*The Adventure of George Drouillard on the Lewis and Clark Expedition : a Novel* BoD - Books on Demand

Historian Dale L. Walker chronicles the early days of the American Pacific Northwest in two engrossing accounts, now available in one volume: *Pacific Destiny* and *Bear Flag Rising*. *Pacific Destiny*: *Pacific Destiny* chronicles the discovery, exploration, and settlement of America's Pacific Northwest. It is a story of cut-throat competition for control in an expanding America, first between Spain and England, then England and the United States. A story of explorers and tycoons, most notably John Jacob Astor, whose effort to establish a fur trading empire on the Columbia River ended with the massacre of his crew by the Vancouver Island Native Americans. *Bear Flag Rising*: *Bear Flag Rising* traces the history of California from the Native Americans who first inhabited the land through the warfare that would finally leave the province in the hands of European settlers. The lives of the Californians in tranquil days before the advent of American trappers and the steady decline of the province under Mexico's neglectful rule are brought to life in this epic chronicle. Battles and skirmishes, such as the bitter fight at San Pascual are meticulously recreated in all their vicious glory. Through exacting research and masterful prose, *Bear Flag Rising* reveals the full story of how Mexico lost California and how this Pacific paradise went on to become "the greatest jewel in the crown of the American Empire." This edition of the book is the deluxe, tall rack mass market paperback.

William Clark

*Sacagawea, Meriwether Lewis, and William Clark* Macmillan

Lewis and Clark first explored the North American West more than two hundred years ago. A number of Native Americans helped the duo and their crew survive their travels from 1804 to 1806. In fact, one of them, Sacagawea, is now a legend. The Shoshone teen was married to a French Trader and became mother to a baby son. Because she spoke two Native languages, Sacagawea joined the Lewis and Clark expedition as a translator. Together, they traveled eight thousand miles to the Pacific Ocean and back, no easy feat during the early nineteenth century. Ever since, their story has been told and retold. Readers will learn how fate brought them together in life and in death.

The tale of their incredible journey, meticulously recorded in their journals, has become an American classic"-- Publisher description.

Relatively little attention has been paid to American military history between 1783 and 1812—arguably the most formative years of the United States. This encyclopedia fills the void in existing literature and provides greater understanding of how the nation evolved during this era. • Offers comprehensive, accessible, in-depth information and analyses in a format that lends itself to quick and easy use for readers from the high school level to senior scholars researching the field • Provides in-depth

*The Story of Brutus: My Life with Brutus the Bear and the Grizzlies of North America* Jefferson Books

Since the time of Columbus, explorers dreamed of a water passage across the North American continent. President Thomas Jefferson shared this dream. He conceived the Corps of Discovery to travel up the Missouri River to the Rocky Mountains and westward along possible river routes to the Pacific Ocean. Meriwether Lewis and William Clark led this expedition of 1804-6. Along the way they filled hundreds of notebook pages with observations of the geography, Indian tribes, and natural history of the trans-Mississippi West. In April 1805 Lewis and Clark and their party set out from Fort Mandan following the Missouri River westward. This volume recounts their travels through country never before explored by white people. With new personnel, including the Shoshone Indian woman Sacagawea, her husband Toussaint Charbonneau, and their baby, nicknamed Pomp, the

party spent the rest of the spring and early summer toiling up the Missouri. Along the way they portaged the difficult Great Falls, encountered grizzly bears, cataloged new species of plants and animals, and mapped rivers and streams.
