Genealogical data for Prewitt (Pruitt)  
families collected from county archives  
in Virginia, arranged by counties (in  
alphabetical order), with data in  
chronological order.

"Only lines which seem to be fairly well  
supported by Death Certificates,  
1820-1880, 1900, 1920 U.S. censuses, or  
prior research of the author, are shown  
here. Some are very short -- no further  
connections were found. A few are long,  
being supported by much research."--

The book rings with the names of early  
inhabitants and prominent citizens. For  
the genealogist there is the important  
and wholly fortuitous list of tithables of  
Pittsylvania County for the year 1767,  
which enumerates the names of nearly  
1,000 landowners and property holders,  
amounting in sum to a rough census of  
the county in its infancy. Additional lists  
include the names, some with inclusive  
dates of service, of sheriffs, justices of  
the peace, members of the House of  
Delegates, 1776-1928, members of the  
Senate of Virginia, 1776-1928, clerks of

the court, and judges.

History of Edgecombe County, North  
Carolina

New Index, ISBN #0-89308-497-2.

According to most scholars and  
historians, this is probably the best and  
most complete history of Halifax County  
to be found. Halifax County was formed  
in 1752 from Lunenburg County. The  
territory at that time included present  
Pittsylvania, Henry, and Patrick Counties.  
It is surrounded by Mecklenburg,  
Charlotte, Campbell, Pittsylvania  
Counties and the state of North Carolina.  
This whole area of Southside Virginia is  
one of the most important areas of the  
state during this pre-1800 time period  
because of the major migrations across  
this portion of Virginia into North  
Carolina and South Carolina, as well as  
into other states to the west. This book  
begins with the formation and origins of  
the county, followed by miscellaneous  
extracts from Court records such as  
Deeds. Next comes a history of the town  
of South Boston after which a chapter is  
devoted to the "Road to the Wilderness"  
begun by DANIEL BOONE from Watauga  
through the wilderness of Kentucky via  
the Cumberland Gap. This is followed by

other general history common to books of this type with a study of the rich, aristocratic, slave-owning whites. The major portion of this book is devoted to detailed genealogies of many of the early families of the county such as: Adams, Atkisson, Boynham, Barksdale, Belt, Booker, Boyd, Bruce, Calloway, Carlton, Carrington, Chastain, Chalmers, Chappell, Christian, Clark, Coleman, Craddock, Crews, Drinkards, Easley, Edmundson, Edmunds, Faulkner, Flournoy, Fourqurean, Green, Hart, Henry, Hodges, Hudson, Hurt, Irby, Jeffress, Jordan, Jacy, Lawson, Leigh, Logan, Lovelace, Medley, Morton, Owen, Palmers, Penick, Ragland, Scott, Stebbens, Stokes, Wade, Watkins, Willingham, Wimbish, and Yuille, all of which are filled with extremely detailed genealogies and dates. Chapter 10 deals with a section of abstracts of Wills of many of the early families, many of whom are not listed in the prior chapter of genealogies. Another chapter is devoted to Churches (Episcopal), and this is followed by Chapter 12 which contains: the marriages from 1753-1800 and 1800-1850 arranged alphabetically by groom.

This book covers the history of multiple

families whose only overarching connection is that they were all the ancestors of Robert Hilton Squires II, my brother-in-law. But these various genealogical strands intersected with many pivotal eras in English colonial and later American history. Thus in some strange way the history of this one contemporary person is a microcosm of the story of America.
