Far From You Far From You is an emotional and compelling story

First, it was a car accident that left her disabled and with an addiction to drugs to cope with her chronic pain. Far From You by Tess Sharpe Far From You was a well written book and had me up into the late hours finishing it. I liked the character of Sophie, even though at times I felt like she was little

dramatic. I couldn't really relate to any of the characters because other than Sophie none of them had a real story. FAR FROM YOU is told in alternate timelines, one in the present where Sophie investigates Mina's murder, and one in the past where she struggles to hide her addiction and the depth of her feelings for Mina from everyone she knows.
