Surveying for Construction 5e is an essential textbook for students of engineering new to surveying, and will also appeal to students of building and environmental studies and archaeology. Offering a strong grounding in land and construction surveying, the authors clearly and comprehensively guide the reader through the principles, methods and equipment used in modern-day surveying. Taking into account recent advances in the field, the material has been fully updated and revised throughout including new and up-to-date coverage of levelling, total stations, detail surveys, and EDM. A new chapter on GPS technology has been added. In keeping with the practical nature of the book, there are chapters on setting out construction works and surveying existing buildings, which guide the reader step-by-step through the fundamental procedures. The clear and methodical nature of the explanations, supported by a wide range of exercises and examples, make Surveying for Construction 5e an invaluable and modern introduction to surveying. Key features include:

- Fully updated coverage and new material throughout, including a new chapter on GPS
- New Learning Objectives and Chapter Summaries which guide the student through the learning process and highlight the key principles and methods for each chapter
- Numerous diagrams and figures which give students a clear and detailed understanding of equipment and procedures
- Extensive boxed examples and exercises that guide students through real-world surveying methods and calculations
- Website material: online material for creating your own surveying project allows students to practice the methods and techniques they have learnt

While Universal's Dracula and Frankenstein (both 1931) have received the most coverage of any of the studio's genre releases, it is the lesser known films that have long fascinated fans and historians alike. Starting with The Last Warning, a 1929 movie released as both a silent and a talkie, Universal provided a decade of films that entertained audiences and sometimes frustrated critics. Each of Universal's horror, science fiction and "twisted mystery" films receives an in-depth essay for each film. The focus is first on the background to the making of the movie and its place in the Universal catalog. A detailed plot synopsis with critical commentary follows. Filmographic data for the film conclude the entry. Universal's The Shadow short film series is covered in an appendix. Many rare illustrations and movie posters are also included.

A 6 X 9 Lined Journal "O'Reilly Media, Inc."

The aim of Molecular and Nano Electronics: Analysis, Design and Simulation is to draw together contributions from some of the most active researchers in this new field in order to illustrate a theory guided-approach to the design of molecular and nano-electronics. The field of molecular and nano-electronics has driven solutions for a post microelectronics era, where microelectronics dominate through the use of silicon as the preferred material and photo-lithography as the fabrication technique to build binary devices (transistors). The construction of such devices yields gates that are able to perform Boolean operations and can be combined with computational systems, capable of storing, processing, and transmitting digital signals encoded as electron currents and charges. Since the invention of the integrated circuits, microelectronics has reached increasing performances by decreasing strategically the size of its devices and systems, an approach known as scaling-down, which simultaneously allow the devices to operate at higher speeds.

- Provides a theory-guided approach to the design of molecular and nano-electronics
- Includes solutions for researchers working in this area
- Contributions from some of the most active researchers in the field of nano-electronics

The Cartel has come full circle with this fast-paced, groundbreaking novel, the finale to the hit series by New York Times bestsellers Ashley & JaQuavis. Miamor is fighting for her life in the belly of the beast. She's been kidnapped, and she's staring death in the eye. Is the reign over for the head of the Murda Mamas? Carter is in federal custody and leaves the Diamond Empire to Zyir and Mecca. When the past comes back to haunt Mecca and the truth finally comes to light, will The Cartel rise or fall? Breeze is in the clutches of the crazed Ma'tee, and she desperately searches for a way out. Will she escape, or die his love slave? The answers to these questions lie inside the pages of Cartel 3: The Final Chapter. Open it to discover the shocking truth, and prepare yourself for the unpredictable conclusion of one of the best street series of all time.

Think eating meat makes you macho? Think again. Punk rock icon John Joseph grew up on the mean streets of New York City in the 1970s. From gang fights to drug addiction, foster homes to lockups—he's lived it all. But shifting the way he thought about food is the one decision he credits with saving his life. Today at age fifty-four, he's completing triathalons, keeping up with guys half his age, and still rocking with his band on world tours. In Meat Is for Pussies, he offers a no-holds-barred guide to plant-based living for every dude out there who thinks grilling burgers, going out for a steak, or sitting down with a bucket of wings is a "guy thing." Joseph presents a throw-down of information, offering both personal and scientific evidence that a plant-based diet offers the best path to athleticism, strength, sexual stamina, and health. In addition to smashing the myths surrounding meat, Joseph offers a meal plan, recipes, and a workout regimen that make it easy to go plant-based and get a ripped body.
