Torna il manuale che ha venduto oltre 150.000 copie: il corso d'inglese più rivoluzionario della storia ancora più efficace e mirato.

Torna il vulcanico John Peter Sloan con tante novità e focus originali per chiunque voglia rendere più solido il proprio inglese... per parlarlo correttamente, e per farlo esattamente come un inglese.

Into the Team Penguin
John Peter Sloan torna in libreria con un nuovo corso di inglese. Se hai imparato le basi con English da Zero, oppure le conoscevi già, English Express ti aiuterà a rendere finalmente più fluido e sicuro il tuo inglese. Il metodo è quello "smart" che ha reso Sloan l'insegnante di inglese più amato d'Italia. Con una

grande novità. Oltre alla guida audio gratuita, tanto apprezzata dai lettori di English da Zero, questo libro avrà anche una guida video gratis e scaricabile online: Sloan diventa così un vero e proprio insegnante privato che ti segue passo per passo durante il tuo apprendimento.

The Origin of American Black English Oxford University Press, USA
Winner of the Pulitzer prize in 1974 and the culmination of a life's work, *The Denial of Death* is Ernest Becker's brilliant and impassioned answer to the 'why' of human existence. In bold contrast to the predominant Freudian school of thought, Becker tackles the problem of the vital lie - man's refusal to

acknowledge his own mortality. The book argues that human civilisation is a defence against the knowledge that we are mortal beings. Becker states that humans live in both the physical world and a symbolic world of meaning, which is where our 'immortality project' resides. We create in order to become immortal - to become part of something we believe will last forever. In this way we hope to give our lives meaning. In *The Denial of Death*, Becker sheds new light on the nature of humanity and issues a call to life and its living that still resonates decades after it was written.

Go Zero to Funny in One Book! Anchor La valigia è pronta, i documenti sono stati

rinnovati, avete già salutato amici e parenti, ma qualcosa ancora vi frena? Vi state chiedendo come riuscirete a comprendere e a farvi capire? Che siate diretti a Nord, a Sud, a Ovest o a Est, che viaggiate in bicicletta, in aereo o in macchina, potete smettere di preoccuparvi: grazie a questo manuale non ci saranno più confini né frontiere per voi!

L'ironia e l'umorismo di John Peter Sloan vi trasporteranno in un surreale soggiorno a Londra, in compagnia di Mario e Olivia: tra cene al ristorante, shopping sfrenato per le vie del centro, ricerche dei bagagli smarriti e code al pronto soccorso, questi spassosi personaggi vi accompagneranno in un viaggio per

acquisire nuovi vocaboli, comprendere le forme grammaticali e memorizzare con semplicità le principali regole della lingua inglese, secondo il rivoluzionario metodo studiato appositamente per gli italiani. Chiedere indicazioni stradali, spostarsi con i mezzi pubblici, prenotare un taxi o un albergo e fare conversazione per strada o in un negozio diventerà semplice e divertente grazie a English in viaggio. Non perdetevi tempo, quale sarà la vostra prossima destinazione?

An Oral History as Told by Jon Stewart, the Correspondents, Staff and Guests Oxford University Press
The #1 New York Times Bestseller (October 2017) from the author of The Da

Vinci Code. Robert Langdon, Harvard professor of symbology, arrives at the ultramodern Guggenheim Museum Bilbao to attend the unveiling of a discovery that “will change the face of science forever.” The evening’s host is Edmond Kirsch, a forty-year-old billionaire and futurist, and one of Langdon’s first students. But the meticulously orchestrated evening suddenly erupts into chaos, and Kirsch’s precious discovery teeters on the brink of being lost forever. Facing an imminent threat, Langdon is forced to flee. With him is Ambra Vidal, the elegant museum director who worked with Kirsch. They travel to Barcelona on a

perilous quest to locate a cryptic password that will unlock Kirsch's secret. Navigating the dark corridors of hidden history and extreme religion, Langdon and Vidal must evade an enemy whose all-knowing power seems to emanate from Spain's Royal Palace. They uncover clues that ultimately bring them face-to-face with Kirsch's shocking discovery...and the breathtaking truth that has long eluded us.

The Martian Nam H Nguyen

The #1 New York Times bestseller. Over 4 million copies sold! Tiny Changes, Remarkable Results No matter your goals, Atomic Habits offers a proven framework for improving--every day. James Clear, one of the

world's leading experts on habit formation, reveals practical strategies that will teach you exactly how to form good habits, break bad ones, and master the tiny behaviors that lead to remarkable results. If you're having trouble changing your habits, the problem isn't you. The problem is your system. Bad habits repeat themselves again and again not because you don't want to change, but because you have the wrong system for change. You do not rise to the level of your goals. You fall to the level of your systems. Here, you'll get a proven system that can take you to new heights. Clear is known for his ability to distill complex topics into simple behaviors that

can be easily applied to daily life and work. Here, he draws on the most proven ideas from biology, psychology, and neuroscience to create an easy-to-understand guide for making good habits inevitable and bad habits impossible. Along the way, readers will be inspired and entertained with true stories from Olympic gold medalists, award-winning artists, business leaders, life-saving physicians, and star comedians who have used the science of small habits to master their craft and vault to the top of their field. Learn how to:

- make time for new habits (even when life gets crazy);
- overcome a lack of motivation and willpower;
- design your environment to

make success easier; • get back on track when you fall off course; ...and much more. Atomic Habits will reshape the way you think about progress and success, and give you the tools and strategies you need to transform your habits-- whether you are a team looking to win a championship, an organization hoping to redefine an industry, or simply an individual who wishes to quit smoking, lose weight, reduce stress, or achieve any other goal. The Book of Five Rings (Annotated) Nam H Nguyen
«Il più efficace professore d'inglese mai apparso nel nostro Paese.» Antonio D'Orrico La Lettura, "Il Corriere della Sera".
Nuovi audio letti da John Peter Sloan.

Contenuti rivisti e riorganizzati in modo ancora più efficace. Ancora più completo e divertente. Modi di dire, curiosità e approfondimenti. Un corso di inglese ormai mitico, rigoroso ma pieno di umorismo. Torna il manuale che ha venduto oltre mezzo milione di copie, riveduto e corretto in molte sue parti. I contenuti sono stati riorganizzati in modo ancora più efficace e, novità assoluta, sono stati aggiunti online nuovi audio letti e spiegati dalla voce di John Peter Sloan. Contiene, inoltre, una sezione inedita dedicata al Business English, l'inglese per chi lavora.

"This book is for nonprofit managers who want to learn the steps for generating no strings attached unrestricted revenue streams. It will provide you with strategies for generating substantial scalable revenue, strategies with such inherent simplicity that organizations with the smallest of budgets and staff can implement them immediately."--Book cover.

Forty Centuries of Wage and Price Controls John

Benjamins Publishing
This collection identifies the main theoretical and methodological issues currently preoccupying researchers in social dialectology, drawing not only on variation in English in the UK, USA, New Zealand, Europe

and elsewhere but also in Arabic, Greek, Norwegian and Spanish dialects. The volume brings together previously unpublished work by the world's most prolific and well-respected social dialectologists as well as by some younger, dynamic researchers. Together the authors provide new perspectives on both the traditional areas of sociolinguistic variation and change and the newer fields of dialect formation, dialect diffusion and dialect levelling.

[A Nonprofit Step-By-Step Guide to Generating Revenue Using Untraditional Methods](#) PONS

The Book of Five Rings is a text on kenjutsu and the martial arts in general, written by the Japanese swordsman

Miyamoto Musashi around 1643. Written over three centuries ago by a Samurai warrior, the book has been hailed as a limitless source of psychological insight for businessmen-or anyone who relies on strategy and tactics for outwitting the competition.

Inglês. O significado das palavras que você aprenderá ajudará você em qualquer situação na palma da sua mão.
Linguistic Perspectives on a Variable English Morpheme Vintage
 Robert Langdon, while at the U.S. Capital

Building, finds an object encoded with five symbols, which is an ancient invitation to usher its recipient into a long-lost world of esoteric wisdom. When Langdon's beloved mentor, Peter Solomon, is kidnapped, he realizes his only hope of saving Peter is to accept this mystical invitation and follow wherever it leads him. Langdon is instantly plunged into a clandestine world of Masonic secrets, hidden history, and never-before-seen locations - all of which seem to be dragging him toward a single, inconceivable truth. *The Daily Show (The Book)* Ludwig von Mises Institute

This book investigates -s marking in English verbs, specifically its manifestations in main

verbs, in the past tense of BE, and in existential constructions. It embraces the many ways in which -s marking varies across the English speaking world, and considers both how it arose in these places historically and the ways in which it has since developed. The authors propose a story which holistically accounts for these different manifestations of -s, drawing upon evidence from a wide range of subdisciplines in linguistics, including sociolinguistics, generative syntax, historical linguistics, dialectology, and discourse-pragmatics. This book will be of particular interest to students and scholars in these and related fields.

Social Dialectology

**Abcs of Stand-up
Comedy**

Edizioni
Mondadori

In this volume, international experts in negation provide a comprehensive overview of cross-linguistic and philosophical research in the field, as well as accounts of more recent results from experimental linguistics, psycholinguistics, and neuroscience. The volume adopts an interdisciplinary approach to a range of fundamental questions ranging from why negation displays so many distinct linguistic forms to how prosody and gesture participate in the interpretation of negative utterances.

Following an introduction from the editors, the chapters are arranged in eight parts that explore, respectively, the fundamentals of negation; issues in syntax; the syntax-semantics interface; semantics and pragmatics; negative dependencies; synchronic and diachronic variation; the emergence and acquisition of negation; and experimental investigations of negation. The volume will be an essential reference for students and researchers across a wide range of disciplines, and will facilitate further interdisciplinary work in the field.

Ballantine Books
This volume is about the Anglophone creoles to be found on the Caribbean coast of Central America (Belize, Honduras, Nicaragua, Costa Rica, Panama), and its offshore islands (Providencia, San Andrés and the Caymans) . The study of these Anglophone varieties is comparatively recent and based on current field work from Belize to Panama. One of the interesting features that emerges is the tentative map of diachronic and synchronic relationships among the Anglophone creoles of the Caribbean, as illustrated partly by the lexicon and partly by

grammatical constructions. The studies in this book are based on phonetic transcriptions of speech acts in their social and linguistic context.

Atomic Habits English express Letter Writing and Language Change outlines the historical sociolinguistic value of letter analysis, both in theory and practice. The chapters in this volume make use of insights from all three 'Waves of Variation Studies', and many of them, either implicitly or explicitly, look at specific aspects of the language of the letter writers in an effort to discover how those writers position themselves and how they attempt, consciously or unconsciously, to

construct social identities. The letters are largely from people in the lower strata of social structure, either to addressees of the same social status or of a higher status. In this sense the question of the use of 'standard' and/or 'nonstandard' varieties of English is in the forefront of the contributors' interest. Ultimately, the studies challenge the assumption that there is only one 'legitimate' and homogenous form of English or of any other language.

Roots of English

Routledge

A groundbreaking account of the linguistic features of four English dialects and their wider implications for English's development.

A Translation into Modern English of

Leonardo Pisano's Book of Calculation

Seven Seas

This book develops a minimalist approach to cross-linguistic morphosyntactic variation. Ian Roberts argues that the essential insight of the principles-and-parameters approach to variation can be maintained - albeit in a somewhat different guise - in the context of the minimalist programme for linguistic theory. The central idea is to organize the parameters of Universal Grammar (UG) into hierarchies that define the ways in which properties of individually variant categories and features may act in concert. A further leading idea, which is consistent with the

overall goal of the minimalist programme to reduce the content of UG, is that the parameter hierarchies are not directly determined by UG, and are instead emergent properties stemming from the interaction of the three factors in language design. Cross-linguistic variation in word order, null subjects, incorporation, verb-movement, case/alignment, wh-

movement, and negation are all analysed in the light of this approach. This book represents a significant new contribution to the formal study of cross-linguistic morphosyntactic variation on both the empirical and theoretical levels, and will appeal to researchers and students in all areas of theoretical linguistics and comparative syntax.
