This book gives students an answer to the question, "What does my professor want from this essay?" In lively, direct language, it explains the process of creating "a clearly-written argument, based on evidence, about the meaning, power, or structure of a literary work." Using a single poem by William Carlos Williams as the basis for the process of

writing a paper about a piece of literature, it walks students through the processes of reading, brainstorming, researching secondary sources, gathering evidence, and composing and editing the paper. *Writing Essays About Literature* is designed to strengthen argumentation skills and deepen understanding of the relationships between the reader, the author, the text, and critical interpretations. Its lessons about clarity, precision, and the importance of providing evidence will have wide relevance for student writers. *Longman Academic Writing Series 5:*

For the first time, here is Brooklyn's story through the eyes of its greatest storytellers. Like Paris in the twenties or postwar Greenwich Village, Brooklyn today is experiencing an extraordinary cultural boom. In recent years, writers of all stripes—from Jhumpa Lahiri, Jennifer Egan, and Colson Whitehead to Nicole Krauss and Jonathan Safran Foer—have flocked to its patchwork of distinctive neighborhoods. But as literary critic and journalist Evan Hughes reveals, the rich literary life now flourishing in Brooklyn is part of a larger, fascinating history. With a dynamic mix of literary biography and urban history, Hughes takes us on a tour of Brooklyn past and present and reveals

that hiding in Walt Whitman's Fort Greene Park, Hart Crane's Brooklyn Bridge, the raw Williamsburg of Henry Miller's youth, Truman Capote's famed house on Willow Street, and the contested streets of Jonathan Lethem's Boerum Hill is the story of more than a century of life in America's cities. Literary Brooklyn is a prismatic investigation into a rich literary inheritance, but most of all it's a deep look into the beloved borough, a place as diverse and captivating as the people who walk its streets and write its stories. Rebecca D. Cox draws on five years of interviews and observations at community colleges, where she shows how students and their instructors

misunderstand and ultimately fail one another, despite good intentions. Eye-opening even for experienced faculty and administrators, The College Fear Factor reveals how the traditional college culture can actually pose obstacles to students' success, and suggests strategies for effectively explaining academic expectations.

"Research" and "Publishing" are phrases familiar to all neurosurgeons and neuroscientists. Many young neurosurgeons struggle with them on a trial-and-error basis at first, and there are not structured education programs providing information on standard methods. The European Association of Neurosurgical Societies Research

Committee has developed a course on research and publication methods for residents in neurosurgery who have not yet completed training. This supplement includes selected contributions from this course and will serve as an essential handbook providing basic tools to guide research and publication work, presenting time-saving advice, and resulting in the most beneficial contributions in experimental and clinical research.

This book describes lessons learned from the implementation of research based learning at Maastricht University. Well-known for its problem based learning (PBL) educational model, Maastricht University implemented research-based learning (RBL) as a new educational concept in addition to PBL, around 2009. The model has taken the shape of an excellence programme offering third-year bachelor students an opportunity to conduct academic research together with academic staff. The introduction of the research-based learning concept into the programmes of all Maastricht

University's faculties has resulted in a range of RBL models that vary to fit the various disciplines and programmes offered by the faculties. The book first presents theoretical models and a description of the concepts of research-based learning and undergraduate research (UGR). Next, by means of case studies, it describes the formulas developed to suit the various programmes, the challenges encountered, the initial reservations on the part of the staff, the limitations caused by regulations and demands of the curricula, as well as the successes and results of the excellence programme. The disciplines described in the case studies include psychology and neuroscience, knowledge engineering, social and cultural sciences, law, and

business and economics.

Researching Writing is an accessible, informative textbook that teaches undergraduates how to conduct ethical, authentic research in writing studies. The book introduces students to the research approaches used most often and offers a course framework for professors creating or teaching research courses themselves. Author Joyce Kinkead lays out the research process, including finding and defining questions, planning, and starting the research. Expository content introduces the language and methods of writing research, and specific methods are demonstrated in published examples,

illustrating student work using student work and showing that it is possible for students to join the scholarly conversation in writing studies. Other features include student activities, instructor resources, student resources, and links to external content on journal websites, digital publications, YouTube, and similar work. The first-ever textbook for research methods in writing studies for undergraduates, *Researching Writing* takes a hands-on approach that excites and engages students in the depth and complexities of research and will influence the creation of courses in new writing majors as the field continues to grow.

"[A] stunning tale of academic fraud . . .

shocking and compelling."-The Washington Post Dave Tomar wrote term papers for a living. Technically, the papers were "study guides," and the companies he wrote for-there are quite a few-are completely aboveboard and easily found with a quick web search. For as little as ten dollars a page, these paper mills provide a custom essay, written to the specifics of any course assignment. During Tomar's career as an academic surrogate, he wrote made-to-order papers for everything from introductory college courses to Ph.D. dissertations. There was never a shortage of demand for his services. The *Shadow Scholar* is the story of this dubious but all-too-common career. In turns shocking, absurd, and ultimately sobering, Tomar explores not merely his

own misdeeds but the bureaucratic and cash-hungry colleges, lazy students, and even misguided parents who help make it all possible.

