A Concise History of the United States of America Cambridge University Press
A Concise History of Bulgaria A Concise History of the United States of America
 This volume comprises an excellent introductory survey of Christian missions from A.D. 30 to the twentieth century.
A Concise History of the Common Law Univ of California Press
 This concise yet rich introduction to the French Revolution explores the origins, development, and eventual decline of a movement that defines France to this day. Through an accessible chronological narrative, Sylvia Neely explains the complex events, conflicting groups, and rapid changes that characterized this critical period in French history. She traces the fundamental transformations in government and society that forced the French to come up with new ways of thinking about their place in

the world, ultimately leading to liberalism, conservatism, terrorism, and modern nationalism. Throughout, the author focuses on the essential political events that propelled the Revolution, at the same time deftly interweaving the intellectual, social, diplomatic, military, and cultural history of the time. Neely explains how the difficult choices made by the royal government and the revolutionaries alike not only brought on the collapse of the Old Regime but moved the nation into increasingly radical policies, to the Terror, and finally to the rise of Napoleon Bonaparte. Written with clarity and nuance, this work offers a deeply knowledgeable understanding of the political possibilities available at any given moment in the course of the Revolution, placing them in a broad social context. All readers interested in France and revolutionary history will find this an engaging and rewarding read.

A Concise History of Italy Cambridge University Press
 Co-published by MENC: The National Association for Music Education. A History of American Music Education covers the history of American music education, from its roots in Biblical

times through recent historical events and trends. It describes the educational, philosophical, and sociological aspects of the subject, always putting it in the context of the history of the United States. It offers complete information on professional organizations, materials, techniques, and personalities in music education.

A Concise History of the World Rowman & Littlefield Publishers
In an ever-shrinking world, the need for a global perspective in dealing with the modern world has become acute. This book attempts to provide such a perspective by investigating the major changes in geopolitics and world economy during the past 500 years. However compact, it enables us to understand the present unravelling of Communism and the growing challenge from Asia to Western Superiority. It is shown that in so many ways the problems of the contemporary world spring from the unprecedented era of western domination, which the non-western world is now trying to unlive.

The Global Economy. A Concise History Cambridge University Press

Based on the most recent historical research and current debates about Wales and Welshness, this volume offers the most up-to-date, authoritative and accessible account of the period from Neanderthal times to the opening of the Senedd, the new home of the National Assembly for Wales, in 2006. Within a remarkably brief and stimulating compass, Geraint H. Jenkins explores the emergence of Wales as a nation, its changing identities and values, and the transformations its people experienced and survived throughout the centuries. In the face of seemingly overwhelming odds, the Welsh never reconciled themselves to political, social and cultural subordination, and developed ingenious ways of maintaining a distinctive sense of their otherness. The book ends with the coming of political devolution and the emergence of a greater measure of cultural pluralism. Professor Jenkins's lavishly illustrated volume provides enthralling material for scholars, students, general readers, and travellers to Wales.

A Concise History of History Cambridge University Press
Highlighting the most important events, ideas, and individuals that shaped modern Europe, *A Concise History of Modern Europe* provides a readable, succinct history of the continent from the Enlightenment and the French Revolution to the present day. Avoiding a detailed, lengthy chronology, the book focuses on key events and ideas to explore the causes and consequences of revolutions—be they political, economic, or scientific; the origins and development of human rights and democracy; and issues of European identity. Any reader needing a broad overview of the sweep of European history since 1789 will find this book, published in a first edition under the title *Revolutionary Europe*, an engaging and cohesive narrative.

A Concise History of Germany Springer
An introduction to the core Christian doctrines, the historical context in which they arose, and their ongoing importance to contemporary Christian belief and practice. Justo González has long been recognized as one of our best teachers and interpreters of the church's belief and history. In this new volume he lays out the answers to three questions crucial to understanding the Christian tradition: First, what are the core Christian doctrines? What ideas and convictions form the heart of Christian identity? Second, Where did these doctrines come from? What are the historical contexts in which they first rose to prominence? How have they developed across the history of the church? Finally, what do these doctrines mean today? What claims do they continue to place on Christian belief and practice in the twenty-first century? Written with the clarity and insight for which González is famous, *A Short History of Christian Doctrine*

will serve the needs of students in church history, historical theology, and systematic theology classes in college/university settings, as well as seminaries/theological schools.

