Exponential Organizations Berkley

The authorized companion to the #1 New York Times bestseller *Grain Brain*, with more than 150 life-changing gluten-free recipes for complete health and vitality. Dr. David Perlmutter's groundbreaking bestseller *Grain Brain* revolutionized the way we think about our health, exposing the devastating effects of wheat, sugar, and carbs on the brain. By eating the right foods, you can profoundly affect how your brain will be working next year, in five years, and for the rest of your life. The *Grain Brain Cookbook* presents more than 150 delectable recipes to keep your brain vibrant and your body fit, all while dramatically reducing your risk for — and treating — Alzheimer's, depression, ADHD, and epilepsy, as well as relieving everyday conditions like headaches, insomnia, and forgetfulness. With delicious recipes for every meal — including Spicy Chicken Burgers with Guacamole, Gruyere-Glazed Pork Chops and Cauliflower "Couscous," and many more — The *Grain Brain Cookbook* gives you all the tools you need to build a gluten-free diet full of wholesome, flavorful, easy-to-make meals. What you eat is the most important decision you make every day in terms of your health, and once you've tasted how good the *Grain Brain* diet can be, you'll want to keep making the right choices day after day.

A Frequency Dictionary of Spanish has been fully revised and updated, including over 500 new entries, making it an invaluable resource for students of Spanish. Based on a new web-based corpus containing more than 2 billion words collected from 21 Spanish-speaking countries, the second edition of *A Frequency Dictionary of Spanish* provides the most expansive and up-to-date guidelines on Spanish vocabulary. Each entry is accompanied with an illustrative example and full English translation. The Dictionary provides a rich resource for language teaching and curriculum design, while a separate CD version provides the full text in a tab-delimited format ideally suited for use by corpus and computational linguistics. With entries arranged both by frequency and alphabetically, *A Frequency Dictionary of Spanish* enables students of all levels to get the most out of their study of vocabulary in an engaging and efficient way.

The Grain Brain Cookbook University of Chicago Press

Critique of Violence is a highly original and lucid investigation of the heated controversy between poststructuralism and critical theory. Leading theorist Beatrice Hanssen uses Walter Benjamin's essay 'Critique of Violence' as a guide to analyse the contentious debate, shifting the emphasis from struggle to dialogue between the two parties. Regarding the questions of critique and violence as the major meeting points between both traditions, Hanssen positions herself between the two in an effort to investigate what critical theory and poststructuralism have to offer each other. In the course of doing so, she assembles imaginative new readings of Benjamin, Arendt, Fanon and

Foucault, and incisively explores the politics of recognition, the violence of language, and the future of feminist theory. This groundbreaking book will be essential reading for all students of continental philosophy, political theory, social studies and comparative literature. What is your emotional fingerprint? Why are some people so quick to recover from setbacks? Why are some so attuned to others that they seem psychic? Why are some people always up and others always down? In his thirty-year quest to answer these questions, pioneering neuroscientist Richard J. Davidson discovered that each of us has an Emotional Style, composed of Resilience, Outlook, Social Intuition, Self-Awareness, Sensitivity to Context, and Attention. Where we fall on these six continuums determines our own "emotional fingerprint." Sharing Dr. Davidson's fascinating case histories and experiments, *The Emotional Life of Your Brain* offers a new model for treating conditions like autism and depression as it empowers us all to better understand ourselves—and live more meaningful lives.

Dentists Routledge

A practical handbook for using Exponential Organization to transform your organization—and disrupt your industry—in 10 weeks Today's top business challenge is adapting to accelerating technological and global change. In his bestselling book *Exponential Organizations*, author Salim Ismail described a new type of organization that thrives amidst industry disruption. Since then, he has helped organizations disrupt their own industries—by applying Exponential Organization (ExO) principles. From this work emerged the 10-week transformation process explained in this book, called the ExO Sprint. *Exponential Transformation* is the detailed implementation handbook for becoming an Exponential Organization. The book enables organizations to speed up their transformation and overcome the obstacles to success. Lead a 10-week ExO Sprint Evolve in order to navigate industry disruption Become an Exponential Organization Block the immune-system response of organizations during transformation Companies such as Visa, Procter & Gamble, HP, and Black & Decker have already benefited from ExO process. *Exponential Transformation* is a must-have resource for participants of any ExO Sprint, as well as those seeking to apply Exponential principles in their organizations.

