The Dark Half Penguin

Master storyteller Stephen King presents the classic "wondrously frightening" (Publishers Weekly) #1 New York Times bestseller about a writer's horrific and haunting pseudonym. "I'm back...I'm back from the dead and you don't seem glad to see me at all, you ungrateful son of a bitch." After thirteen years of international bestseller stardom with his works of violent crime fiction, author George Stark is officially declared dead—revealed by a national magazine to have been killed at the hands of the man who created him: the once well-regarded but now obscure writer Thad Beaumont. Thad's even gone so far as to stage a mock burial of his wildly successful pseudonym, complete with tombstone and the epitaph "Not a Very Nice Guy." Although on the surface, it seems that Thad can finally concentrate on his own novels, there's a certain unease at the prospect of leaving George

Stark behind. But that's nothing compared to the horror about to descend upon Thad's new life.

There are the vicious, out-of-control nightmares, for starters. And how is he able to explain the fact that everyone connected to George Stark's untimely demise is now meeting a brutal end of their own in a pattern of homicidal savagery...and why each blood-soaked crime scene has Thad's fingerprints all over it? Thad Beaumont may have once believed that George Stark was running out of things to say, but he's going to find out just how wrong he is...

False Memory Vintage Canada

Tracing her moral struggles to the day she accidentally took a sip of water before her Communion—a mortal sin—Mary McCarthy gives us eight funny and heartrending essays about the illusive and redemptive nature of memory "During the course of writing this, I've often wished that I were writing fiction." Originally published in large part as standalone essays in the *New Yorker* and *Harper's Bazaar*, Mary McCarthy's acclaimed memoir begins with her recollections of a happy childhood cut tragically short by the death of her parents during the influenza epidemic of 1918. Tempering memory with invention, McCarthy describes how, orphaned at six, she spent much of her childhood shuttled between two sets of grandparents and three religions—Catholic, Protestant, and Jewish. One of four children, she suffered abuse at the hands of her great-aunt and uncle until she moved to Seattle to be raised by her maternal grandparents. Early on, McCarthy lets the reader in on her secret: The chapter you just read may not be wholly reliable—facts have been distilled through the hazy lens of time and distance. In *Memories of a Catholic Girlhood*, McCarthy pays homage to the past and creates hope for the future. Reminiscent of Nabokov's *Invitation of a Spring*, *Memory*, this is a funny, honest, and unsparing account blessed with the holy sacraments of forgiveness, love, and redemption. This ebook features an illustrated biography of Mary McCarthy including rare images from the author's estate.

Shade's Children Simon and Schuster

By the author of *Rosemary's Baby*, a horrifying journey into a future only Ira Levin could imagine. Considered one of the great dystopian novels—alongside Anthony Burgess's *A Clockwork Orange* and Aldous Huxley's *Brave New World*—Ira Levin's frightening glimpse into the future continues to fascinate readers even forty years after publication. The story is set in a seemingly perfect global society. Uniformity is the defining feature; there is only one language and all ethnic groups have been eugenically merged into one race called "The Family." The world is ruled by a central computer called UniComp that has been programmed to keep every single human on the surface of the earth in check. People are continually drugged by means of regular injections so that they can never realize their potential as human beings, but will remain satisfied and cooperative. They are told where to live, when to eat, whom to marry, when to reproduce. even the basic facts of nature are subject to the UniComp's will—men do not grow facial hair, women do not develop breasts, and it only rains at night. With a vision as frightening as any in the history of the science fiction genre, *This Perfect Day* is one of Ira Levin's most haunting novels.
