chosen for Power* Tor Books A hundred years ago, the Minotaurs