A Concise History of Spain Cambridge University Press
Plucknett, Theodore F.T. *A Concise History of the Common Law*. Fifth Edition. Boston: Little, Brown and Company, 1956. Reprinted 2001 by The Lawbook Exchange, Ltd. LCCN 00-067821. ISBN 1-58477-137-2. Cloth. \$125. * "Professor Plucknett has such a solid reputation on both sides of the Atlantic that one expects from his pen only what is scholarly and accurate...Nor is the expectation likely to be disappointed in this book. Plucknett's book is not...a mere epitome of what is to be found elsewhere. He has explored on his own account many regions of legal history and, even where the ground has been already quartered, he has fresh methods of mapping it. The title which he has chosen is, in view of the contents of the volume, rather a narrow one. It might equally well have been *A Concise History of English Law*...In conjunction with *Readings on the History and System of the Common Law* by Dean Pound...this book will give an excellent grounding to the student of English legal history." Percy H. Winfield. *Harv. L. Rev.* 43:339-340.

A Concise History of Switzerland Abingdon Press

Born out of violence and the aspirations of its early settlers, the United States of America has become one of the world's most powerful nations. The book begins in colonial America as the first Europeans arrived, lured by the promise of financial profit, driven by religious piety and accompanied by diseases which would ravage the native populations. It explores the tensions inherent in a country built on slave labour in the name of liberty, one forced to assert its unity and reassess its ideals in the face of secession and civil war, and one that struggled to establish moral supremacy, military security and economic stability during the financial crises and global conflicts of the twentieth century. Woven through this richly crafted study of America's shifting social and political landscapes are the multiple voices of the nation's history: slaves and slave owners, revolutionaries and reformers, soldiers and statesmen, immigrants and refugees. These voices help define the United States at the dawn of a new century.

A Concise History of the Modern World Cambridge University Press

Richard Pipes's authoritative history of the "violent and disruptive acts" that created the first modern totalitarian regime portrays the crisis at the heart of the tsarist empire. Drawing on archival materials newly released in Russia, he chronicles the upheaval that began as a conservative revolt but was soon captured by messianic intellectuals intent not merely on reforming Russia but on remaking the world. He provides fresh accounts of the revolution's personalities and policies, crises, and cruelties, from the murder of the royal family through civil war, famine, and state terror. Brilliantly and persuasively, Pipes shows us why the resulting system owes less to the theories of Marx than it did to the character of Lenin and Russia's long authoritarian tradition. What ensues is a path-clearing work that is indispensable to any understanding of the events of the century.

Cambridge University Press

From one of the world's leading historians? a comprehensive narrative of the 3,000 years that have formed Asia's people, culture, and global destiny Tracing its origins in Mesopotamia to its modern role on the global geopolitical stage, historian Arthur Cotterell offers a compelling, lively, and readable account of one of the most culturally diverse, and often misunderstood, parts of the world. Beginning with the emergence of the world's earliest civilization in 3000 BC, *Asia: A Concise History* provides a fascinating look at the global convulsions?like the rise and fall of

Assyria and Persia, the medieval states that flourished after the advent of Islam, and the modern transformations triggered by the lightning conquests of imperial Japan that have shaped the continent. Covers the great events and figures of Asian history, along with a look at the monumental remains that bear witness to those times: the ziggurats of Iraq, the Taj Mahal, the Great Wall of China, the temple of Angkor Wat. Includes fascinating slices of history, including funeral arrangements for Qin Shi Huangdi in 210 BC; an extract from Lord Macartney's journal of his 1793 diplomatic mission to the Qing emperor Qian Long; and Toyotomi Hideyoshi's edict of 1587 banning firearms in Japan. Features boxed inserts of special interest like a Babylonian recipe for lamb stew circa 1500 BC. Contains over 100 illustrations, maps, and photos. Other books by Cotterell: *The Minoan World*, *The First Emperor of China*, *The Encyclopedia of Mythology*, and *Chariot*. Destined to become a reference staple for history buffs and students of Asian history, *Asia: A Concise History* offers readers a breathtaking narrative and wealth of detail that make the formative periods, key events, and personalities from this once remote part of the world come alive.

