National Geographic Books Zimbabwe's guerrilla veterans have burst into the international media as the storm troopers in Mugabe's new war of economic liberation. In this book, Norma Kriger gives the unfolding contemporary drama a historical background, and shows continuities between the present and past. Between 1980 and 1987, guerrilla veterans and the ruling party colluded with and manipulated each other to build power and privilege in the army, police, bureaucracy and among workers. Both relied chiefly on violence and appeals to their participation in the anti-colonial liberation war as they

sought to vanquish their then political opponents. Today, violence and a liberation war discourse continue to be salient as Mugabe's party and its guerrilla veterans struggle to maintain power through land invasions and purges of a new political opposition. This study gives a critical review of guerrilla programs and the war-to-peace transitions literatures, thus changing the way we view post-conflict societies. Business to business markets are considerably more challenging than consumer markets and as such demand a more specific skillset from marketers. Buyers, with a responsibility to their

company and specialist product knowledge, are more demanding than the average consumer. Given that the products themselves may be highly complex, this often requires a sophisticated buyer to understand them. Increasingly, B2B relationships are conducted within a global context. However all textbooks are region-specific despite this growing move towards global business relationships – except this one. This textbook takes a global viewpoint, with the help of an international author team and cases from across the globe. Other unique features of this insightful study include: placement of B2B in a strategic marketing setting; full discussion of strategy in a global setting including hypercompetition; full chapter on ethics

and CSR early in the text; and detailed review of global B2B services marketing, trade shows, and market research. This new edition has been fully revised and updated with a full set of brand new case studies and features expanded sections on digital issues, CRM, and social media as well as personal selling. More selective, shorter, and easier to read than other B2B textbooks, this is ideal for introduction to B2B and shorter courses. Yet, it is comprehensive enough to cover all the aspects of B2B marketing any marketer needs, be they students or practitioners looking to improve their knowledge.

As a teenager, Danny Fisher had all he ever wanted -- a dog, a grown-up summer job, flirtatious relationships with older women -- and a talent for ruthless boxing that quickly made him a star in

the amateur sporting world. But when Danny's family falls on hard times, moving from their comfortable home in Brooklyn to Manhattan's squalid Lower East Side, he is forced to leave his carefree childhood behind. Facing poverty and daily encounters with his violent, anti-Semitic neighbors, Danny must fight both inside and outside the ring just to survive. As his boxing becomes legendary in the city's seedy underworld, packed with wiseguys and loose women, everyone seems to want a hand in Danny's success. Robbins's colorful, fast-talking characters evoke the rough streets of Depression-era New York City. Ronnie, a prostitute ashamed of how far she's fallen and desperately in need of friendship; Sam, a slick bookie who wants to profit from Danny's boxing

talent; and Nellie, a beautiful but lonely girl who refuses to believe Danny is beyond redemption -- each of whom has a different vision of Danny's future -- will help steer his rocky course. Gritty, compelling, and groundbreaking for its time, *A Stone for Danny Fisher* is a tale of ambition, hope, and violence set in a distinct and dangerous period of American history. A classic, sexy bestseller by Harold Robbins, reintroduced to a whole new generation of readers.

This book argues that the basic component of any society's social security and sustainability is cultural capital and its ability to fully recognise

diversity in knowledge production and advancement. However, with regard to African societies, since the dawn of racial slavery and colonialism, cultural capital ñ indigenous knowledge in particular ñ has iniquitously and acrimoniously suffered marginalisation and pejorative ragtags. Increasingly since the 1990s, cultural capital informed by African knowledge systems has taken central stage in discussions of sustainability and development. This is not unrelated with the recognition by America and Europe in particular of the central role that cultural capital could and should assume in the logic of development and sustainability at a global level. Unfortunately, action has often failed to match words with regard to the situation in Africa. The current

book seeks to make a difference by exploring the role that African cultural capital could and should assume to guarantee development and sustainability on the continent and globally. It argues that lofty pan-African ideals of collective self-reliance, self-sustaining development and economic growth would come to naught unless determined and decisive steps are taken towards full recognition of indigenous cultural capital on the continent.

Annotation "The essays in this volume come from well-respected academics working in a variety of fields. The ideals and concepts of manhood are examined as they are reflected in important Zimbabwean literary texts. However, if literature provides a rich vein for the analysis of masculinities, what makes this collection so interesting is the interplay of literary analysis with chapters that provide a critical examination of the ways in which ideals of manhood have been employed in, for example, leadership and the nation, as a

justification for violent engagement, in the field of AIDS and HIV, etc."--BOOK JACKET.

"...OF GREAT VALUE FOR ANYONE WISHING TO UNDERSTAND CURRENT ZIMBABWEAN REALITY."--AFRICA TODAY.

An overview of Zimbabwe's principle literary figures, this study examines the ways in which the prevailing social setting & each writer's personal background determined the characteristics of their literature. Equal attention is devoted to the earlier school of black writers as well as those who gained prominence after independence, such as Chenjerai Hove (1990 Noma Award winner), Shimmer Choyda (1990 Commonwealth Writers Prize winner), & the female author Tsitsi Dangarembga.
