PADI Divemaster course is an extensive program that embraces many skills and knowledge areas, all necessary for the role of divemaster.

**Scuba Fundamental** Berrett-Koehler Publishers

Om uddannelse til professional dykker *Teaching Scuba Diving* Little, Brown

\*\*Named One of the New York Post's Best New Books to Read \*\*

**FIRE IN THE STRAW** is the witty and deeply felt memoir of Nick Lyons, a man with an intrepid desire to reinvent himself—which he does, over and over. Nick Lyons shape shifts from reluctant student and graduate of the Wharton School, to English Professor, to husband of a fiercely committed painter, to ghost writer, to famous fly fisherman and award-winning author, to father and then grandfather, to Executive Editor at a large book publishing company, and finally to founder and publisher of his own successful independent press..

Written with the same warm and earthy voice that has enthralled tens of thousands of fly-fishing readers, Nick weaves the disparate chapters of his life: from the moment his widowed mother drops him off at a grim boarding school at the age of five, where he spends three lonely and confusing years; to his love of basketball and pride playing for Penn; to the tumultuous period, in the army and after, when he found and was transformed by literature; to his marriage to Mari, his great love and anchor of his life. Suddenly, with a PhD in hand and four children, Nick embarks

on a complex and thrilling ride, juggling family, fishing, teaching, writing, and publishing, the wolf always at his door. Against all odds, The Lyons Press survives, his children prosper, his wife's art flourishes, and his books and articles make him a household name. *Fire in the Straw* is a love story, a confessional, and a beautiful big-hearted memoir.

### **Diving Medicine for Scuba Divers**

MacMillan Publishing Company

This book is written to show how our lives can be radically changed in One Day. Do you believe your life could change in one day? What are you believing for? We know that in God's timing things can change in an instant, but we will look at those who woke up normally and at the end of the day their lives were totally transformed. There are many of us who are living in the hope that our lives would change for the better. We have been praying, fasting and believing for change but as time passes by we do not see any change. When God interrupts your Day you must be willing to surrender to His will. You must be willing to commit to Him and His assignment. God will use your talents and abilities, but He will use you even if you have no talents at all. You must be willing to allow God to use what little or much you have. It's not how much or how little you have, it is how committed you are! You and God can do anything!

### **In Oceans Deep** Macmillan

Cyberattack—an ominous word that strikes fear in the hearts of nearly everyone, especially business owners, CEOs, and executives. With cyberattacks resulting in often devastating results, it's no wonder executives hire the best and brightest of the IT world for protection. But are you doing enough? Do you understand your risks? What if the brightest aren't always the best choice

for your company? In *The Smartest Person in the Room*, Christian Espinosa shows you how to leverage your company's smartest minds to your benefit and theirs. Learn from Christian's own journey from cybersecurity engineer to company CEO. He describes why a high IQ is a lost superpower when effective communication, true intelligence, and self-confidence are not embraced. With his seven-step methodology and stories from the field, Christian helps you develop your team's technical minds so they become better humans and strong leaders who excel in every role. This book provides you with an enlightening perspective of how to turn your biggest unknown weakness into your strongest defense.

#### Scuba Confidential Human Kinetics

Dominate trivia night, liven up a date, and impress everyone you know with this funny, weird, smart book of little-known facts. Did you know a group of bunnies is called a fluffle? Or that the people who voiced Mickey and Minnie Mouse were married in real life? How about this one: In ancient Persia, government officials debated laws twice—once sober and once drunk? We could all use a little good news right now. Comedian and writer Emily Winter is here to tell you confidently that there is kindness, beauty, empathy, humor, resilience, wonder, silliness, cuteness, strength, hope, and joy in our world. With this book in hand, you can make yourself that much smarter while also lighting up your brain with positivity.

#### A Lost Lady Padi Headquarters

Beneath the icy waters of Lake Superior lies a vast museum of maritime treasures, relics, and souls that in years past were lost to the crashing waves of this massive body of water. Those, those who remain on the surface can glimpse

some of the sunken bounty, but most of it is accessible only to those who slip into scuba gear and brave the darkness of the deep. In *Shipwrecks Along Lake Superior's North Shore*, veteran diver Stephen B. Daniel, in collaboration with the Great Lakes Shipwreck Preservation Society, provides in-depth tours of the many sunken ships submerged in the waters of this region of Lake Superior. Readers will not only learn the maritime history and structural details of the original vessels, they'll also find the fascinating stories of the wrecks themselves—how they happened, what actions were taken to save both crew and vessel, and the modern-day efforts to preserve these sites. With detailed descriptions and hundreds of photographs, charts, and diagrams that will impress even the most seasoned diver, this book will also appeal to anyone who has ever wondered what nautical mysteries lie beneath the waves of the greatest of the Great Lakes. Stephen B. Daniel is an active certified diver, shipwreck historian, and current president of the Great Lakes Shipwreck Preservation Society. He is a communications professional at 3M and lives in Woodbury, Minnesota.

