Falling in love isn't
supposed to be literal...
Except if you're a witch

who's cast a soulmate spell... Turns out love magic isn't the kind you dabble with. First there's Dixon with his sweet midwestern twang. Then there's action-hero-hot Mateo, who literally swooped in and saved my life... plus his three insanely handsome brothers. The universe definitely heard my call and it's raining men alright. It seems that controlling the magnetic attraction is where it gets tricky, especially if you mistakenly call upon a magical being, intent on killing you and stealing your power. Whoops. Fortunately I've got four hot shifter protectors because I'm gonna need 'em. Desired by Four is a fast-paced, steamy reverse harem paranormal shifter romance. 18+

Prime Movers of Globalization

Jazzybee Verlag

This book gathers more than 150 peer-reviewed papers presented at the 5th INTBAU International Annual Event, held in Milan, Italy, in July 2017. The book represents an invaluable and up-to-date international exchange of research, case studies and best practice to confront the challenges of designing places, building cultural landscapes and enabling the development of communities. The papers investigate methodologies of representation, communication and

valorization of historic urban landscapes and cultural heritage, monitoring conservation management, cultural issues in heritage assessment, placemaking and local identity enhancement, as well as reconstruction of settlements affected by disasters. With contributions from leading experts, including university researchers, professionals and policy makers, the book addresses all who seek to understand and address the challenges faced in the protection and enhancement of the heritage that has been created.

Diesel engine is acknowledged for its superior efficiency and possesses a wide field of applications. It is also known as CI engine. Diesel engines

also however, are the prime source of emissions such as NOX and particulate matter (PM). In order to reduce the emissions to an absolute minimum, this book explain as to how these toxins can be regulated. It is no hidden secret that the world is witnessing an oil crisis. But with other alternative sources such as biogas, natural gas and coke based substances; diesel is not the only way forward. The unique characteristics and properties such as combustion and emission of the aforementioned alternatives are explained extensively in this book. The book also goes on to explain how one can look for early signs of wear and tear and

malfunctioning
components of a diesel
engine and its parts.

The Allure of Power

Untamed Love LLC

Could I have been one
of them? was what
Sam McKinney
wondered as he
retraced, alone, from
Puget Sound to Queen
Charlotte Strait, the
explorations of Captain
George Vancouver and
his men. In the 1790s,
day after day, they had
rowed for long hours,
camping on rocky
beaches in all weathers
and charting the
intricate coastline for
the first time. Two
hundred years later,
McKinney followed
them in his 25-foot
sailboat, anchoring in
the same locations as
they had done,
experiencing the same
winds and waves, and
sharing what McKinney
calls the link of

vulnerability that is the ever-present condition of all people who go to sea. With his boat, his pipe and the occasional glass of rum, McKinney invites readers along on a perceptive voyage through time and along the magnificent Pacific Northwest coast from Puget Sound through the Georgia and Queen Charlotte Straits. Describing both the historical and contemporary voyages around the Inland Sea, McKinney offers insightful comparisons of what sailors saw and experienced in the 18th century and what they see today. At the end of his trip McKinney, like Vancouver, claims the area he had explored, not by deed of ownership but out of love for the place, its

staggering beauty...(and) the memories of the people and cultures who have found homes along its shores. Could he have, indeed, been one of Vancouver's men? He isn't sure, but he would like to have given it a try.

"I love this sad, beautiful, hopeful book." --Kathleen Glasgow, New York Times bestselling author of *Girl in Pieces* and *How to Make Friends With the Dark*

For fans of Nina LaCour and Jennifer Niven, a richly layered novel that's both uplifting and heartbreaking, about piecing yourself together after loss and the dark truths we choose to keep from each other and ourselves. San Francisco. New Year's Eve. A tragic accident after the party of the year. Cara survives. Her best friend, G, doesn't. Nine months later, Cara is still struggling, consumed by grief and a dark secret she'd rather forget. In the hopes of offering a fresh start, her mother sends her to boarding school in Switzerland, a place where no one knows what happened--and where they never will, if Cara can help it. But her new classmates Ren and Hector won't

let her close herself off. They are determined to break down the walls she has so carefully built up. And maybe Cara wants them to . . . especially Hector, who seems to understand her like no one else does. The problem is that the closer Cara gets to Hector, the more G slips away. If moving on means letting go of the past--and admitting what she did that night--Cara's not sure how. But a second chance awaits, if she can only find the strength within herself. "A poignant exploration of grief, guilt, and forgiveness." --Sophie Kinsella, New York Times bestselling author of *Finding Audrey* and the *Shopaholic* series "Transportive and redemptive, this is a gentle story about the

universality of grief, the beauty of self-forgiveness, and how new friendship can help heal old wounds."-

