A princess fights a faceless enemy in a forest filled with magic in this tale of "high-style fantasy and adventure" from the author of *Dealing with Dragons* (The New York Times). Trouble is brewing in Alkyra. While the kingdom's noblemen squabble, on their borders an ancient enemy, the Lithmern, raises an army. As the head of the Noble House of Brenn attempts to organize an alliance, the princess Alethia celebrates her twentieth birthday. She is a

remarkable woman: quick-witted, beautiful, and handy with a throwing knife. But on the next night, she passes through a dark corridor on her way to the banquet hall, and never emerges from the shadows. The Lithmern have kidnapped the princess. When Alethia regains consciousness, an evil Lithmern with a face made of shadows is carrying her through the forest. These are magic woods, home to fabled creatures whose existence she has always doubted. To find her way home, Alethia will have to learn to trust in the old tales, whose legends of magic and daring hold the only hope of saving her kingdom.

Literature for Our Times offers the widest range of essays on present and future directions in postcolonial studies ever gathered together in one volume. Demonstrating the capacity of different approaches and methodologies to 'live together' in a spirit of 'convivial democracy', these essays range widely across regions, genres, and themes to suggest the many different directions in which the field is moving. Beginning with an engagement with global concerns such as world literatures and cosmopolitanism, translation, diaspora and migrancy, established and emerging critics demonstrate the ways in which postcolonial analysis continues to offer valuable ways of analysing the pressing issues of a globalizing world. The field of Dalit studies is added to fundamental interests in gender, race, and indigeneity, while the neglected site of the post-colonial city, the rising visibility of terrorism, and the continuing importance of trauma and loss are all addressed through an analysis of particular texts. In all of these approaches, the versatility and adaptability of postcolonial theory is seen at its most energetic. The Harry Potter novels engage the social, cultural, and psychological preoccupations of our times, and *Critical Perspectives on Harry Potter, Second Edition* examines these worlds of consciousness and culture, ultimately revealing how modern anxieties and fixations are reflected in these powerful texts.
