MCQs and EMQs in Surgery: A Bailey & Love Companion Guide Radcliffe Publishing

This question book containing detailed answers was designed to address this need for explanation of not only the correct choice, but also why the other choices were incorrect, thereby providing the reader with positive feedback based on current medical practice. With 450 questions, based across 24 commonly tested areas of medicine, surgery and subspecialties and divided into five practice examination papers covering a mixture of subjects, MCQs provides a comprehensive review of these topics as well as providing exposure to frequently encountered question formats to help engender familiarity with examination styles.

1001 Multiple Choice Questions and Answers in Surgery CRC Press

EMQs and MCQs for Medical Finals is a unique revision and study tool for Final Examination preparation. Practice questions cover a variety of key topics in both medicine and surgery, with the mixture of questions reflecting the general weighting in real exams. Comprehensive answer notes are provided for each question, explaining why a particular answer is correct and why others are not. Useful mnemonics and tips on remembering key facts help to consolidate learning.

One Hundred and Fifty Essential MCQs for Surgical Finals tfm

Publishing Limited

There is a great shortage of MCQs book in Paediatric surgery. To fulfil that need, Dr Muhammad Khalid Syed has prepared this MCQs book. This book provides in depth knowledge of paediatric surgery.

For each question readers are asked to select the one best answer. In majority of questions, it is asked to select the false option out of five possible choices. The purpose of this is to provide an abundance of correct information directly rather than writing much details in answer. The topics covered in this book include the Abdomen with inguinal area and genitalia, urology, thoracic surgery, head & neck and soft tissue lesions, orthopaedic, trauma, oncology and vascular and lymphatics. In the end there are MCQs related to anatomy required in paediatric surgery. This book will increase your score, for all paediatric surgical examination, General surgical examination (to cover portion of paediatric surgery) and paediatric medicine examination (to covers the differential diagnosis of surgical conditions).

Access to Surgery Imperial College Press

This text has been designed as a supplement to the Textbook of Surgery to assist readers in their preparation for examinations and to test their knowledge of the principles and practice of surgery. There are two types of Multiple Choice Questions: Type A and Type X. Type A have a single best response from five alternatives and are designed to test judgmental ability. Type X questions contain a stem with suggested answers that are either true or false and are designed to test factual knowledge and its application. The text is set out in three sections, the first containing Type A questions, the second containing Type X questions and the third containing short answer questions that emphasize clinical management problems. In each section, the questions are presented in the sequence used in Textbook of Surgery. The number of questions for each general topic relate to

the relative importance ascribed to each topic in order to provide balance. The answers are accompanied by a reference to the chapter(s) in the Textbook of Surgery where the information required to answer the specific question is presented.

Surgical MCQs McGraw Hill Professional THE 'GOLDEN JUBILEE' EDITION OF A CLASSIC TEXTBOOK, FIRST PUBLISHED IN 1965 Highly Commended at the British Medical Association Book Awards 2016 General Surgery Lecture Notes continues to be an invaluable, appealing and approachable resource for thousands of medical students and surgical trainees throughout the world. This comprehensive guide focuses on the fundamentals of general surgery, and systematically covers all the clinical surgical problems that a student may encounter and about which they need to know. Fully revised and updated to reflect the rapid changes which are taking place in surgical practice, this 50th anniversary edition: Includes principles of treatment written at student level to aid understanding Features full colour illustrations throughout Includes electronic access to a range of extra material including case studies, images and photographs, and biographies Includes free access to the Wiley E-Text Is a perfect review text for medical students as well as junior surgeons taking the MRCS examination and other postgraduate surgical examinations Trusted by generations of medical students, the clinical emphasis of General Surgery Lecture Notes makes this an essential purchase for all those wishing to learn more about general surgery.

With over 1000 essential questions, MCQs and EMQs in Surgery is the ideal self-assessment companion guide to Bailey & Love's Short Practice in Surgery, 26th edition. The book assists trainee surgeons as they prepare for examinations and enables them to test their knowledge of the principles and practice of surgery as outlined in Bailey & Love. Divided into 13 subject-specific sections and written by expert contributors, the MCQs and EMQs provide comprehensive coverage of the current surgical curriculum as well as the core learning points as set out in Bailey & Love. The book is ideally suited for the MRCS exam as well as for the first part of the FRCS (General Surgery) and the new Intercollegiate FRCS (International) exams. The book emphasises the importance of self-assessment within effective clinical examination and soundly based surgical principles while taking into account the latest developments in practice. This new edition includes many new contributors and enhanced chapters with answers provided in much greater detail. While the book is closely aligned with the content of the celebrated Bailey & Love, it also performs well as a standalone self-test guide and may be used independently. MCQs and EMQs in Surgery provides an invaluable revision tool for all candidates studying for the MRCS and FRCS exams.

[Questions for Surgical Examinations with Answers and Explanations CRC Press](#)

Single Best Answers in Surgery offers a new approach to revising for surgical finals; by not only indicating the correct answer to each question, but explaining the full rationale used for finding the answer in each case. This means the book is invaluable not only for self-testing before an exam, but will have long-term value throughout a student's *MCQs for FRCS Surgery* MCQs and EMQs. This book is a guide dedicated to vascular pathologies affecting the central nervous system. It uses a multiple-choice format with more than 340 genuine MCQs in a convenient format that is ideal for self-study. Seven chapters provide comprehensive coverage of core concepts in vascular neurosurgery. The questions are structured and organized so as to offer a step-by-step description of each disease, from the definition, related anatomy, pathology, clinical features, radiology to surgical decisions and operative tricks. Answers and explanations appear directly below the questions to make reading easy. This book is essential for residents across neurosurgical disciplines as it includes most of the neurovascular information neurosurgical residents need to prepare for their certification exam. It is also beneficial for those seeking a refresher or for those preparing for certification maintenance.

