### **See You Later, Alligator** Harper Collins

An extraordinary and surreal art book, this edition has been redesigned by the author and includes new illustrations. Ever since the Codex Seraphinianus was first published in 1981, the book has been recognized as one of the strangest and most beautiful art books ever made. This visual encyclopedia of an unknown world written in an unknown language has fueled much debate over its meaning. Written for the information age and addressing the import of coding and decoding in genetics, literary criticism, and computer science, the Codex confused, fascinated, and enchanted a generation. While its message may be unclear, its appeal is obvious: it is a most exquisite artifact. Blurring the distinction between art book and art object, this anniversary edition-redesigned by the author and featuring new illustrations-presents this unique work in a new, unparalleled light. With the advent of new media and forms of communication and continuous streams of information, the Codex is now more relevant and timely than ever. A special

limited and numbered deluxe edition that includes a signed print is also available.

Saving wildlife is an everyday, ever-changing challenge. Early summer is nesting time for the alligators in Florida's Manasota State Park. Head Ranger Seth Grayson takes a group of visitors to eon a two-mile hike to Gator Hollow, a gathering place for hundreds of gators. The group makes a horrible discovery. Partial remains from an alligator attack are found along with several nests empty. It's evident. Poachers have invaded the park. Grayson, a Seminole Indian, values his heritage but chooses to live in the white man's world. Alligators and all wildlife have special significance for him. He knows he will need help to catch whoever sent this young victim to his death. Officer Liz Corday of Florida's Conservation Commission arrives to help catch and prosecute the poachers. A devoted officer, her trust issues with men pose a possible relationship barrier between her and Seth. Tracking down the head of the huge interstate poaching operation, Seth

and Liz risk all, even their lives, to bring these criminals to justice. Seth goes undercover at the Myakka alligator Farm, hoping to learn more about the operation and find evidence Liz can use to bring charges against the poachers. Meanwhile, Liz is harassed and threatened. A large rattlesnake is found in her vehicle, and a dead raccoon is left dripping blood on the hood a night later. Things get complicated, as they find there is more on their mind than catching the poachers but don't know how far to go with their feelings.

*Feminist Book* Harper Collins

A NEW YORK TIMES NOTABLE BOOK OF

THE YEAR • The first Black winner of the Nobel Prize in Literature gives us a tour de force, his first novel in nearly half a century: a savagely satiric, gleefully irreverent, rollicking fictional meditation on how power and greed can corrupt the soul of a nation. In an imaginary Nigeria, a cunning entrepreneur is selling body parts stolen from Dr. Menka's hospital for use in ritualistic practices. Dr. Menka shares the grisly news with his oldest college friend, bon viveur, star engineer, and Yoruba royal, Duyole Pitan-Payne. The life of every party, Duyole is about to assume a prestigious post at the United Nations in New York, but it now seems that someone is determined that he not make it there. And neither Dr. Menka nor Duyole knows why, or how close the enemy is, or how powerful. Chronicles from the Land of the Happiest

People on Earth is at once a literary hoot, a crafty whodunit, and a scathing indictment of political and social corruption. It is a stirring call to arms against the abuse of power from one of our fiercest political activists, who also happens to be a global literary giant.

**Alligators All Around** Scholastic Nonfiction