An introduction to a powerful and flexible network modeling tool for developing and understanding complex

systems, with many examples from a range of industries. Design structure matrix (DSM) is a straightforward and flexible modeling technique that can be used for designing, developing, and managing complex systems. DSM offers network modeling tools that represent the elements of a system and their interactions, thereby highlighting the system's architecture (or designed structure). Its advantages include compact format, visual nature, intuitive representation, powerful analytical capacity, and flexibility. Used primarily so far in the area of engineering management, DSM is increasingly being applied to complex issues in health care

management, financial systems, public policy, natural sciences, and social systems. This book offers a clear and concise explanation of DSM methods for practitioners and researchers.

A werewolf, an owl shifter, and a scientist walk into a bar... Sam I was born in a lab, fostered out to humans, then tortured in a cage. Fate allowed me to escape, and I know why. To balance the scales of justice. Right the misdeeds of the harvesters. Nothing matters but taking down the man who made me what I am: A monster driven by revenge, whatever the cost. Then I meet Layne. She thinks I'm a hero. But she doesn't understand—If I don't

follow this darkness to its end, it will consume me. Layne I've spent my life in the lab, researching the cure for the disease that killed my mom. No late nights out, no dates, definitely no boyfriend. Then Sam breaks into my lab, steals my research, and kidnaps me. He's damaged. Crazy. And definitely not human. He and his friends are on a mission to stop the company that's been torturing shifters, and now I'm a part of it. Sam promises to protect me. And when he touches me, I feel reborn. But he's hellbent on revenge. He won't give it up. Not even for me.

The coastal and
archipelago areas in

the Baltic Sea are popular destinations for a number of tourists. An important group of tourists is boaters, who visit the coastal areas during a short summer period. Boat owners are sometimes pictured as having a great interest for the nature and a willingness to do right. Pollution from pleasure boats such as discharges of oil and fuel, antifouling paints and cleaning agents have a negative impact on the coastal environment. Environmentally sound alternatives exist to some extent, but are not very common. Sustainable alternatives for boaters are lacking behind. One of the underlying purposes of this study was to understand how we can help boat

owners change their behaviour and decrease the negative impact on the marine environment. The survey among boaters has been conducted in Finland, Sweden and Denmark with a web based survey ordered by the Keep Sweden Tidy Foundation together with Keep the Archipelago Tidy Association in Finland and the Danish Outdoor Council. The research was performed by SIFO Research International. *Chess Springer* In the 1960s and 1970s, John Deere's tractors evolved dramatically from small machines into large, powerful tractors with modern advances and muscular engines; it was a period of the greatest changes since the 1920s. Deere

christened these tractors the New Generation. This book in the Tractor Legacy series examines these Big Green machines in detail, with archival and current photography of restored tractors, a thorough historical text, and details of model specifications and variations.

A light romantic comedy sure to leave you smiling... Elena Murphy is doing just fine—if you don't count her struggling art studio, her ex-boyfriend suing her, and accidentally tossing purple paint onto a man who just happened to be in the wrong place at the very worst time. And not just any man, but

freaking royalty. The World's Most Eligible Bachelor, to be exact, with the paparazzi catching the whole embarrassing incident on camera. Could her life be any more of a dumpster fire? Yes it could. Now she's getting dragged online and her clients are disappearing faster than free drinks at happy hour. And just when she thinks things can't possibly get worse...His Royal Hotness decides the best way to fix this mess is to make her the envy of New York—by pretending to date. Because what's worse than a prince treating her like his very own Cinderella, including dreamy nights at the theater and a nearly X-rated pottery date? Reminding herself it's

all fake. Each book in the Royally Engaged series is STANDALONE:
