Book Of Fate And Fortune: Palmistry Arco Pub

Just as the face is the index of the mind, the palm is the index of one's future. Palmistry is a fascinating science of knowing the future by reading the

lines on the palm. It has been proved that the lines on the hand have a normal and natural position, just as the nose or the eyes on the face. The slightest deviation, break or curve from the normal denotes unusual qualities or tendencies. With full knowledge of these qualities or tendencies, proper precautions can be taken. A reasoned interpretation of the lines of the hand can produce a complete and an accurate assessment of the temperament, health, love, romance, and marriage, travel and fortune. This complete, unabridged and authorized edition of Cheiro's practical handbook has long been accepted as the classic of palmistry.

The characteristics alluded to below are those which may be easily observed and which are aids to a rapid judgment of character and which I have never before been able to give to the public in such a concise way. The more elaborate details concerning the ultimate success of the person one is talking to, their more intimate character and their future development will be found in their proper place, in this book.

William John Warner (also known as Count Louis Hamon according to some sources), popularly known as Cheiro (November 1, 1866 - October 8, 1936), was an Irish astrologer and colorful occult figure of the early 20th century. His sobriquet, Cheiro, derives from the word cheiromancy, meaning palmistry. He was a self-described clairvoyant who learned palmistry, astrology, and Chaldean numerology in India during his stay there. He was celebrated for using these forms of divination to make personal predictions for famous clients and to foresee world events.

Our life is indeed like a play. Birth is the raising of the curtain; death the curtain's descent. The play has evolved through various stages of preparation but does not really begin until we are born. When all the players go on stage, they have been prepared for their parts. Their characters are outlined, and the stage is set. Now the curtain is raised, the play itself exists as a potential within characters, the director, the musicians and the audience. In the same way, the moment of our birth provides that broad outline for our life. Our entire life exists as a potential that has been prepared for. We have ultimate freedom to do with our life as we like: to full I its potential completely or to make some smaller version of ourselves. It all depends upon our effort and commitment. We make the decisions to full I, to whatever extent, the potential life that exists within us. That is our choice. The Numerological chart reveals one's potential, strengths, weaknesses, challenges and lessons to be learnt. Every number suggests potential strengths and weaknesses. A Numerologist can have a good idea of which direction a person will likely move in and how much of his potential he will use or abuse. This is known by studying the chart in a balanced way. In short, Numerology is a self-help tool, providing meaningful advice for all types of situations. In modern world, the popularity of Numerology is growing by leaps and bounds. Numerology columns now appear regularly in newspapers and magazines. Numerologists are consulted with increasing regularity for everything from personal matters to business dealings.