The Otters' Tale Random House

Frost & Sullivan's 2014 Growth, Innovation, and Leadership Book of the Year "EXPONENTIAL ORGANIZATIONS should be required reading for anyone interested in the ways exponential technologies are reinventing best practices in business." —Ray Kurzweil, Director of Engineering at Google In business, performance is key. In performance, how you organize can be the key to growth.

In the past five years, the business world has seen the birth of a new breed of company—the Exponential Organization—that has revolutionized how a company can accelerate its growth by using technology. An ExO can eliminate the incremental, linear way traditional companies get bigger, leveraging assets like community, big data, algorithms, and new technology into achieving performance benchmarks ten times better than its peers. Three luminaries of the business world—Salim Ismail, Yuri van Geest, and Mike Malone—have researched this phenomenon and documented ten characteristics of Exponential Organizations. Here, in *EXPONENTIAL ORGANIZATIONS*, they walk the reader through how any company, from a startup to a multi-national, can become an ExO, streamline its performance, and grow to the next level. "EXPONENTIAL ORGANIZATIONS is the most pivotal book in its class. Salim examines the future of organizations and offers readers his insights on the concept of Exponential Organizations, because he himself embodies the strategy, structure, culture, processes, and systems of this new breed of company." —John Hagel, *The Center for the Edge* Chosen by Benjamin Netanyahu, Prime Minister of Israel, to be one of Bloomberg's Best Books of 2015

Marvel 1602 Profile Books

From the undisputed master of modern American horror: His first collection of short stories showcases the darkest depths of his brilliant imagination and will "chill the cockles of many a heart" (Chicago Tribune). • INCLUDES THE STORY "THE BOOGEYMAN" – NOW A MAJOR MOTION PICTURE FROM 20th CENTURY STUDIOS Originally published in 1978, *Night Shift* is the inspiration for over a dozen acclaimed horror movies and television series, including *Children of the Corn*, *Chapelwaite*, and *Lawnmower Man*. Here we see mutated rats gone bad ("Graveyard Shift"); a cataclysmic virus that threatens humanity ("Night Surf," the basis for *The Stand*); a possessed, evil lawnmower ("The Lawnmower Man"); unsettling children from the heartland ("Children of the Corn"); a smoker who will try anything to stop ("Quitters, Inc."); a reclusive alcoholic who begins a gruesome transformation ("Gray Matter"); a man convinced that a crack in the closet is responsible for the murder of his children ("The Boogeyman"); and many more shadows and visions that will haunt you long after the last page is turned.

Lolita Raintree

From the author of the #1 New York Times bestseller, *World War Z*, *The Zombie Survival Guide* is your key to survival against the hordes of undead who may be stalking you right now. Fully illustrated and exhaustively comprehensive, this book covers everything you need to know, including how to understand zombie physiology and behavior, the most effective defense tactics and weaponry, ways to outfit your home for a long siege, and how to survive and adapt in any territory or terrain. Top 10 Lessons for Surviving a Zombie Attack

1. Organize before they rise!
2. They feel no fear, why should you?
3. Use your head: cut off theirs.
4. Blades don't need reloading.
5. Ideal protection = tight clothes, short hair.
6. Get up the staircase, then destroy it.
7. Get out of the car, get onto the bike.
8. Keep moving, keep low, keep quiet, keep alert!
9. No place is safe, only safer.
10. The zombie may be gone, but the threat lives on. Don't be carefree and foolish with your most precious asset—life. This book is your key to survival against the hordes of undead who may be stalking you right now without your even knowing it. *The Zombie Survival Guide* offers complete protection through trusted, proven tips for safeguarding yourself and your loved ones against the

living dead. It is a book that can save your life.