Delineates Lacan’s theory of the four discourses as a practical framework through which faculty can reflect on where their students are, developmentally, and where they might go. University classrooms are increasingly in crisis—though popular demands for accountability grow more insistent, no one seems to know what our teaching should seek to achieve.

This book traces how we arrived at our current impasse, and it uses Lacan's theory of the four discourses to chart a path forward via an analysis of the freshman writing class. How did we forfeit a meaningful set of goals for our teaching? T. R. Johnson suggests that, by the 1960s, the work of Bergson and Piaget had led us to see student growth as a journey into more and more abstract thought, a journey that will happen naturally if the teacher knows how to stay out of the way. Since the 1960s, we've come to see development, in turn, only as a vague initiation into the academic community. This book, however, offers an alternative tradition, one rooted in Vygotsky and the feminist movement, that defines the developing student writer in terms of a complex,

intersubjective ecology, and then, through these precedents, proposes a fully psychoanalytic model of student development. To illustrate his practical use of the four discourses, Johnson draws on a wide array of concepts and a colorful set of examples, including Franz Kafka, Keith Richards, David Foster Wallace, Hannah Arendt, and many others. "Graceful, provocative, thoughtful, and well researched, *The Other Side of Pedagogy* connects theory and teaching in compelling ways. This is a groundbreaking book that scholars of writing will want to read, reread, and teach." — Joseph Harris, author of *A Teaching Subject: Composition Since 1966*

This book presents an ethical framework which evaluates the legitimacy of the practice of ghostwriting. It explores the connection between personal authenticity and the use of ghostwriters in corporate, political, legal, higher education, and scientific contexts. It then examines the history of ghostwriting as a professional practice and introduces a model for ethical analysis. In this book, the authors shrewdly address crucial ethical questions such as: When is it acceptable for a leader to claim the words of a ghostwriter as their own? When may this be inappropriate or even dangerously misleading? What are the consequences when public awareness of this practice leads to cynicism about the authenticity

of leaders and their communications?

And when, if ever, is the use of a ghostwriter ethical? This book will be welcomed by scholars and practitioners alike as an original and timely contribution to the literature of business, politics, and communications.

The fiftieth anniversary edition of the essay that is now recognized as the first major work of feminist art theory—published together with author Linda Nochlin’s reflections three decades later. Many scholars have called Linda Nochlin’s seminal essay on women artists the first real attempt at a feminist history of art. In her revolutionary essay, Nochlin refused to answer the question of why there had been no “great women artists” on its own corrupted terms, and instead, she dismantled the very concept of greatness, unraveling the basic assumptions that created the male-centric genius in art. With unparalleled insight and wit, Nochlin questioned the acceptance of a white

male viewpoint in art history. And future freedom, as she saw it, requires women to leap into the unknown and risk demolishing the art world’s institutions in order to rebuild them anew. In this stand-alone anniversary edition, Nochlin’s essay is published alongside its reappraisal, “Thirty Years After.” Written in an era of thriving feminist theory, as well as queer theory, race, and postcolonial studies, “Thirty Years After” is a striking reflection on the emergence of a whole new canon. With reference to Joan Mitchell, Louise Bourgeois, Cindy Sherman, and many more, Nochlin diagnoses the state of women and art with unmatched precision and verve. “Why Have There Been No Great Women Artists?” has become a slogan and rallying cry that resonates across culture

and society. In the 2020s, Nochlin's message could not be more urgent: as she put it in 2015, "There is still a long way to go."

This volume features representative studies focusing on the evolution of text genres in corporate and professional communication. Genre change is explored in various contexts in light of the increasing importance of new media and the profound social changes that have occurred in the last few decades. Major theoretical issues are raised and discussed, highlighting the need to reconsider the repertoire of conventions traditionally identified in each specific genre, and to reassess and update the analytical tools used to investigate them,

about three decades after the emergence of genre analysis.

An erosion of confidence in higher education institutions, particularly community colleges, is coming at a time when it can be ill-afforded as education costs increase and federal and public funding decrease. It is more critical than ever that we demonstrate integrity, honesty, and character-building within our community colleges. In this highly introspective book, author Karén Clos Bleeker takes a comprehensive and thoughtprovoking look at academic dishonesty. Discover • Precise explanations of what defines academic dishonesty and why it happens • Effects of dishonesty and an understanding of why it is essential to address them •

Prevalence: just how pervasive and prevalent is it? • What has been done to address the issue and what else should or can be done? You will also find concrete examples, both positive and

negative, as well as resources and recommendations to help community colleges take the measures needed to ensure academic integrity on their campuses.
