In his monumental *Philosophy of the Kalam* the late Harry Wolfson--truly the most accomplished historian of philosophy in our century--examined the early medieval system of Islamic philosophy. He studies its repercussions in Jewish thought in this companion book--an indispensable work for all students of Jewish and Islamic traditions. Wolfson believed that ideas are contagious, but that for beliefs to catch on from one tradition to another the recipients must be predisposed, susceptible. Thus he is concerned here not so much with the influence of Islamic ideas as with Jewish elaboration, adaptation, qualification, and criticism of them. To this end he examines passages reflecting Kalam views by a wide variety of Jewish thinkers, including Isaac Israeli, Judah Halevi, Abraham ibn Ezra, and Maimonides. As always in Wolfson's work, two aspects are apparent: the special dimensions of Jewish thought as well as its relation to other traditions. And as always his prose is both graceful and precise.

The *Muqaddimah*, often translated as "Introduction" or "Prolegomenon," is the most important Islamic history of the premodern world. Written by the fourteenth-century Arab scholar Ibn Khaldūn, this work laid down the

foundations of several fields of knowledge, including philosophy of history, sociology, ethnography, and economics. This first complete English translation was published in three volumes in 1958 as part of the Bollingen Series.

The *Reconstruction of Religious Thought in Islam* (1930) is Muhammad Iqbal's major philosophic work: a series of profound reflections on the perennial conflict among science, religion, and philosophy, culminating in new visions of the unity of human knowledge, of the human spirit, and of God. Iqbal's thought contributed significantly to the establishment of Pakistan, to the religious and political ideals of the Iranian Revolution, and to the survival of Muslim identity in parts of the former USSR. It now serves as new bridge between East and West and between Islam and the other Religions of the Book. With a new Introduction by Javed Majeed, this edition of *The Reconstruction* opens the teachings of Iqbal to the modern, Western reader. It will be essential reading for all those interested in Islamic intellectual history, the renewal of Islam in the modern world, and political theory of Islam's relationship to the West.

There is widespread agreement that schools should contribute to the moral development and character formation of their students. In fact, 80% of US states currently have mandates regarding character education. However, the pervasiveness of the support for moral and character education masks a high degree of controversy surrounding its

meaning and methods. The purpose of this handbook is to supplant the prevalent ideological rhetoric of the field with a comprehensive, research-oriented volume that both describes the extensive changes that have occurred over the last fifteen years and points forward to the future. Now in its second edition, this book includes the latest applications of developmental and cognitive psychology to moral and character education from preschool to college settings, and much more.

The Reconciliation of the Fundamentals of Islamic Law or *Al-Muwafaqat fi Usul al-Shari'a*, written by Ibrahim ibn Musa Abu Ishaq al-Shatibi, is an innovation in Islamic jurisprudence, for it was for the first time that the objectives of shari'a were addressed, as they are in this book. The book is an authority in understanding the objectives of the shari'a. The difficulty that some may find in comprehending some of its parts may be attributed to the fact that it was the first time that the codification of the maqasid or objectives of the shari'a was undertaken. It was first published in 1884 in Tunis, and since then it has been a source of inspiration, moderation and renewal in fiqh. The book, however, deals with much more than the maqasid, and substantial research is needed to unravel its full contribution. The book is divided into five parts: the fundamental concepts of the discipline; the ahkam (rules) and what is related to them; the legal purposes of the shari'a and the

ahkam related to them; the comprehensive treatment of the adilla (evidences); and the rules of ijihad and taqlid." Volume I dealt with the first two parts, and this volume covers the third part, dealing with the purposes of shari'a.

Although Abu Hamid Muhammad al-Ghazali lived a relatively short life (1058-1111), he established himself as one of the most important thinkers in the history of Islam. The *Incoherence of the Philosophers*, written after more than a decade of travel and ascetic contemplation, contends that while such Muslim philosophers as Avicenna boasted of unassailable arguments on matters of theology and metaphysics, they could not deliver on their claims; moreover, many of their assertions represented disguised heresy and unbelief. Despite its attempted refutation by the twelfth-century philosopher Ibn Rushd, al-Ghazali's work remains widely read and influential.

Major Themes of the Qur'an The Other Press

Despite President George W. Bush's assurances that Islam is a peaceful religion and that all good Muslims hunger for democracy, confusion persists and far too many Westerners remain convinced that Muslims and terrorists are synonymous. In the aftermath of the attacks of 9/11, the subsequent wars in Afghanistan and Iraq, and the recent bombings in London, an unprecedented amount of attention has been directed toward Islam and the Muslim world. Yet, even with this increased scrutiny, most of the public discourse regarding Islam revolves around the actions of extremist factions such as the Wahhabis and al-Qa'ida. But

what of the Islam we don't hear about? As the second-largest and fastest-growing religion in the world, Islam is deemed by more than a billion Muslims to be a source of serenity and spiritual peace, and a touchstone for moral and ethical guidance. While extremists have an impact upon the religion that is wildly disproportionate to their numbers, moderates constitute the majority of Muslims worldwide. It is this rift between the quiet voice of the moderates and the deafening statements of the extremists that threatens the future of the faith. In *The Great Theft*, Khaled Abou El Fadl, one of the world's preeminent Islamic scholars, argues that Islam is currently passing through a transformative period no less dramatic than the movements that swept through Europe during the Reformation. At this critical juncture there are two completely opposed worldviews within Islam competing to define this great world religion. The stakes have never been higher, and the future of the Muslim world hangs in the balance. Drawing on the rich tradition of Islamic history and law, *The Great Theft* is an impassioned defense of Islam against the encroaching power of the extremists. As an accomplished Islamic jurist, Abou El Fadl roots his arguments in long-standing historical legal debates and delineates point by point the beliefs and practices of moderate Muslims, distinguishing these tenets from the corrupting influences of the extremists. From the role of women in Islam to the nature of jihad, from democracy and human rights to terrorism and warfare, Abou El Fadl builds a vital vision for a moderate Islam. At long last, the great majority of Muslims who oppose extremism have a desperately needed voice to help reclaim Islam's great moral tradition.

John Hunt Publishing  
Al-Mustasfa min 'ilm al-usul. (On Legal theory of Muslim Jurisprudence) is Imam Ghazali's work on the subject of Usul Al Fiqh. It is considered as one of the four great works in the subject. The other three being, 1. The mu` tazalite `Abd al-Jabar (d. 415) al-Qadi's al-`umad; 2. abu al-Husain (d. 473) al-Basri's al-mu` tamad (commentary on al-`umad); 3. al-Imam al-Harmian abu al-Ma` ali (d. 478) Juywani's al-Burhan Ghazali's approach to usul al-fiqh, as articulated in this last and greatest work of Law, al-Mustafa, is based on the premise that, in essence, this science is knowledge of how to extract ahkam (rules) from the Shari'ah sources. (As for the science of fiqh, it concerns itself particularly with the Shari'ah rules themselves which have been established in order to qualify the acts of the locus of obligation, man.) Accordingly, Ghazali views it as

imperative that any discourse on usul focus on three essential elements: the ahkam; the adilla (sources); and the means by which rules are extracted from these sources, which ultimately includes examination of the qualifications of the extractor, namely, the mujtahid.

This title, first published in 1983, is a significant study of one of the many revivalist movements which flowered in numerous Islamic societies in the late eighteenth and early nineteenth centuries, and attempts to provide one particular assessment of the place of revivalism in the evolution of Islamic societies. The subject of this title is the Padri movement, and the community involved is that of the Minangkabau of Central Sumatra, one of the major communities inhabiting the Indonesian archipelago. In the process of considering the reconstruction of a society in the throes of an agricultural transformation, the historical development of the Indonesian village became the object of attention, encompassing the economic and social histories of individual villages. This title will be of interest to students of history and Islamic Studies.

First published in 1922, the novel "Sitti Nurbaya: A Love Unrealized," by Marah Rusli, retains the poignancy that made it a modern Indonesian classic. In terms of its social impact in what was then the Dutch East Indies, "Sitti Nurbaya" may be compared to "Uncle Tom's Cabin" in the ante-bellum United States. Even to this day, the issues of injustice and indignities suffered by women that this novel raised continue to be debated throughout the country. Rich in description, dense with ironic foreboding and the inexorable workings of fate, Sitti Nurbaya is Samsu and "Sitti Nurbaya"'s ill-fated love story. But in their wishes, the reader might also discern young people's tantalizing dream of what the

East Indies society might become, or could become, if only local genius, embodied in a modernizing youth emancipated from stifling traditions, could fuse with European genius in mutual respect and admiration. This too was, of course, a dream never to be realized, and one perhaps which never could have been realized.