Night Shift Read Books Ltd

The devastating truth about the effects of wheat, sugar, and carbs on the brain, with a 4-week plan to achieve optimum health. In *Grain Brain*, renowned neurologist David Perlmutter, MD, exposes a finding that's been buried in the medical literature for far too long: carbs are destroying your brain. Even so-called healthy carbs like whole grains can cause dementia, ADHD, epilepsy, anxiety, chronic headaches, depression, decreased libido, and much more. Groundbreaking and timely, *Grain Brain* shows that the fate of your brain is not in your genes. It's in the food you eat. The cornerstone of all degenerative conditions, including brain disorders, is inflammation, which can be triggered by carbs, especially containing gluten or high in sugar. Dr. Perlmutter explains what happens when the brain encounters common ingredients in your daily bread and fruit bowls, how statin drugs may be erasing your memory, why a diet high in "good fats" is ideal, and how to spur the growth of new brain cells at any age. Dr. Perlmutter's revolutionary 4-week plan shows you how to keep your brain healthy, vibrant, and sharp while dramatically reducing your risk for debilitating neurological diseases as well as relieving more common, everyday conditions -- without drugs. Easy-to-follow strategies, delicious recipes, and weekly goals help you to put the plan into action. With a blend of anecdotes, cutting-edge research, and accessible, practical advice, *Grain Brain* teaches you how to take control of your "smart genes," regain wellness, and enjoy lifelong health and vitality.

The Zombie Survival Guide ChristieBooks.com

"Movement 2. The rumble of distant events in Germany and Spain presages the storm of WWII. In England, even as the whirl of marriages and adulteries, fashions and frivolities, personal triumphs and failures gathers speed, men and women find themselves on the brink of fateful choices.

Cultural Anthropology Vintage

T-shirts are popular, affordable, and—in recent years—works of art! These comfortable, casual items of clothing have become creative canvases for innovative design. *Street T* showcases the most significant contributions to this pop-culture/design phenomenon of this wardrobe staple—from do-it-yourself silk screens to high fashion variations. Each of the 45 graphic artists and designers included all have a particular vision of the T-shirt and reveal their views of the world through their T-shirt designs. Several have even made an original and exclusive T-shirt design just for *Street T* and all were interviewed just for the book. Filled cover to cover with lush, full-color photography, *Street T* is a vibrant and colorful look-book that will thrill artists, designers, fashionistas, and T-shirt-wearers alike.

The CNT in the Spanish Revolution Allyn & Bacon

The most detailed history to date of the million-strong revolutionary trade union, the CNT, and of its grassroots supporters who, in July 1936, embarked upon the most far-reaching of all 20th century revolutionary experiments. It is the history of the giddy years of political change and hope in 1930s Spain, when the so-called 'Generation of 36,' Peirats's own generation, rose up against the oppressive structures of Spanish society. It is also a history of a revolution that failed, crushed in the jaws of its enemies on both the democratic-left and the reactionary right. Containing a bounty of original documents produced by the trade unions, revolutionary assemblies and rural and industrial collectives of the 1930s, many of which are unavailable elsewhere, and all translated into English for

the first time, Peirats explores the new social, economic and cultural arrangements that were introduced in the streets, fields and factories of republican Spain. A staggering work - fully indexed and footnoted, with 20 pages of photographs. Superlatives like mandatory and monumental really fail to do this justice. A vital book about a crucial era in history.

A Dance to the Music of Time Routledge

Tells the tale of the two biggest metal bands in history, a story which has yet to be told from the inside. A pioneer of the thrash metal movement, Megadeth rose to international fame in the 1980s. Metallica has sold more than 90 million records worldwide, making it the most commercially successful thrash metal band.

The Word for World is Forest University of Illinois Press

This classic novel of a perfectly engineered society is "one of the most prophetic dystopian works of the twentieth century" (The Wall Street Journal). Half a millennium from now, in the World State, the watchword is that every one belongs to every one else. No matter what class of human you are bred to be—from the intellectual Alphas to the Epsilons who provide the manual labor—you are a part of the efficient, well-oiled whole. You are nourished, secure, and blissfully serene thanks to the freely distributed drug called soma. And while sex is strongly encouraged, the old way of procreation is forbidden, eliminating even the pains of childbirth. But when a man and woman journey beyond these confines to where the "savages" reside, and bring back two outsiders, the cracks begin to show. Named as one of the 100 best English-language novels of the twentieth century by the Modern Library, *Brave New World* is one of the first truly dystopian novels. Influenced by the historic events of Huxley's era yet as relevant today as ever, it is a remarkable depiction of the conflict between progress and the human spirit. "Chilling. . . . That he gave us the dark side of genetic engineering in 1932 is amazing." —Providence Journal-Bulletin "It is a frightening experience, indeed, to discover how much of his satirical prediction of a distant future became reality in so short a time." —The New York Times Book Review

