Que Publishing  
The classic legal guide

to wills, estates, and  
trusts—with more than  
100,000 copies in  
print—now  
substantially updated  
and revised! Whether  
grappling with modest  
or extensive assets,  
The Complete Book of

Wills, Estates, & Trusts has long been the indispensable guide for protecting an estate for loved ones. In this completely revised fourth edition, updated to cover the latest changes in estate law, attorney Alexander A. Bove, Jr. synthesizes his decades of field and classroom experience into honest, clear, and entertaining explanations of a host of complex legal topics, including: • how to create a will and living trust • how to use a will to avoid probate and legal complications • how trusts work and how to use trusts to save taxes • how to contest a will and how to avoid a contest • how to settle an estate or make a claim against one • how to establish a durable power of

attorney • how to protect assets from creditors In his straightforward and humorous style, Bove shares easy-to-understand legal definitions, savvy advice on taxes, and pragmatic and simple sample forms, all illustrated with entertaining examples and actual cases. This is the only legal guide readers will ever need to ensure that their money and holdings remain in the family.

Covering up-to-date

mobile platforms, this book focuses on teaching you the most recent tools and techniques for investigating mobile devices. Readers will delve into a variety of mobile forensics techniques for iOS 11-13, Android 8-10 devices, and Windows 10.

Forensically investigate and analyze iOS, Android, and Windows 10 devices, 4th Edition

J.D. Gauchat

The latest edition of *The Illustrated Book of Development Definitions* breaks new ground. It addresses traditional and new planning problems: natural and industrial disasters such as hurricanes and oil spills; new housing types and living accommodations; changes in urban

design and practice like new urbanism; sustainability; pedestrian and bicycle friendly environments; and more. Joining Harvey S. Moskowitz and Carl G. Lindbloom, authors of the first three editions, are two prominent, nationally known planners: David Listokin and Richard Preiss. Attorney Dwight H. Merriam adds legal annotations to almost all 2,276 definitions. These citations from court decisions bridge the gap between land use theory and real world application, bringing a new dimension to this edition. More than 20,000 copies of previous editions were sold over four decades to professionals and government representatives, such as members of

planning and zoning boards and municipal governing bodies. This first revision in ten years updates what is widely acknowledged as an essential, standard reference for planners.

To celebrate the 25th anniversary of its publication, Michael W. Apple has thoroughly updated his influential text, and written a new preface. The new edition also includes an extended interview circa 2001, in which Apple relates the critical agenda outlined in *Ideology and Curriculum* to the more contemporary conservative climate. Finally, a new chapter titled "Pedagogy, Patriotism and

Democracy: Ideology and Education After 9/11" is also included. Cook and Hussey's Assistive Technologies-E-Book Routledge

The major religions of the world are a mystery to many high school teens. Now you can help them unlock the doors of these traditions with our new text, *World Religions: A Voyage of Discovery*. The book is an introductory survey that helps eleventh and twelfth graders understand the people, dimensions, and religious principles of the world's major religions. The textbook includes a chapter on each of eleven major world religions, including Christianity, Islam, Hinduism, Buddhism, Judaism, and others. The text offers the Catholic

perspective on interreligious dialogue, an overview of basic questions that religions address, and Ninian Smart's seven dimensions of religion. A glossary and word pronunciations in each chapter help students learn unfamiliar terms. In addition, the second edition of this text incorporates the following new features: a new chapter on modern trends in religion; new, more detailed maps; a new section on the Aztec religion of Mesoamerica; a sidebar in each chapter offering examples of the seven dimensions of religion; and review questions at the end of each chapter.

J.D. Gauchat  
In this fourth edition, Bryan Lawson continues his discussion, trying to understand how designers think. He does this by mapping out the issues concerned with the design process, with design problems and solutions and design thinking. This edition adds to the previous debates by including a new chapter on 'Design as Conversation' reflecting on how designers, either consciously or unconsciously, monitor, reflect on, control and change their thinking. It also

includes a new series of case studies on notable designers including the racing car designer Gordon Murray, product designer James Dyson, and architects such as Edward Cullinan and Glenn Murcott. \* A unique look at the psychology of the designer that provides a greater insight to the process of design \*

'Demystifies' the complexity of the subject and uncovers new ways that design can be done \*  
Conclusions are drawn from years of research and provide the very latest debate on the subject

This textbook covers the Contract Law option of the new A-level law syllabus, and provides at the same

time an ideal introduction for anybody coming to the subject for the first time. The book covers all A-level syllabuses/specification requirements, and is written by the principal examiner in Contract Law for one of the major examination boards. It contains extensive case illustration, and a range of examination related questions and activities. There is a special focus on key skills, and on the new synoptic assessment syllabus requirements. This fully updated fourth edition builds upon the success of the first three editions, with new case law (especially on offer and acceptance, legal intent, terms, exemption clauses and misrepresentation

remedies) and coverage of new statute law (especially Unfair Terms in Consumer Contracts Regulations).

### **Developing for the Mac and iOS App Stores**

Routledge Presents an introduction to the features and functions of the iPhone, covering everything from the gadget's keyboard, built-in GPS, new App store, and MobileMe to its communication, e-mail, and Internet functions.

Soil Mechanics Packt Publishing Ltd First published in 1993, The Ultimate Cigar Book has become a classic in its field, and is generally credited with having helped launch the current cigar smoking craze. It has been reprinted numerous times in the United States, and is now sold worldwide. No other book contains as much detailed and factual information on virtually every facet of cigar making and cigar smoking. And now this trendsetting been has been revised in this fourth edition for the aficionado of the future! Forget 1492. This book starts out in B. C. (Before Columbus) and transports the cigar

enthusiast on a fun and fact-filled adventure into virtually every realm of today's popular and growing cigar smoking pastime. Written by one of the most knowledgeable and internationally-celebrated pipe and cigar authors of our time, Richard Carleton Hacker's well-known wit and wisdom will keep the reader enthralled with every turn of the page, as he takes you on an information-packed would tour of cigars. Starting off with a history of cigar smoking, the author then shows us how cigars are made today (handmade, handrolled, and machine made), divulges the secrets of finding the "perfect" cigar, and discusses the ritual of smoking

and how to properly care for and store our cigars. From there the book lists a number of innovative cigar accessories, suggests which beers, wines, whiskeys, brandies, and cognacs go with what cigars, enlightens us with a chapter on cigar smoking celebrities, and concludes with the world's first International Compendium of virtually every cigar brand known today, complete with histories and observations on taste, according to the author's HPH (Highly Prejudiced Hacker-Scale) ratings. If that was not enough, there is even a dictionary of CigarSpeak! The Ultimate Cigar Book is the most comprehensive, factual, and up-to-date

book for the cigar smoker or for those who just want to learn more about the fascinating and popular world of cigar smoking.

An introduction to marketing discusses such topics as designing a marketing program, research, advertising, sales, social media, and telemarketing.

Ideology and Curriculum Routledge

We are almost programmed into thinking of our sexuality as a wholly natural feature of life. But sexual relations are but one form of

social relations, as Jeffrey Weeks makes clear in his book. Drawing on the analyses of Michel Foucault, amongst others, the book examines the social, moral and political issues raised by contemporary forms of sexuality. Weeks provides an authoritative introduction to the sociology of sexuality, discussing its cultural and socio-historical construction, its relationship with power and the State's involvement in its rationalisation and regulation. This second edition is also updated to include global and postcolonial perspectives on sexuality, queer theory, the internet and cybersex, AIDS as a global phenomenon

and international debates on the politics of sexuality. This book is an indispensable introduction to this complex and expanding field.
