 Too often we live lives that we find unfulfilling, fail to reach our own potential, and neglect to practice creativity in our daily routines. Gay Hendricks's The Genius Zone offers a way to change that by tapping into your own innate creativity. Dr. Gay Hendricks broke new ground with his bestselling classic, The Big Leap, which has become an essential resource for coaches, entrepreneurs, executives, and

health practitioners around the world. Originally published as The Joy of Genius, The Genius Zone has been updated and expanded throughout, making it the essential next step beyond The Big Leap. In The Genius Zone, Hendricks introduces his brilliant exercise, the Genius Move, a simple, life-altering practice that allows readers to end negative thinking and thrive authentically. By using the Genius Move, readers will learn to spend more of their lives in their zone of genius—where creativity flows freely and they are actively pursuing the things that offer them fulfillment and satisfaction. Filled with hands-on exercises and personal stories from the author, The Genius Zone is an essential guide to creative fulfillment. If you are committed to bringing forth your innate genius and making your largest possible creative contribution, The Genius Zone will become a trusted companion for

the journey.

Open Mind Breakthrough Plus

The Strange Case of Dr. Jekyll and Mr. Hyde is about a London lawyer named Gabriel John Utterson who investigates strange occurrences between his old friend, Dr. Henry Jekyll, and the evil Edward Hyde. There are two personalities within Dr. Jekyll, one apparently good and the other evil; completely opposite levels of morality. The novel's impact is such that it has become a part of the language, with the very phrase "Jekyll and Hyde" coming to mean a person who is vastly different in moral character from one situation to the next. 'The Strange Case of Dr. Jekyll and Mr. Hyde' is a thrilling Gothic horror novel. John Utterson, a prosecutor, is on his weekly walk with his relative, who proceeds to tell him of an encounter with a man he had seen some months ago while coming home late at night from Cavendish Place. The tale describes a sinister figure named Edward Hyde who tramples a young girl, disappears into a door on the street, and re-emerges to pay off her relatives with 10 pounds in gold and a cheque signed by respectable gentleman Dr. Henry Jekyll (a client and friend of Utterson's) for 90 pounds. Jekyll had recently and suddenly changed his will to make Hyde the sole beneficiary. This development concerns and disturbs Utterson, who makes an effort to seek out Hyde. Utterson fears that Hyde is blackmailing Jekyll for his money. Upon finally managing to encounter Hyde, Hyde's ugliness, as if deformed, amazes Utterson. Although Utterson cannot say exactly how or why, Hyde provokes an instinctive feeling of revulsion in him. Much to Utterson's surprise, Hyde willingly offers Utterson his address. After one of Jekyll's dinner parties, Utterson stays behind to discuss the matter of Hyde with Jekyll. Utterson notices Jekyll turning pale, yet he assures Utterson that everything involving Hyde is in order and that he is to be left alone.

Level 2

The first practical guide of its kind that helps students transition smoothly from high school to college. The transition from high school—and home—to college can be stressful. Students and parents often arrive on campus unprepared for what college is really like. Academic standards and expectations are different from high school; families aren't present to serve as "scaffolding" for students; and first-years have to do what they call "adulting." Nothing in the college admissions process prepares students for these new realities. As a result, first-year college students report higher stress, more mental health issues, and lower completion rates than in

the past. In fact, up to one third of first-year college students will not return for their second year—and colleges are reporting an increase in underprepared first-year students. *How to College* is here to help. Professors Andrea Malkin Brenner and Lara Schwartz guide first-year students and their families through the transition process, during the summer after high school graduation and throughout the school year, preparing students to succeed and thrive as they transition and adapt to college. The book draws on the authors' experience teaching, writing curricula, and designing programs for thousands of first-year college students over decades.

The Strange Case of Dr. Jekyll and Mr. Hyde

An open heart is the dwelling place of compassion that extends toward all beings; a clear mind is the source of the penetrating wisdom of deep insight. Their union leads to the enlightened way of life that is at the heart of the spiritual path as taught by the Buddha. This introduction to his teaching is thorough yet wonderfully accessible, even to those with no previous knowledge of Buddhism. Thubten Chodron writes in an easy-to-understand manner as

she skillfully relates the Buddha's wisdom to the realities of our modern lives.