The Mysterious Island Del Rey

From world-renowned scientist Jane Goodall, as seen in the new National Geographic documentary *Jane*, comes a fascinating examination of the critical role that trees and plants play in our world. From world-renowned scientist Jane Goodall, as seen in the new National Geographic documentary *Jane*, comes a fascinating examination of the critical role that trees and plants play in our world. *Seeds of Hope* takes us from Goodall's home in England to her home-away-from-home in Africa, deep inside the Gombe forest, where she and the chimpanzees are enchanted by the fig and plum trees they encounter. She introduces us to botanists around the world, as well as places where hope for plants can be found, such as The Millennium Seed Bank. She shows us the secret world of plants with all their mysteries and potential for healing our bodies as well as Planet Earth. Looking at the world as an adventurer, scientist, and devotee of sustainable foods and gardening--and setting forth simple goals we can all take to protect the plants around us--Goodall delivers an enlightening story

of the wonders we can find in our own backyards.

Los siervos Sagwan Press

A New York Times bestseller 'A sensation ... a rollicking tale well told' - The Times At the heart of *Born to Run* lies a mysterious tribe of Mexican Indians, the Tarahumara, who live quietly in canyons and are reputed to be the best distance runners in the world; in 1993, one of them, aged 57, came first in a prestigious 100-mile race wearing a toga and sandals. A small group of the world's top ultra-runners (and the awe-inspiring author) make the treacherous journey into the canyons to try to learn the tribe's secrets and then take them on over a course 50 miles long. With incredible energy and smart observation, McDougall tells this story while asking what the secrets are to being an incredible runner. Travelling to labs at Harvard, Nike, and elsewhere, he comes across an incredible cast of characters, including the woman who recently broke the world record for 100 miles and for her encore ran a 2:50 marathon in a bikini, pausing to down a beer at the 20 mile mark.

Seeds of Hope Houghton Mifflin Harcourt

Shortlisted for THE WAINWRIGHT PRIZE 2017 'The best popular account of the lives of otters written so far' Richard Shelton, Times Literary Supplement

Globe Myths and Folktales Around the World Se 92 Penguin

Presents thirteen years of field research on the endangered mountain gorilla of the African rain forest.

Encyclopedia of Latin American Literature Hachette Books

Within this book, Hargrave Jennings looks at the role "Phallicism" has played in various religions, including Rosicrucianism, Gnosticism, and Buddhism. A fascinating exploration of the significance of sexuality in religious doctrine, "Phallicism" is not to be missed by those with an interest in the topic, and it would make for a fantastic addition to collections of allied literature. Contents include: "Definitions and Distinctions leading up to the verities of Phallicism", "The History of the Phallic 'Symbol-Structures'; their Origin, Genealogy, and Variety through the succession of the historical-religions ages", "The Story of the Classes of the Phalli", "Celestial or Theosophical Doctrine of the Unsexual Transcendental Phallicism", etc. Many vintage books such as this are becoming increasingly scarce and expensive. We are republishing this volume now in an affordable, modern, high-quality, edition complete with the original text and artwork.

Gorillas in the Mist Routledge

The most famous and controversial novel from one of the greatest writers of the twentieth century tells the story of Humbert Humbert's obsessive, devouring, and doomed passion for the nymphet Dolores Haze. "The conjunction of a sense of humor with a sense of horror [results in] satire of a very special kind." —The New Yorker Awe and exhilaration—along with heartbreak and mordant wit—abound in *Lolita*, which tells the story of the aging Humbert Humbert's obsession for the nymphet Dolores Haze. *Lolita* is also the story of a hypercivilized European colliding with the cheerful barbarism of postwar America. Most of all, it is a meditation on love—love as outrage and hallucination, madness and transformation.
