An Elemental Assassin Book Penguin

The compelling story of the life and death of a Salvadoran gangster As a boy, Miguel Ángel Tobar's small town in El Salvador was torn apart by guerrillas and US- backed death squads. Still a preteen, he joined a different kind of death squad—the Hollywood Locos Salvatrucha—a clique of the Mara Salvatruchas, better known as MS-13. This international criminal organization began on the streets of Los Angeles in the 1980s, as Salvadoran children, whose families had fled their country's civil war, banded together to defend themselves from LA gangs. Denied refugee status, the Salvadorans found themselves pushed into the shadows and besieged by violence, and MS-13 itself mutated into a gang. When large-scale US deportations began, violence was exported from the United States to El Salvador, helping make it one of the world's deadliest countries and in turn propelling new waves of refugees northward. The Salvadoran journalist Óscar Martínez and his anthropologist brother Juan José Martínez got to know the Hollywood Kid when he informed on MS-13. In his hideaway shack, he recounted a life of killing—a death toll of more than fifty rival gang members—until his own murder ended the story. Vivid and violent, The Hollywood Kid brings a brutal world to life, illustrating the geopolitical forces propelling a country toward ever more vicious extremes.

Enemies Within Hitman: Enemy WithinA Novel

Two Pulitzer Prize-winning journalists take an unbridled look into one of the most sensitive post-9/11 national security investigations—a breathtaking race to stop a second devastating terrorist attack on American soil. In *Enemies Within*, Matt Apuzzo and Adam Goldman “reveal how New York really works” (James Risen, author of *State of War*) and lay bare the complex and often contradictory state of counterterrorism and intelligence in America through the pursuit of Najibullah Zazi, a terrorist bomber who trained under one of bin Laden’s most trusted deputies. Zazi and his co-conspirators represented America’s greatest fear: a terrorist cell operating inside America. This real-life spy story—uncovered in previously unpublished secret NYPD documents and interviews with intelligence sources—shows that while many of our counterterrorism programs are more invasive than ever, they are often counterproductive at best. After 9/11, New York Police Commissioner Ray Kelly initiated an audacious plan for the Big Apple: dispatch a vast network of plainclothes officers and paid informants—called “rakers” and “mosque crawlers”—into Muslim neighborhoods to infiltrate religious communities and eavesdrop on college campuses. Police amassed data on innocent people, often for their religious and political beliefs. But when it mattered most, these strategies failed to identify the most imminent threats. In *Enemies Within*, Appuzzo and Goldman tackle the tough questions about the measures that we take to protect ourselves from real and perceived threats. They take you inside America’s sprawling counterterrorism machine while it operates at full throttle. They reveal what works, what doesn’t, and what Americans have unknowingly given up. “Did the Snowden leaks trouble you? You ain’t seen nothing yet” (Dan Bigman, *Forbes* editor).

Into the Guns Penguin

"Harnden skillfully interweaves dramatic action sequences with the backstories of the book’s central figures, and briskly highlights the failures of U.S. policy in Afghanistan. Readers will be swept up in this little-known chapter of America’s ‘forever war.’" -Publishers Weekly This dramatic true story reveals the secret mission of the eight members of the CIA’s Team Alpha, the first Americans to be dropped behind enemy lines in Afghanistan after 9/11. America is reeling; Al-Qaeda has struck and thousands are dead. The country scrambles to respond, but the Pentagon has no plan for Afghanistan—where Osama bin Laden masterminded the attack and is protected by the Taliban. Instead, the CIA steps forward to spearhead the war. Eight CIA officers are dropped into the mountains of northern Afghanistan on October 17, 2001. They are Team Alpha, an eclectic band of linguists, tribal experts, and elite warriors: the first Americans to operate inside Taliban territory. Their covert mission is to track down Al-Qaeda and stop the terrorists from infiltrating the United States again. First Casualty places you with Team Alpha as the CIA rides into battle on horseback alongside the warlord Abdul Rashid Dostum. In Washington, DC, few trust that the CIA men, the Green Berets, and the Americans’ outnumbered Afghan allies can prevail before winter sets in. On the ground, Team Alpha is undeterred. The Taliban is routed but hatches a plot with Al-Qaeda to hit back. Hundreds of suicidal fighters, many hiding weapons, fake a surrender and are transported to Qala-i Jangi—the “Fort of War.” Team Alpha’s Mike Spann, an ex-Marine, and David Tyson, a polyglot former Central Asian studies academic, seize America’s initial opportunity to extract intelligence from men trained by bin Laden—among them a young Muslim convert from California. The prisoners revolt and one CIA officer falls—the first casualty in America’s longest war, which will last two decades. The other CIA man shoots dead the Al-Qaeda jihadists attacking his comrade. To survive, he must fight his way out against overwhelming odds. Award-winning author Toby Harnden gained unprecedented access to all living Team Alpha members and every level of the CIA. Superbly researched, First Casualty draws on extensive interviews, secret

documents, and deep reporting inside Afghanistan. As gripping as any adventure novel, yet intimate and profoundly moving, it tells how America found a winning strategy only to abandon it. Harnden reveals that the lessons of early victory and the haunting foretelling it contained—unreliable allies, ethnic rivalries, suicide attacks, and errant US bombs—were ignored, tragically fueling a twenty-year conflict.

The Gray Man Michael Joseph

This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.