A Concise History of Revolution Arcadia Publishing

Margaret Conrad's history of Canada begins with a challenge to its readers. What is Canada? What makes up this diverse, complex and often contested nation-state? What was its founding moment? And who are its people? Drawing on her many years of experience as a scholar, writer and teacher of Canadian history, Conrad offers astute answers to these difficult questions. Beginning in Canada's deep past with the arrival of its Aboriginal peoples, she traces its history through the conquest by Europeans, the American Revolutionary War and the industrialization of the nineteenth and twentieth centuries to its prosperous present. Despite its successes and its popularity as a destination for immigrants from across the world, Canada remains a curiously reluctant player on the international stage. This intelligent, concise and lucid book explains just why that is.

A Concise History of Hungary Rowman & Littlefield

From Algeria and Libya to Egypt and Syria, the Arab world commands Western headlines, even as its complex politics and cultures elude the grasp of most Western readers and commentators. Perhaps no other region is so closely linked to contemporary U.S. foreign policy, and nowhere else does the unfolding of events have such significant consequences for America. *A Concise History of the Arabs* argues that the key to understanding the Arab world today—and in the years ahead—is unlocking its past. John McHugo takes the reader on a journey through the political, social, and intellectual history of the Arabs from the Roman Empire right up to the present day. His sweeping and fluent account describes in vivid detail the mission of the Prophet Muhammad, the expansion of Islam, the origins of Shiism, medieval and modern conflicts, the fall of the Ottoman

Empire, the interaction with Western ideas, the struggle to escape foreign domination, the rise of Islamism, and the end of the era of dictators. McHugo reveals how the Arab world came to have its present form, why change was inevitable, and what choices lie ahead following the Arab Spring. This deeply informed and accessible account is the perfect entry point for anyone seeking to comprehend this vital part of the world.

A Concise History of the Russian Revolution Cambridge University Press

From rebellion to revolution -- Social movements and revolution -- Revolutionary states -- Revolutionary politics.

A Concise History of Switzerland Oxford University Press, USA

A comprehensive and engaging new history charting Romania's development over 2000 years from its establishment to the present day.

A Concise History of France National Geographic Books

A thematic survey of the past half century focusing on important developments in politics, religion, science and technology, human migration and globalization.

A Concise History of Canada Cambridge University Press

An incisive account of the entire history of historical writing worldwide by one of the leading intellectuals in the field.

A Concise History of the Caribbean Cambridge University Press

This is the most up-to-date and comprehensive study of French history available ranging from the early middle ages to the present. Amongst its central themes are the relationships between state and society, the impact of war, competition for power, and the ways in which power has been used. Whilst taking full account of major figures such as Philip Augustus, Henri IV, Louis XIV, Napoleon and de Gaulle, it sets their activities within the broader context of changing economic and social structures and beliefs, and offers rich insights into the lives of ordinary men and women. This third edition has been substantially revised and includes a new chapter on contemporary France - a society and political system in crisis as a result of globalisation, rising unemployment, a failing educational system, growing social and racial tensions, corruption, the rise of the extreme right, and a widespread loss of confidence in political leaders.

A Concise History of the World Cambridge University Press

A quick overview of the Sunshine State's fascinating past, with photos and illustrations included. In 1513, Spanish explorer Juan Ponce de León first set foot on Florida's east coast. The land he discovered was a geographic anomaly so distinctive that one day, centuries later, astronaut Neil Armstrong would say that Florida was the first shape on earth he recognized on his return from a visit to the moon. This unique state has witnessed such momentous events as the 1959 arrival of the first Cuban exiles under Fidel Castro and the 1981 launch of the Columbia—the first space shuttle. Join historian James C. Clark as he chronicles the surprising history of the Sunshine State in this concise and captivating book.