Bailey & Love's Short Practice of Surgery
PasTest Ltd

This comprehensive multiple choice questions style book covers most aspects of oral surgery. It uses real clinical scenarios with extensive answers based on textbooks and current literature. The reader will gain a broad understanding and confidence in different flap designs with their clinical indications, dentoalveolar surgery, correct use of exodontia instruments,

soft tissue surgery, orthodontic surgery and surgical endodontics. The book also delves into dental infections and their management, medication related osteonecrosis of the jaw, osteoradionecrosis, trauma, surgical aspects of dental implants, oroantral communication. It also covers basic sciences, bleeding tendency and anticoagulants, local anaesthesia and sedation, different odontogenic and non-odontogenic lesions of the jaw. The target audience for this book would be oral and maxillofacial surgeons, dental surgeons and any clinician with an interest in oral surgery. The book will be of particular interest to candidates sitting their exit examinations. About the Author Mr. Akeel Mosea Jordanian Board (OMFS), FFDRCSI(OSOM), MFDRCISI, Dip Imp Den RCS (Eng), BDS. Companion to Vascular Surgery, 6th Edition Trafford Publishing

Presents over 400 questions related to general surgery for students studying for surgical examinations. Includes analysis of most common types of multiple choice questions in examinations, and explains useful approaches to each type. The end chapter is in examination format for the student's self-assessment. The authors lecture in surgery at the University of Adelaide.

A Bailey & Love Revision Guide, Second Edition Cambridge University Press

Over 400 multiple choice questions with expanded answers covering the full range of topics examined on

undergraduates for the surgery finals. Questions cover all the common surgical problems on a regional basis, testing factual knowledge and identifying areas of weakness.

500 Single Best Answer Questions in Basic and Applied Anatomy John Wiley & Sons

Ear, Nose and Throat (ENT) surgery has traditionally been a difficult and specialised topic in undergraduate medicine and for junior doctors. Many textbooks are too detailed for undergraduate use, or lack self assessment questions to help those wishing to underpin their learning. This concise and easy-to-read self-assessment guide aims to clarify the topic, and find and fill gaps in understanding. The multiple choice questions (MCQs) contained cover all levels of knowledge and the learning objectives of most of the UK medical school curricula, aiding preparation for end of unit, module and final exams for ENT. This book will be an excellent companion for clinics and teaching sessions and an excellent revision primer for graduate entry medical curricula. This book will be a valuable companion for clinics and teaching sessions and an indispensable revision primer for graduate entry medical curricula.

MCQs and EMQs for the Diploma in Otolaryngology - Head and Neck Surgery CRC Press

A perfect and portable way to succeed on your surgery rotation and the shelf exam Surgery: PreTest Self-Assessment & Review is a targeted way to prepare for the surgery clerkship. MCQs for GP with Detailed Answers
Radcliffe Publishing

This revision book in cardiothoracic surgery, cardiac and lung anatomy, physiology and pharmacology suitable for surgical, medical and allied health professionals and trainees contains over 300 questions and answers.

MCQs in Cardiothoracic Surgery Fastprint Publishing

A multiple choice question book aimed at candidates sitting the new Clinical Surgery in General (CSiG) section of the MRCS examination. This new book comes from two of the authors of the successful 'FRCS: MCQs in Applied Basic Sciences'. In response to the changes in the FRCS examination, the authors will be including MCQs and incorporating questions on some of the newer syllabus subjects, such as audit, research and ethics. 'MRCS: MCQs for the Surgical Membership' will contain approximately 300 questions and answers, as well as a specimen paper.

Single Best Answer Questions in Cardiothoracic Surgery Partridge Publishing Singapore

Surgery MCQs and Vivas is designed as a companion to Fundamentals of Surgical Practice, by Aljafri Majid and Andrew Kingsnorth, and is split into two main sections; multiple choice questions and viva topics, reflecting the structure of two of the key components of many postgraduate surgical examinations worldwide, including the MRCS and AFRCSEd. The MCQ and viva questions provided are typical of those that will appear in the MRCS examination, and answers, along with detailed explanatory notes are provided throughout. Each of the two sections is further subdivided into sub-sections reflecting the topics covered in Fundamentals of Surgical Practice, and the model answers in all cases are cross-referenced to the relevant sections of this comprehensive text to enhance the learning experience for the reader, who can instantly get detailed information on a topic of interest.

More Than 250 MCQs Nova Science Pub Incorporated

The Diploma in Otolaryngology - Head & Neck Surgery (DOHNS) is now an intercollegiate examination, and can count towards membership of one of the surgical colleges of Great Britain. The DOHNS has evolved to fit its new role, leaving little up-to-date material available for candidates preparing for the written component. This book by former DOHNS candidates meets that need, focusing on topics that are likely to be examined. Each answer is accompanied by an explanation using current evidence-based research wherever possible. This will be an essential revision text for all DOHNS candidates.
