This edited book addresses a range of aspects of internationalization in vocational education and training (VET) in different countries. It considers the impact of internationalization and student mobility on VET at the sectoral, institutional and individual levels as the sector emerges as a key tool for social and

structural change in developing nations and as a flexible and entrepreneurial means of growth in developed nations. The book explores not only the effects of the neo-liberal market principle underpinning VET practices and reforms, but importantly considers internationalization as a powerful force for change in vocational education and training. As the first volume in the world that examines internationalization practices in VET, the book provides VET and international education policymakers, practitioners, researchers and educators

with both conceptual knowledge and practical insights into the implementation of internationalization in VET. *Express to the TOEFL IBT Test* University of Michigan Press

This volume offers comprehensive 'state-of-the-art' overviews of educational policies concerning the teaching of English in a large number of Asian countries. Each contribution is written by a leading expert and gives a clear assessment of current policies and future trends. Starting with a description of the English education policies in the respective countries, the contributors then delve into the 'nuts and bolts' of the English education policies and how they play out in practice in the education system, in schools, in the curriculum, and in teaching. Topics covered include the balance between the acquisition of English and the national language, political, cultural, economic and technical factors that strengthen or weaken the learning of English.

The Second Handbook of English

Language Teaching provides a comprehensive examination of policy, practice, research and theory related to English language teaching in international contexts. Over 70 chapters focus on the research foundation for best practices, frameworks for policy decisions, and areas of consensus and controversy in second-language acquisition and pedagogy. In countries around the globe, English has become the second language taught most frequently and intensively. In many countries, particularly in Asia, government policies have made English a part of the curriculum from primary school on. Demand for English teaching by parents and adult learners is fueled by the desire to increase economic competitiveness, globalization of the workforce, immigration, and a move toward lifelong learning. Immigration has led to an increased demand for English-language teaching even in countries where English is the dominant language.

Increase your TOEFL iBT score by

increasing your speaking and writing scores. How? By using the strategy called argument mapping. Why argument mapping? Because the TOEFL iBT speaking and writing sections are all argument-based tasks. That means if you want high speaking and writing scores, you must know how to map out (develop and deliver) spoken and written arguments, quickly and proficiently. With argument mapping, you will be able to do just that. Best of all, you can apply argument mapping to all six speaking tasks and both writing tasks. That means you will spend less time reading about strategies and more time practicing them. You Will Also Learn: * Essential rhetorical strategies and opinion development strategies * Step-by-step basic responses for all speaking and writing tasks * Step-by-step advanced responses for all speaking and writing tasks * Step-by-step emergency responses for all speaking and writing tasks * How to revise your spoken and written responses to maximize scoring * How to rate spoken and written responses quickly and proficiently ARGUMENT DEVELOPMENT Learn basic and advanced argument development strategies to maximize your

speaking and writing scores. By doing so, you can increase your TOEFL score. ARGUMENT MAPPING Learn test-proven speaking and writing strategies quickly and proficiently using the graphics-based strategy called argument mapping. SCORING STRATEGIES Learn how to think like a TOEFL rater so you know exactly what to say and write to maximize scoring. **Heinle & Heinle's Complete Guide to the TOEFL Test** Folens Publishing Advancing English Language Education Edited by Wafa Zoghbor & Thomaï Alexiou This volume contains a selection of nineteen articles that focus on skills and strategies for advancing English language teacher education in several contexts where English is taught to speakers of other language. Addressing a wide range of issues in applied linguistics, sociolinguistics, and multilingualism, this volume focuses on language users, the 'people.' Making creative connections between existing scholarship in language policy and contemporary theory and research in other social sciences, authors from around the world offer new critical perspectives for analyzing language phenomena and language theories, suggesting new meeting points among language users and language policy makers, norms, and traditions in diverse cultural, geographical, and historical contexts. Identifying and expanding on previously neglected aspects of language studies, the book is inspired by the work of Elana Shohamy, whose critical view and innovative work on a broad spectrum of key topics in applied linguistics has influenced many scholars in the field to think "out of the box" and to reconsider some basic commonly held understandings, specifically with regard to the impact of language and languaging on individual language users rather than on the masses.

Essential Actions for Academic Writers is a writing textbook for all novice academic students, undergraduate or graduate, to help them understand how to write effectively throughout their academic and professional careers. While these novice writers may use English as a second or additional language, this book is also intended for students who have done little writing in their prior education or who are not yet confident in their academic writing. Essential Actions combines genre research, proven pedagogical practices, and short readings to help students develop their rhetorical flexibility by exploring and practicing the key actions that will appear in academic assignments, such as explaining, summarizing, synthesizing, and arguing. Part I introduces students to rhetorical situation, genre, register, source use, and a framework for understanding how to approach any new writing task. The genre approach recognizes that all writing responds to a context that includes the writer's identity, the reader's expectations,

the purpose of the text, and the conventions that shape it. Part II explores each essential action and provides examples of the genres and language that support it. Part III leads students in combining the actions in different genres and contexts, culminating in the project of writing a personal statement for a university or scholarship application.

This volume offers research-based studies on English for Specific Purposes in higher

education from across the world. By drawing on international studies, the book brings together diverse ESP practices and aspects of relevant issues in the development of ESP programs, teachers and learners in a coherent fashion. There is a growing need for undergraduate students to develop their proficiency of ESP skills and knowledge in the increasingly globalized world. Knowledge of ESP is an important factor in subject matter learning by students, and also closely related to the performance of university graduates in the relevant sectors. Careful planning and efficient implementation are essential to ensure the quality of the language learning process. For a variety of reasons, it proves difficult to maintain ESP instruction in higher education. These reasons include the incompetence of teachers, lack of materials for that specific context, as well as lack of opportunities for ESP teachers to develop their skills. The chapters in this book, taken from a wide variety of countries, shed light on the diversity of current practices and issues surrounding ESP.
