 Building Wireless Sensor Networks: with ZigBee, XBee ...
 ...Create distributed sensor systems and intelligent interactive devices using the XBee radios with ZigBee wireless networking protocol. With this fast-paced, hands-on guide, you'll have built a series of useful projects by the time you're halfway through the book, including a complete ZigBee wireless network that delivers remotely sensed data.
 Building Wireless Sensor Networks - Rob Faludi
 Building Wireless Sensor Networks: Application to Routing and Data Diffusion discusses challenges involved in securing routing in wireless sensor networks with new hybrid topologies. An analysis of the security of real time data diffusion—a protocol for routing in wireless sensor networks—is provided, along with various possible attacks and possible countermeasures.

 XBee offers a great range of low-power wireless solutions that are easy to work with, by taking all of the complexity of wireless (mesh) networking out of your hands and letting you focus on what to send without worrying about the how. Building wireless sensor networks is cost-effective as well as efficient as it will be done with Arduino support.
 Building Wireless Sensor Networks Using ArduinoGet ready to create distributed sensor systems and intelligent interactive devices using the ZigBee wireless networking protocol and Series 2 XBee radios. By the time you're halfway through this fast-paced, hands-on guide, you'll have built a series of useful projects, including a complete ZigBee wireless network that delivers remotely sensed data.
