When it comes to writing weapons, most authors shoot from the hip--and miss. The Writer's Guide to Weapons will help you hit your target every time. Firearms and knives have starring roles in a wide range of genres--crime, thriller, war, mystery, Western, and more. Unfortunately, many depictions of weapons in novels and film are pure fiction. Knowing the difference between a shotshell and a slug, a pistol and a revolver, or a switchblade and a butterfly knife is essential for imbuing your story with authenticity--and gaining popularity with discerning readers. Inside you'll find: • An in-depth look at the basics of firearms and knives: how they work, why they work, what they look like, and how to depict them accurately in your stories. • The biggest weapons myths in fiction, TV, and film. • A surefire guide for choosing the correct weapon for your characters, no matter their skill level, strength, or background. • A review of major gun and knife laws, weapons safety tips, and common police tactics. • "The Hit List," showcasing the most popular weapons for spies, detectives, gunslingers, gangsters, military characters, and more. • Examples highlighting inaccurate vs. accurate weapons depictions. • An insightful foreword by David Morrell, the award-winning creator of Rambo. Equal parts accessible, humorous, and practical, The Writer's Guide to Weapons is the one resource you need to incorporate firearms and knives into your fiction like a seasoned professional.

Quotes Every Man Should Know Ravenio Books

Outback Survival is a timeless, practical run down on everything you need to know to survive in the outback. Bob Cooper's incredible bushcraft skills have been developed through more than 25 years of experience in Australia's harsh outback. He has picked up tools of survival from the experiences of living with traditional Aboriginal communities, instructing with Special Forces Units, lecturing with the Texas Parks and Wildlife Service on desert survival in the Mexican Desert, delivering wilderness lessons in the UK and learning the skills of the bushmen of the Kalahari Desert in Botswana. Bob has put his own lessons to the test, dropping himself off in the 42C heat of the Australian desert with only a map and soap box sized survival kit, no food, water or sleeping gear, and a 10 day walk across 160km of rough terrain back to safety. He did this alone and showed that with the right knowledge of the land, you can survive in even the harshest of conditions. The outback of Australia is one of the most unforgiving regions of the world, but Bob is committed to protecting and enhancing the experience people have when venturing out into the bush.

An Emergency Survival Guide Skyhorse Publishing Inc.

In the tradition of the million-copy-bestseller *SAS Survival Guide*, former SAS paratrooper Bear Grylls—the world's most famous survival expert—teaches the necessary skills for eating in the wild. "There's no getting away from it; I've eaten some pretty extreme things in my time—live tarantulas, raw goat testicles, elephant dung, you name it. In a situation when your life depends on it, you need to put your prejudices aside to keep your stomach filled and your strength up. Whether it's mastering the art of foraging and cooking up a tasty feast around the campfire or learning about the more extreme end of wild food (ever tried a scorpion kebab?), there's a lot to learn when it comes to dinner time in the wild. *Extreme Food* will teach you all the necessary skills and techniques to get your teeth into meals you might never have thought of as food in the first place—and, crucially, how to recognize plants and animals that might end up doing you more harm than good. In today's world, we rarely need to venture beyond the local supermarket and we turn our noses up at the thought of snacking on bugs and grubs. But out in the wild, Mother Nature has provided us with a plentiful supply of nutritious—if not always delicious—food for the taking. And when needs must, we just have to know where to look. Some of it might take you out of your comfort zone. Some of it might turn your stomach. But it's saved my life more than once. And one day, it might save yours . . ."—BEAR GRYLLS