If you do not yet scuba dive but are thinking of learning, then *Scuba Fundamental - Start Diving the Right Way* is for you. It takes you from the germ of the idea that you might like to try scuba diving up to the point where you have done around 20 dives. This is not your standard how-to scuba diving manual. It is very different. The purpose of *Scuba Fundamental* is not to teach you how to dive. A dive instructor will do that. But this book will make the learning process much easier. It will help you

make the right choices and avoid the pitfalls that await new and uninformed divers coming into the sport. It will also set you well on the road to becoming a capable and competent lifelong diver. Scuba Fundamental tells you how to make sure you are prepared for a scuba diving course and what a good beginners course should entail. It tells you how to choose a good instructor, how to decide which operators to dive with after you have finished your course and what sort of dives you should be doing when you first start diving. You will learn the many ways in which diving will change your life and also acquire some extremely valuable advice on the etiquette involved in the sport. Throughout the book and especially in the chapter "It Happened to Me" you will be entertained, educated and encouraged by anecdotes from people who are now experienced divers but were once beginners too. There is also an entire section devoted to diving safety, much of which covers vitally important aspects of scuba diving that standard training manuals don't emphasise enough or even leave out completely. The book's message is: start scuba diving the right way and you will be relaxed and ready for the adventure. You will have more fun, make fewer mistakes and be confident in the fact that you are well informed, have made the best choices and have spent your money wisely. Scuba Fundamental is a unique, reliable and essential guide: one that you can trust completely and follow during this formative phase of your scuba diving life. "I wish I had had this book to read when I learned to dive. I remember being totally confused." Robin Yao, Executive Editor, EZDIVE magazine "This is the book divers should give to friends when they say they want to learn to

scuba dive." Ian Thomas, Scuba Instructor Trainer

**More Than Money** Fire Engineering Books

No blurb required by author.

Shipwrecks Along Lake Superior's North Shore Random House (UK)

This text blends theoretical and scientific aspects with practical and directly applicable diving physiology and medical information. It is divided into three sections - the underwater environment, physiological responses to the underwater environment, and medical problems associated with the sport.

Fine-tune your leadership skills, solidify respect among your workforce, and ensure your company's lasting success with tools from a winning CEO. When Martin G. Moore was asked to rescue a leading energy corporation from ever-increasing debt and a lack of executive accountability, he faced an uphill battle. Not only had he never before stepped into the role of CEO; he also had no experience in the rapidly evolving energy sector. Relying on the practical leadership principles he had honed throughout his thirty-three-year career, he overhauled the company's culture, redefined its leadership capability, and increased earnings by a compound

annual growth rate of 125 percent. In *No Bullsh!t Leadership*, Moore outlines these proven leadership principles in a clear, direct way. He sweeps away the mystical fog surrounding leadership today and lays out the essential steps for success. Moore combines this tangible advice with honest, real-world examples from his own career to provide a no-nonsense look at the skills a true leader possesses. Moore's principles for no bullshit leadership focus on:

- Creating value by focusing only on the things that matter most
- Facing conflict, adversity, and ambiguity with decisiveness and confidence
- Setting uncompromising standards for behavior and performance
- Selecting and developing great people
- Making those people accountable, and empowering them to do their best
- Setting simple, value-driven goals and communicating them relentlessly

Though the steps aren't easy, they are guaranteed, if implemented, to lift your leadership—and your organization—to a higher level. Wherever you are in your career, *No Bullsh!t Leadership* will help you develop the skills and form the habits needed to become a no bullshit leader.

**Dive Ontario!** Barkley Sound  
*Scuba Confidential* is a unique book packed full of valuable tips and expert advice, giving you unprecedented access to the secrets of dive professionals and technical divers. With *Scuba Confidential*, you will learn how to master skills and techniques that will make you a more confident, capable and safe diver. It offers an informed, balanced view on some of scuba diving's most contentious issues like going solo, deep diving and rebreathers and includes a comprehensive analysis of how diving accidents happen and how to make sure you do not become a

statistic. *Scuba Confidential* also gives you valuable insights on a vast range of topics such as what it is like to do a cave diving course, how to make sure you buy the right equipment, what to consider when choosing an instructor, things even the pros get wrong and where to find the best diving in the world. This is candid, no-nonsense practical advice from a professional who has been involved over the last three decades with virtually every aspect of the sport. Have you ever wondered? How to look as comfortable in the water as the professionals do? What it is like to dive inside shipwrecks? Which training courses are most worthwhile? If you would make a good technical diver? If you should be considering a rebreather? How you can improve your diving skills? How you can reduce your air consumption? Why diving accidents happen and how to prevent them? Whether you might sometimes actually be safer solo diving? How to dive deep safely? Or How muck diving can possibly be any fun? *Scuba Confidential* has the answers to these questions and many more.

Penguin

The Darwin Elasmobranch Biodiversity Conservation and Management project in Sabah held a three-day international seminar that included a one-day workshop in order to highlight freshwater and coastal elasmobranch conservation issues in the region and worldwide, to disseminate the result of the project to other Malaysian states and countries, and to raise awareness of the importance of considering aspects of elasmobranch biodiversity in the context of nature conservation, commercial fisheries management, and for subsistence fishing communities. These proceedings contain numerous peer-reviewed papers originally presented at the seminar, which cover a wide range of topics, with particular reference to

species from freshwater and estuarine habitats. The workshop served to develop recommendations concerning the future prospects of elasmobranch fisheries, biodiversity, conservation and management. This paper records those conclusions, which highlight the importance of elasmobranchs as top marine predators and keystone species, noting that permanent damage to shark

and ray populations are likely to have serious and unexpected negative consequences for commercial and subsistence yields of other important fish stocks.
