reference book for children. First Space Encyclopedia (DKYR) | Mit Shop Store DK always does a fantastic job with visually stunning encyclopedias, and nothing quite stirs the imagination more than a full-color encyclopedia on space. This encyclopedia explores all aspects of space as we know it. The first section asks the question "What is space?" and explores space, stargazing and observatories, our galaxy, other galaxies, and nearby stars. Section two is all about the exploration of space: astronaut training, space vehicles, the moon, space stations, working and ...
